The very least you should know about Senator Bob Griffin.

You should know who he is.

Robert P. Griffin is one of your two United States Senators. He has been for 6 years. He's running for re-election this fall.

You should know he's got muscle.

In just one term, Bob Griffin has made himself (in Newsweek's words) "...a force to be reckoned with" in the Senate. His colleagues elected him to be the Minority Whip, one of the top 4 leadership posts in the Senate. It's a position from which he can — and often does — influence Presidents.

You should know some of the things he's done for Michigan.

Bob Griffin convinced the President that the auto excise tax should be repealed. That meant thousands of jobs for Michigan.

Senator Griffin re-instituted a supplemental food program for undernourished infants and pregnant mothers in Detroit's ghetto.

He blew the whistle on forced school busing, and introduced a Constitutional amendment to prohibit transportation of pupils on the basis of race, color or creed.

He's a consistent and persistent battle against pollution. ("Watchdog of the Great Lakes," he's been called.)

You should know some of the things he's done for the country.

Bob Griffin co-authored the Landrum-Griffin Act, the "bill of rights" for rank and file union members.

He's helped millions of students attend college with low-interest education loans, through his National Student Loan Program.

He's the Senator who stood up to two Presidents, He's helped millions of students attend college with low-interest education loans, through his National Student Loan Program.

"...he's proving himself a successful and tenacious David in a city of Goliaths," says the Washington Daily News.

"...he's a political moderate with a reputation for going against the establishment," says Newsday.

"...he's one of the most effective Senators in Michigan's history," says the Detroit Free Press.

ELECT THE MAN WITH THE MOST EXPERIENCE, I

The members of NATAL, the National Association to Assure Life, recently attended a campaign rally in Lansing, where Ray Terpening, a Democratic vice-president candidate for the 1972 election, was introduced. Terpening, who is known for his strong stance on life issues, spoke extensively about the need for individuals to stand on "One Million for Life" and to vote for candidates who support the pro-life cause.

Terpening emphasized the importance of electing candidates who are committed to protecting and promoting the sanctity of human life. He highlighted the significance of this issue in today's political landscape, calling for a return to traditional values and principles that value the lives of all individuals, regardless of their age, gender, or status.

Terpening's campaign is designed to erase the stigma associated with adopting and to promote the idea of giving every child a fair chance at life. He encouraged attendees to rally together and work towards a future where every child is born into a loving and supportive family.

The event was well-attended, with hundreds of supporters gathering to hear Terpening's speech. Attendees were encouraged to sign up for the "One Million for Life" campaign and to spread the word to their friends and family members.

The upcoming election is crucial for the pro-life movement, and Terpening is determined to make a difference in the fight for life. He urged everyone present to join him in this important cause, reminding them that their vote can make a significant impact on the future of our nation.

The first scene that Mr. Smith worked on was the student council meeting. After the meeting, Mr. Smith decided to work on the set for the upcoming play. He started by measuring and cutting the wood to the correct dimensions. Then, he assembled the pieces using screws and nails. The set was then painted and detailed to look like the school's administration building.

After the set was completed, Mr. Smith worked on the costumes. He went to the local fabric store and picked out materials that would look like the characters' clothing. He then designed and sewed the costumes, making sure they were comfortable and fit well.

For the next scene, Mr. Smith worked on the library set. He started by finding a suitable backdrop and then began designing the shelves and tables. He then added books and other props to complete the scene.

The final scene that Mr. Smith worked on was the chemistry lab. He designed the lab to look like a typical high school lab, with the necessary furniture and equipment. He then added props and signs to complete the scene.

Overall, Mr. Smith put a lot of effort into creating realistic and detailed sets for the upcoming play. His hard work paid off, as the sets received high praise from the cast and crew.

- **ELECT THE MAN WITH THE MOST EXPERIENCE, QUALIFICATIONS AND TRAINING**

ELECT RICHARD FRISKE

To Represent the 10th District in THE CONGRESS

HE KNOWS YOUR PROBLEM —

RICHARD FRISKE is a farmer. He is a successful farmer, but he knows what it means to try to farm at a profit under some of the present "bureaucracy" rules of government agencies. He knows for problems of the small businessman, industry and labor.

HE WILL REPRESENT YOU —

He adopts the idea that a "potential bureaucrat" means more about how to do the best business for each one. Now he’s in Congress where your voice counts the most.

HE BELIEVES IN CONSTITUTIONAL GOVERNMENT —

He believes in "constitutional government" where the voice of the people is heard, where government is limited, where it is believed that all matters are "undemocratic," where Constitution and Law are supreme and where the people have a voice.

If you don't vote, don't complain

Once again it is the people's right and duty to elect their representatives. For the next 4 years and possibly a lifetime about our "reform" government.

Fortunately, in Clinton County, voter interest seems to be above a little average.

The county clerk's office reports a total of 24,348 persons registered to vote. That figure represents an increase from April to July of 1,291 and, from July to Aug, 2,725.

There is a very high voter registration rate in Clinton County.

Letters to the Editor

Is it murder?

To Editor:

Is it murder? This is the question before us. It is the question that many people are asking themselves. The New Testament, we are told, that ye present your bodies a living sacrifice. This issue would never have gotten to the New Testament if we had not been able to look at it.

Mrs C.F, Schaefer

An issue of morality

To the Editor:

We have read with great interest the article appearing in your paper on abortion. We feel that we should express our opinions concerning this issue.

We feel that God, in creating the human being, bestowed upon us a moral nature. If we control our own bodies, we are also controlling God's creation. We are not the ones who can end life. We are not God.

L. Snyder

Response to J H Svendsen

To J H Svendsen

I am a reader at St John's High School and would like to respond to the reply by J H Svendsen. Your letter of Nov 7, 1972, stated, "It is the Rotary Club of St Johns that has no abortion, don't have an abortion, can't try to stop an abortion. Don't even think about it." This is not true. It is the right of every citizen to have access to legal abortion.

Sincerely,

James Thorburn

P.S. I read your letter and was glad you brought up the issue. I do believe that abortion is a matter of personal choice and I support the right to abortion.

Pray for the unborn

To the Editor:

I am writing in response to an article, "Unborn Babies Deserve Life," that appeared in the Oct 18, 1972, issue of the County News. I believe that the issue of abortion is a complex and controversial one, and I would like to offer my thoughts on the matter.

In regard to the letter Mr. Snyder wrote in the Oct 18, 1972, issue of the County News, he stated that "It is the Rotary Club of St. Johns that has no abortion, don't have an abortion, can't try to stop an abortion. Don't even think about it." This is not true. Our community supports and protects the right to abortion.

In conclusion, I believe that the issue of abortion is a personal one, and I support the right to abortion for all women. I urge everyone to consider the matter carefully and to vote for Proposal B.

Sincerely,

Elizabeth A. Nobis

**FOOD PRICES HAVE GONE UP THE LEAST OF ANY MAJOR CONSUMER EXPENSE**

This seems surprising, but the fact is this the United States Department of Labor. Specifically, we spend 12.4% of our income for food at the super market, and another 0.3% for food eaten out. So the total food expense is 12.7%. Now compare that to some other countries.

- England 25%
- France 20%
- Japan 15%
- Italy 15%
- Russia 45% to 65%

Food prices haven't gone up as much as most other prices. The source for this fact is the United States Department of Labor.
