Hospital questions unanswered

ST. JOHNS—A scheduled meeting between the Clinton County Medical Group and the Board of Trustees of Clinton Memorial Hospital did not take place Friday as the Medical Group suddenly dropped its proposal, but the trustees of the hospital said they are still in favor of the proposal.

However, the trustees did reply to the request for the meeting through a letter to Co-Chairman Mrs. Baths H Partners.

In the letter, Together President Alain De Bois and Vice President of the Board of Trustees Friend said that the Medical Group had asked to have a meeting with the trustees to discuss the proposal. It is not clear if the Medical Group was asking for the meeting because of the question of the proposal, but the trustees said they would be willing to have a meeting if the Medical Group would be willing to have a meeting.

The CONVERTING COMMITTEE had presented the Board of Trustees of the hospital association with a request to have a meeting with the trustees. The Medical Group had asked to have a meeting with the trustees to discuss the proposal. It is not clear if the Medical Group was asking for the meeting because of the question of the proposal, but the trustees said they would be willing to have a meeting if the Medical Group would be willing to have a meeting.

HOSPITAL GETS MAXIMUM ACCREDITATION

ST. JOHNS—Clinton Memorial Hospital received its maximum accreditation from the Joint Commission on Accreditation of Healthcare Organizations Friday, Dec. 1. This is the maximum level of accreditation that a hospital can receive.

The Joint Commission on Accreditation of Healthcare Organizations (JCAHO) is an independent, not-for-profit company that accredits healthcare organizations. It is responsible for ensuring that healthcare organizations provide the highest quality of care to their patients.

The hospital was awarded the maximum accreditation for its hospital services, which includes inpatient services, long-term care, and outpatient services. The hospital was also awarded the maximum accreditation for its medical staff, which includes physicians, nurses, and other healthcare professionals.

The hospital will now be able to attract more patients and will be able to expand its services. The hospital will be able to offer more services to its patients, which will improve the quality of care that patients receive.

Winter tax statements are mailed

ST. JOHNS—Winter tax statements were mailed Friday by the Clinton County Tax Department. The statements are due by January 15 and must be paid by February 15.

The statements include information about the property, including its value, assessed value, and tax due. The statements also include information about the owner of the property, including their name and address.

The statements are important because they determine the amount of property tax that will be owed by the owner. The property tax is a significant source of revenue for the county, and it is used to fund important government programs, such as education and public safety.

The statements are mailed to the owner of the property, and they must be paid by the due date. If the tax is not paid by the due date, a lien will be placed on the property as collateral for the tax due.

Coleman Vaughan: force behind hospital idea

by Mrs. S. E. Richardson

From the beginning, Coleman C. Vaughan was a force in the movement to build a modern hospital for Clinton County. He was elected chairman of the original committee formed in January 1894, and as the movement gained strength larger committees were formed, he was elected chairman of the committee formed in February 1896.

Mr. Vaughan had been publisher of the Clinton Republican since 1888. Always zealous for progress, in 1890 he organized the first political subscription for Governor John T. Cook's campaign. Mr. Vaughan was a force in the movement to build a modern hospital for Clinton County.

From the beginning, Coleman C. Vaughan had been publisher of the Clinton Republican. He was a member of the first Board of Trustees, a position to which he was appointed in the State Board of Health.

When Coleman Vaughan was persuaded in 1894 to leave the rank of publisher in order to enter the office of secretary of state, he was elected and re-elected twice. It was customary at that time for the first committee formed in January 1896, and as the movement gained strength larger committees were formed, he was elected chairman of the committee formed in February 1896.

In 1898, Governor Hazen S. Pingree appointed him to the State Board of Health. In 1900, Coleman Vaughan was persuaded in 1894 to leave the rank of publisher in order to enter the office of secretary of state, he was elected and re-elected twice. It was customary at that time for the first committee formed in January 1896, and as the movement gained strength larger committees were formed, he was elected chairman of the committee formed in February 1896.

Mr. Vaughan was a member of the first Board of Trustees, a position to which he was appointed in the State Board of Health.

It was at the first annual meeting of Clinton Memorial Hospital, he was elected the first president of its Board of Trustees, a position which he held for 10 years.

Today, the former St. John's Hospital located at 108 Spring Street, is occupied as an apartment dwelling. It had been the hospital in the county for 18 years back in the 1900's.

For the benefit of Coleman C. Vaughan as he was appointed to the State Board of Health, Michigan Republicans persuaded him to leave the rank of publisher in order to enter the office of secretary of state, he was elected and re-elected twice. It was customary at that time for the first committee formed in January 1896, and as the movement gained strength larger committees were formed, he was elected chairman of the committee formed in February 1896.

The State Hospital (now called the Ionia State Hospital).

In 1914, Michigan Republicans gathered to support the project, they were accompanied by Governor Fred M. Gubler, Mr. Vaughan was persuaded in 1894 to leave the rank of publisher in order to enter the office of secretary of state, he was elected and re-elected twice. It was customary at that time for the first committee formed in January 1896, and as the movement gained strength larger committees were formed, he was elected chairman of the committee formed in February 1896.

In 1916, Coleman Vaughan was elected secretary of state, but he was still at war, so he was not elected secretary of state in 1916 and served until 1926, and as the movement gained strength larger committees were formed, he was elected chairman of the committee formed in February 1896.

In 1923, C. C. Vaughan sold the State Hospital (now called the Ionia State Hospital).

In 1926, and as the movement gained strength larger committees were formed, he was elected chairman of the committee formed in February 1896.

Mr. Vaughan had been publisher of the Clinton Republican since 1888. Always zealous for progress, in 1890 he organized the first political subscription for Governor John T. Cook's campaign. Mr. Vaughan was a force in the movement to build a modern hospital for Clinton County.

Musicale reflects strong national reaction

For the Musicale audience, the Armistice Day celebration provided the theme for this week's programs. The arrival of American troops was the focus of this event of World War I, and the sentiment was about their interest in returning home and the strong national reaction to their coming. The allies cheered their coming, and the people of America felt the front lines to man a machine and their families go home. The Musicale relives the strong national reaction to the Armistice Day celebration and the arrival of American troops.

Bathing - The Flying Bees from Bath, Mich., may have lost two of the best because they have left school, but they have a long list of returners and a few stars in the making. With the addition of rosters of other teams, the Bath Bees may be the best team they have had in many years.

The Bees have one of the best teams they have had in many years. That is the prediction of followers of the league player with a 21.1 points per game average and 23 rebounds. Stoll rolled up 419 rebounds to the team. He should improve his 21.0 points per game average and 23 rebounds.

"He has no glaring weaknesses," said coach of the team forward. "He will be one of the best guards of the season. but has improved real fast." Perry Mitchell, 6-0, 170-pound senior forward, is the only player with a height advantage. Perry has grown a lot and has improved a lot," said coach of the team. "He has had a bad start and has been injured. He is a good shot and has found his range." Perry has 21.0 points per game.

Leader dog week Nov. 28-Dec. 4

ROCHESTER—Dec. 1 through
Dec. 4 has been proclaimed
Leader Dog Week, a celebration to
bring attention to the important rehabilita-
tion program being conducted at the
Leader Dog School.

The non-profit school, Leader Dogs for the Blind, was founded in 1939 by Lions of Michigan —
the important rehabilitation pro-
gram being conducted at the
Leader Dog School.

The St. Johns Lions Club has agreed to sponsor what
might be the first in the nation program to pre-train seeing
eye dogs before they enter Rochester’s training school. The
program, called the 4-H Trail Waggers club, meets each week
to discuss ideas and train the
Bolog of Hazel, leader dog
St. Johns, club leader, Gayle
representative, and Jeannine
and has been trained over 1,000
leaders. The program is designed to
prepare the dog for the unique man-
dog relationship which is so
necessary in state of Michigan —
by enhancing the dog’s
abilities to guide and
follow the blind person.

A Leader Dog requires the same
to enter fully, despite a handi-
cap, into the life of the com-
munity — to live as normal and

JIM HOLMES

DeWitt—Jim Holmes is the new science teacher at DeWitt High School. Holmes recently graduated from Michigan State University. While Holmes comes from East Lansing, he has lived in Lansing for the past 11 years. He has taught science at the middle school level in Port Huron and in the Lansing Community College system. Holmes is married to Mary and has two children, Elizabeth and James. Holmes is an avid runner and enjoys spending time with his family. He is looking forward to teaching at DeWitt High School and working with the students.

Debris from the derailed freight cars littered the landscape along the southern edge of the railroad right-of-way.

Things could have gone differently, as this tanker car did not catch fire or explode as some officials had feared. The tanker contained ammonium.

A crane struggles to lift the derailed tanker onto the tracks.

We noticed with some disappoinvement that U.S. Rep. Gerry Brown (R-Kalamazoo), who represents minutes of the Zionsville School Board, did not see fit to sign any offers to the suburban school district. Our representatives did not sign any offers to the district, but we did see that they were present at the meeting.

The board was scheduled to discuss the budget for the next fiscal year, with a focus on the various districts within the county. The current budget represents approximately $100,000 for the 416,000 residents in the Three Districts (Calhoun, Kalamazoo, and Barry counties). We would hope that next year, Clinton County would be represented in the selection process.

'Try the community

A strong, active, and enthusiastic Chamber of Commerce is the best and most effective way to promote the economy of this community. It has also been a powerful advocate for the interests of the business and professional people throughout the community. The chamber is involved in a wide range of activities, including the promotion of tourism, economic development, and the enhancement of the quality of life for all residents.

The chamber is an organization of business and professional people, which works to promote the economic development of the community. The chamber is also involved in a number of other activities, including the promotion of tourism, economic development, and the enhancement of the quality of life for all residents.

And perhaps the most significant resource that the chamber brings to the community is the ability to join the "hallow" businesses, professional people, and residents in the area. The chamber is the official voice of the area, and it is the chamber that represents the interests of the business and professional people throughout the community.

For a business to be held in the public eye, it must be held in the public eye. The chamber is an organization of business and professional people, which works to promote the economic development of the community. The chamber is also involved in a number of other activities, including the promotion of tourism, economic development, and the enhancement of the quality of life for all residents.

We note With much interest the statement of Mrs. Louise Smith, as printed in the local paper recently. Your estimate of the number of the crime rate being 60 per cent is right on the mark. I agree that we should not give up. But in order to reduce the crime rate, we must first reduce the demand for it.
