**Police arrest seven on arson charges**

On Wednesday the Clinton County Sheriff's Department arrested seven juveniles in connection with an arson investigation. The seven juveniles were found to have caused at least 15 fires in the county. The suspects are due in court on December 17.

**Clinton County's Green Haven**

**Changing problems to opportunities**

Jannie Green's last year of existence was marred by a fire which destroyed the main building of the home. The fire started on December 15, 1974, and caused extensive damage to the building. However, the fire did not stop the work of the home, and efforts are now underway to rebuild and expand the facility. The home provides a safe and nurturing environment for children in need, and the staff is dedicated to helping them reach their full potential.

**Sewer project runs into snag in Watertown**

The plan for a new sewer system in Watertown, Michigan, has encountered delays due to the high cost of the project. The estimated cost has increased from $350,000 to $430,000, which is beyond the budget of the township. The officials are now considering alternative options or seeking funding from other sources.

**New administration looks ahead in DeWitt Township**

The DeWitt Township Board has welcomed its new members, who will begin their term on January 1. The new board is committed to addressing the needs of the community and ensuring that the township runs smoothly. They are looking forward to working together to achieve the goals set forth in the township's plan.
Drivers have problem with slippery roads

The Clinton County Sheriff's department reported a busy week. Thirty-six accidents have been reported in an average week in the month of December.

The department handled 14 different accidents this week. Five people were injured in these accidents. One person was transported to the hospital.

The number of accidents is up this year compared to last year. The department is working to keep the roads clear and safe for drivers.

The department also handled a number of calls for assistance. These calls included aid to vehicles that were stuck in the snow, as well as calls for medical emergencies.

The department would like to remind drivers to drive carefully and to stay alert.

PARR'S REXALL DRUG STORES
TruckAmerica, Ltd. has been located in the former marijuana store in downtown Clinton as of December 9. The store, which was a popular hangout for locals, is now home to a new automotive company that specializes in restoring classic cars.

In other news, local officials have announced plans to build a new junior high school in Clinton Township, which will serve grades 6-8. The project is expected to cost $25 million and will be funded through a bond issuance.

The Clinton County News is pleased to announce the opening of our new office in downtown Clinton. This location will serve as our headquarters for the next six months while we are building our new permanent facility in the heart of downtown.

In sports news, the Clinton County High School football team has qualified for the state playoffs and will play in the semi-finals this weekend. The team has achieved a perfect 12-0 record this season and is expected to face tough competition in the coming weeks.

In other news, the local library has announced plans to expand its facilities and purchase new technology to serve the community better. The project is expected to cost $1 million and will be funded through a local bond issuance.

The Clinton County News is proud to serve the community and welcomes feedback and suggestions for improvement. Please feel free to contact us with any comments or suggestions.

Doing the bump with a Christmas tree

By Chloe Paddock

Dec 13, 1976

Be sure to bump, bump it up the ground.

That’s how to find out if your Christmas tree is going to stay up through the holidays.

At the first indication of a bump, 

a tree that’s still firm to the touch, this is firm.

Some species, spruce, for example, do indicate characteristics of the species and does not necessarily mean the tree isn’t firm.

Bumps that occur but when the tree is bumped, the tree is firm.

Some bumps occur, on the other hand, that occur but not necessarily mean the tree 

is firm.

GRAND RAPIDS — Four for the first time in school history. Obviously, the Fowler girls basketball team picked up just Friday night in their first game, losing their first game to Pewamo.

Pleased by a solid showing of four firsts, but led by a second for the first time in school history, obviously.

The Eagles went on to 12 points, the team's second game of the season, 5-3. A freshman, Fowler's 19-year-old, 6'4" junior, with a season-high 24 points, led the team at 60.

The Eagles' defense continued to be effective early in the game, holding Pewamo to 16 points, 10 from the free throw line.

Now it's time to meet Fowler in the 1976 state title bid.

The Eagles went on to win their first game of the state title bid, with eight of their first 10 attempts on the floor.

Mendon, Portage萃萃ed on its high level of play, and eventually succumbed to Fowler in the final frame to take the ICL title.

The Bees' 12 in the 4th quarter, getting 19 to the Bees' 16 in the 3rd period. Fowler's 19-year-old, 6'4" junior, with a season-high 24 points, led the team at 60.

The Bees had a few points in the 4th quarter, getting 19 to the Bees' 16 in the 3rd period. Fowler's 19-year-old, 6'4" junior, with a season-high 24 points, led the team at 60.

The Bees had a few points in the 4th quarter, getting 19 to the Bees' 16 in the 3rd period. Fowler's 19-year-old, 6'4" junior, with a season-high 24 points, led the team at 60.

The Bees had a few points in the 4th quarter, getting 19 to the Bees' 16 in the 3rd period. Fowler's 19-year-old, 6'4" junior, with a season-high 24 points, led the team at 60.

SPORTS BRIEF

The St. Johns Redwings will face the Bullock Creek Lancers tonight in the opening game of the St. Johns High School basketball season. The Redwings are looking for their first win of the season, while the Lancers are seeking their first loss.

The Redwings are led by senior captains Brett Welton and Wayne Foreback, who both averaged 14 points per game last season. The Lancers are led by junior forward Rich Johnson, who averaged 18.5 points per game last season.

The game is scheduled to begin at 7:30 p.m. and will be played in the St. Johns High School gymnasium. The winner of the game will face the Corunna Cavaliers in the next game of the season.

The Redwings and Lancers both have a tough schedule ahead, with games against some of the top teams in the state. The Redwings will face the Owosso Trojans in their next game, while the Lancers will face the Lansing Eastern Eagles.

The Redwings and Lancers are both looking to make a run in the state tournament this year. The Redwings have not made it to the state tournament in five years, while the Lancers have not made it in six years.

The Redwings and Lancers are both looking to make a statement this year, and are ready to fight for a spot in the state tournament.
Late rally falls short

St. Johns nipped by Swan Valley

By Bill Donahue

"It was a tough one to lose," said St. John's coach Doug Jarvis. "We had their best shots, but we were able to hold onto the lead."

St. John's Wayne DeDyne scored 16 points coming off the bench, most of them outside shots, and was a key factor in the Jayvees' slim victory.

The Redwing jayvees soundly defeated themselves. Redwing Davey Dollis made a quick three to start the second half and the offense started rolling. With this combination, the Redwings' record-making win was a foamy victory margin.

Wayne DeDyne paced St. John's with 12 markers each. Contributing also to the scoring was Mark Geller who dumped in 15 points, followed closely by Jerry Bashore and Mark White who each scored 17 points. But the Redwings were downed guests quite handily.

In earlier action last Tuesday night, Corunna's new star, Jeff Cox, was named the Most Valuable Player for the night.

Hitting for 30 big ones through again with a sensitive performance at a short jump in the 75-72 victory margin.

The Redwings still had one last gasp, and with 2 seconds left, St. John's held a 10-point lead and seemed to be in control, as St. John's Mike and Jeff Cox and Randy Porter each scored 4 points.

St. John's is now 2-1 in Mid-Michigan play, while Redwing Michigan hasn't scored yet in 10-5, 18-10. They are the second team to win the Redwing game.

The entire court seemed to be themselves. Redwing Wayne DeDyne made a quick three to start the second half and the offense started rolling. With this combination, the Redwings' record-making win was a foamy victory margin.

The Redwings still had one last gasp, and with 2 seconds left, St. John's held a 10-point lead and seemed to be in control, as St. John's Mike and Jeff Cox and Randy Porter each scored 4 points.

St. John's is now 2-1 in Mid-Michigan play, while Redwing Michigan hasn't scored yet in 10-5, 18-10. They are the second team to win the Redwing game.
Pirates rally to the end

Eagles withstand stubborn P-W bid

By Harold Schmidt
Sports Editor

POWERS -- A closely fought affair, but it didn't take much to swing the 1976 powderkeg situation Friday night and send the visiting Pewamo-Westphalia Pirates to their first loss in five games. Pewamo-Westphalia head coach Carl Trierweiler was concerned. His Eagles held on to the win at the 11th hour for the unseasonable win.

The visiting Pewamo-Westphalia Pirates used double team defense, saw a key foul decision favor the Eagles and then had to weather a Fowlerville rally to hold on to a 55-53 win over the local squad at the Fowlerville High School gym.

The win improved the Eagles to 4-0 in a season's work. The loss dropped the Pirates to 3-2 on the year.

Over the years the two teams have been evenly matched. This season's clash, however, was of particular interest considering the game was played in Fowlerville, which is home to the visiting Pewamo-Westphalia Pirates.

Trierweiler's squad was again overpowered. The Eagles, which won last year's meeting 54-51, held their own in the face of a determined Fowlerville squad and managed to hold off the Fowlerville attack to win.

The Eagles were led by their three seniors, Jandernoa of the Eagles, scoring 24 points and eight rebounds. It was a dominant performance for the Eagles and the team.

P-W's ace shooter Dave Belen, 11, lets a basket fly and missed an offensive foul. Schafer with six buckets and 17 points was a key player in the Eagles' victory.

The Eagles worked together with the ball under their own basket, but were unable to hold off the Fowlerville attack.

The Eagles led by their three seniors, Jandernoa of the Eagles, scoring 24 points and eight rebounds. It was a dominant performance for the Eagles and the team.

Wilson hits for 34
De Witt conquers Mason

DeWitt's Dave Strouse and Bob DeWitt went to work in the first quarter in a Capital Circuit, victory over Mason. The Panthers, led by Strouse, got 34 points, while Mason falls further down to an 0-3 mark.

Other Panthers scoring big were 19 points, Strouse had 19 in addition to Wilson's 17 outdone by Strouse's 34.

CREATIVE GENES SLOGAN
at genetics meeting

By Joe Folken
Carson City Forester Director

New breeders have been introduced to Central Genetics. That's no surprise, but Central Genetics dyes have been different this year. The group decided to take a break from the normal one pound of the desired chemical in one gallon of water. Materials to be treated for coloring include: pine cones, kindling, or newspaper logs. These chemicals are corrosive. Without protective clothing and disposing of these materials safely, you could injure yourself. It is recommended that you wear rubber gloves to protect your hands, long sleeves, and wear the proper protective clothing.

Chemical supply companies, agricultural chemical outlets, hardware stores and drug stores are likely to have the chemicals you want. See your local Michigan State University Extension forester, county extension agent, or newspaper for a list of the suppliers in your area. These chemicals may be used to produce the colors: copper sulfate to produce blue, starch and iron sulfate to produce green, and water glass to produce red. Copper sulfate is toxic and should be used only in a spot where you don't want it.

To make a solution for the dying project, make a salt solution. For each jar or bottleful of solution, combine one pound of the desired chemical in one gallon of water. Use the jar to hold your solution. Water glass should be a white gel-like material in each batch of solution. Paper logs, kindling or newspaper logs treated with these chemicals can be used to produce blue, red or green color in each batch of solution.

To make the solution, use a second jar. In each gallon of water, dissolve one pound of material to be treated. You can use one pound of the desired chemical in one gallon of water to produce blue, red or green color in each batch of solution. Soap and soft water are used to make a solution suitable for dying. After the chemical is dissolved, soak the material to be treated for one hour in the solution. The material will be a rich blue color. When you are ready to use the chemical, pour the solution off and throw it away. The solution should be stored in a container unless you want to reuse it.

When dying, see that the temperature is about 50°F (10°C). The temperature of the water should be about 75°F (24°C). The water should be slightly alkaline. The solution should be used within a week or two. If it is not used within a week or two, it should be discarded. The use of the solution is limited to the following:

1. Blue color
2. Red color
3. Green color

Use the jar to hold your solution. Water glass should be a white gel-like material in each batch of solution. Paper logs, kindling or newspaper logs treated with these chemicals can be used to produce blue, red or green color in each batch of solution. Soap and soft water are used to make a solution suitable for dyeing. After the chemical is dissolved, soak the material to be treated for one hour in the solution. The material will be a rich blue color. When you are ready to use the chemical, pour the solution off and throw it away. The solution should be stored in a container unless you want to reuse it.

When dying, see that the temperature is about 50°F (10°C). The temperature of the water should be about 75°F (24°C). The water should be slightly alkaline. The solution should be used within a week or two. If it is not used within a week or two, it should be discarded. The use of the solution is limited to the following:

1. Blue color
2. Red color
3. Green color
Green Haven--changing problems to opportunities in Clinton County

(From Front Page)

This still had several hundred items and was just one of the many in the 12 year old child's life in the other county. It added another dimension of love.

Of the children at Green Haven, Mrs. Cook knew in thirty-nine of their lives. These were the children who were referred by the local homes, or referred directly to the home. These were the children who were either overlooked or ignored. Mrs. Cook knew what the children were like when they left Green Haven until the time they grew up, but we have to practice what we preach. Mrs. Cook was elected to fill the role of the father is transferred to in a negative voice, implying that the role of the father is not a positive one. There will be no title, group of the new family.

The client of the Christmas program is a special guest was Mrs. Lester Becker. Mrs. Becker was elected to fill the role of the father is transferred to in a negative voice, implying that the role of the father is not a positive one.

Mrs. Becker was elected to fill the role of the father is transferred to in a negative voice, implying that the role of the father is not a positive one.

Elsie Historical Association meets

The November business meeting of the Elsie Historical Association was called to order by Past President Helen Kline at 6 p.m. on November 17, 1976 in the Elsie Historical Museum. Meetings are held at 6:30 in town hall.(h)Stearns room. The next meeting will be held on the third Tuesday of each month.

Mrs. William J. Kline presented a history of the Elsie Historical Museum and received a thank you card from the Elsie Historical Society for her work in organizing the museum.

Old Scrooge was a whisp of a businessman

And if there'd been Individual Retirement Accounts In his day... he'd have been first in line.

Under federal law, millions of workers are now set aside up to 15% of their earnings annually, to a maximum 3% of income for their retirement. To help you maximize:

El institutes a new tax shelter, Central National Bank now offers Individual Retirement Accounts (IRAs) to help you multiply a surprisingly modest investment into a substantial retirement nestegg.
