COORDINATOR'S REPORT

August 2016

Native Grassland Photomonitoring

2016 PGSC summer park manager/intern Elisa Balconi has resumed the native grassland project's photomonitoring work that was started in previous semesters by the MSU Community Engagement class. The photographs show the excellent progress the site has made since being initially planted last June/July.

Entrance/Park Information Signage

The Clinton County Buildings and Grounds Department installed both the large entrance sign and the park information sign at Clinton Lakes County Park. These signs will help guide users to the park and highlight its features, current community events, and some of the wildlife that call the park home. The park information sign will include the map/fish information placard that was funded through the Clinton Conservation District.

CLCP Sand Project

The bid for the beach sand/hydroseed project taking place at Clinton Lakes County Park was officially awarded to Searles Construction and the project will begin on Monday, August 1st. The project will take place during the weekdays and must be prepped for weekend use for the duration of the project timeline.

Cub Scout Day Camp

The annual Cub Scout Day Camp took place at Motz Count Park from July 11th – July 15th. The scouts learned everything from wilderness survival to local wildlife to emergency services. They also completed various projects throughout the park including expanding the rain garden and placing more geocaches. We look forward to having the scouts back for future years as the program continues its success within the Clinton County Parks and Green Space system.

Other Duties Assigned to the Coordinator:

-District Court Collections Project
