## **COORDINATOR'S REPORT**

**May 2015**

### **Opening Weekend**

Motz and Clinton Lakes County Parks officially opened for the season on Saturday, May 23<sup>rd</sup>. The weather was great and the parks offered a nice getaway for those who stuck around for the Memorial Day weekend. Clinton Lakes Park was consistently used for fishing, hiking, dog walking, as well as many other activities. Use at the park will only increase as the public becomes more aware of the site via word of mouth and future signage. Additional parking may become a concern in the near future.

### **Erosion Basin Fill**

The Board of Commissioners recently approved funding in order to fill the erosion control basin north of Big Clinton Lake with non-screened sand. The topsoil project is now well-established and will provide excellent erosion control, eliminating the need for

the erosion basin. The erosion basin now poses a potential safety hazard to park users and will be filled within the next week.

**Security System Upgrade**

The security system upgrade is underway at Motz and Clinton Lakes Park. Motz Park will be receiving upgraded cameras that will allow for better identification around potential problem areas. Clinton Lakes Park will have two new cameras installed facing the maintenance area and the gravel parking lot. The system will also be upgraded to now allow for 4 months of stored recorded footage.
