

1995-18

RESOLUTION SUPPORTING ADDITIONAL STATE FUNDING FOR ROADS

WHEREAS the Clinton County Board of Commissioners has been following the discussions to enhance revenue for state highways and local roads and is keenly aware that current state and local revenues are not adequate to upgrade and maintain the road system to acceptable standards, and

WHEREAS the Clinton County Board of Commissioners is concerned that discussions about local road and highway funding have stalled and wish to express its support for continued effort by the legislature and the Governor to find adequate and appropriate funding mechanisms for state highways and local roads, and

THEREFORE BE IT RESOLVED that the Clinton County Board of Commissioners hereby supports continued efforts by the Governor, the State Legislature, the County Road Association, and the Michigan Association of Counties to find an appropriate and adequate source of funding for the improvement and maintenance of state highways and local roads.

BE IT FURTHER RESOLVED that the parties named above refrain from including current state revenues distributed to counties and other local units of government from the list of appropriate and adequate sources of revenue for the improvement and maintenance of state highways and local roads.

STATE OF MICHIGAN
COUNTY OF CLINTON

I, Diane Zuker, Clerk of the County of Clinton do hereby certify that the foregoing resolution was duly adopted by the Clinton County Board of Commissioners at their annual meeting held October 10, 1995 as on file in the records of this office.

Diane Zuker
County Clerk
