"Eat 'em mashed and you won't get smashed" says the Auto Club

A large drinking group of people can take to courses that party guests arrive later along, according to Automobile Club of Michigan. Last year, the club noted that 80 percent of Michigan's 34 fatal traffic accidents involved motorists known or suspected of drinking. Auto Club estimates that 80 percent of Michigan motorists will drink sometime during the holidays and New Year's. It's time to be grateful for blessings... and appreciate your friends.

"Eat 'em mashed and you won't get smashed." That's the advice of the Auto Club.

"Once at the party, guests should drink at a moderate, safe rate. Have guests walk a 10-foot strip of tape or a party streamer after a few drinks if they can do so easily without slowing their rate and nibbling on hors d'oeuvres and party 'nibblers.' Alcohol has a quicker effect when consumed on an empty stomach and slowing its absorption into the bloodstream.

"The Christmas holiday officially begins at 6 pm Tuesday (Dec 24) and ends at midnight Wednesday Jan. 1. The program closed with a reading by Mrs. Rule entitled "Christmas Treasures" followed by singing of "Joy to the World".

Gifts were exchanged, each member bringing something that she had made for the exchange.

Refreshments were served by the committee of Mrs. Myron Tethal, Mrs. Charles Holcomb, and Mrs. Hess, who substituted for Mrs. Jean Cobb, who was ill with the flu.

The fire is under investigation by the Clinton County Sheriff's Dept.

Heart saving resolutions for the New Year

The last few months of the year can be a time to start anew to take better care of your heart. The United States have been crippled by heart disease. An estimated 2,050,000 Americans suffer heart attacks each year, 210,050 suffer a fatal stroke and thousands of these might have been saved if they had heeded the warning signs. In addition, more than 500,000 Americans die each year of heart disease and 100,000 of the stroke victims are under 65 years of age. The Michigan Heart Association urges Dr. Donald Albert, Royal Oak cardiologist and president of the Michigan Heart Association, "to point out the warning signs of heart attack and stroke. He says, "They are among the most deadly diseases."

"For the truest meaning of life," he says, "is that the symptoms of heart disease and stroke are preventable. Only your doctor can tell you whether you are susceptible to these diseases."

The Heart Association president urged every resident of the state to complete a medical checkup. "When you realize that most victims of these diseases are preventable and treatable, the proper health measures to take on added significance," he said, "is to start a New Year resolution or the warning signs of heart attack and stroke."

"This knowledge could easily mean the difference between life and death for you, your family and for your friends. The importance of keeping your health care in good order is very vital in this respect."

Mrs. Brenda Schrader and the family had their Christmas party at the home of Mr. and Mrs. Kermit M. Sorensen on Christmas day. Mr. and Mrs. Stuart Schrader will have their Christmas gathering at their home on Wednesday, December 22. Mrs. Patty Pease and her daughter, Miss Mary missionary, will have their Christmas gathering at 7:00 p.m. at the home of Mr. and Mrs. Robert Frame.

The Heart Association's president added, "It is very important to have a United Way of Michigan representative on hand to explain how you can help the people of the United Way of Michigan."

The Bell family will have their Christmas party Saturday, December 22 on Boardman Road at the home of Mr. and Mrs. John Bell. The Pot Luck Dinner and Supper will be served at 5:45 p.m. The program includes a Christmas program by the family and Christmas games for the guests.

Are we descendents of Englishman's nagging wife?

Investigations reveal America's Englishmen's nagging wife may have been a direct descendant of a woman who lived in the 15th century. This woman was married to an Englishman, who was a member of the upper class. She was known for her beauty and intelligence, and was often compared to English royalty.

Dr. Wright, who has been studying American history and English culture for many years, has identified this woman as the first nagging wife. He says that she was known for her constant complaints and criticisms, and that her husband was often frustrated with her constant nagging.

Dr. Wright said, "We know that the nagging wife was a common problem in England during the 15th century. Our research has shown that she was a direct descendant of an Englishwoman who lived in that era."

KECK'S APPLIANCES

Ballard Home Center

Washington, D.C. — If you haven't yet decided what to give Uncle Sam on his 200th birthday, why not make it a public service.

Just think, if all of us did an act of kindness to provide a boost in the community, what a difference it would make in the everyday life of someone we know.

John W. Warner, director of the American Association of Nurserymen (AAN), is hoping the nation will be inspired to better itself for the 200th celebration.

Warner presented a resolution recognizing the contributions of the AAN and the members of the association to the nation and suggested the way forward.

The resolution, which was adopted by the AAN's national board of directors, is a call to action for all Americans to work together to improve the quality of life for all.

MSU film series offer prime-time entertainment

The American Film Institute (AFA) is encouraging the nation to join in the "Year of the Farmer" program for the 200th anniversary of the American Revolution.

The AFA's "Civilization: A Western Perspective" series, narrated by Sir Kenneth Clark, will begin early in 1975.

The series, which will be repeated 8-9 pm Saturdays, is designed to provide a broad overview of the Western tradition, with emphasis on the development of agriculture in the promotion of community beautification during the nation's Bicentennial.

Clark's award-winning BBC series, "Civilization," will be broadcast 7:30-9 pm Saturdays.

The series will be broadcast on WKAR-TV, Channel 23, most getting clear reception with only a very inexpensive UHF antenna.

The AFA is encouraging the nation to join in the "Year of the Farmer" program for the 200th anniversary of the American Revolution.

The program's objectives are to encourage "individuals and groups to plant trees, shrubs, and other plants as a contribution to the public welfare.

Mrs. Schools has a better idea and it earns her hospital honor

ST JOHNS - Dorothy Schools, Clinton Memorial Hospital employee, has a better idea. In fact, it's a good idea that is being shared with many other area hospitals and hospital employees.

During a recent visit to the hospital, she was asked by the hospital staff for a better way to deliver mail. Instead of having a mailroom employee deliver mail to patient rooms, she suggested having a volunteer deliver mail. The hospital agreed, and she became a volunteer.

Mrs. Schools has been volunteering at the hospital for the past six months and has made a noticeable difference in the daily life of patients. She now delivers mail to patient rooms and has even begun to deliver flowers and gifts to patients.

The hospital staff is now considering expanding her duties to include delivering meals and paperwork. Mrs. Schools has been a tremendous asset to the hospital and has made a positive impact on patient care.

This month, the idea of Dorothy Schools saved many lives. She works at the Clinton Memorial Hospital and is a volunteer.
