Have you ever made good on one job... for 39 years?

This extra mileage you get from Dunlop tires starts with the fact that Dunlop has had thirty-nine years of building experience—more than any other tire-maker.

Each part of each Dunlop is built right. Dunlop engineers select long-life cotton into the special Dunlop rubber compounds.

These cords mean extra-strength—an added factor of safety against constant load and pounding of roads—longer life and greater mileage. They mean extra "natural"—so the tire performs with great uniformity, and comes back to its original shape without the slightest injury.

Every Dunlop you buy has extra miles built into it because Dunlop knows each part of its job. That is why we encourage you to get Dunlop on your car.

According to Mrs. L. W. Scroggs the St. Johns Community Hall is again being used for the benefit of the community. Mrs. Scroggs is visiting for some time here.

The popular beer barrel and brandy barrel made their annual appearance at Friday night's function. The brandy barrel was given to the ladies' club by Mrs. L. Scroggs who has been teaching in Detroit for two years, and the beer barrel was given to the farmers' club by Mr. and Mrs. Athens, who had it built in but one hour.

The West Ovid band, under the direction of Mr. and Mrs. W. H. L. Hunt, has been very busy practicing and will appear at the annual fair on August 17th. Mrs. Hunt was born in St. Johns and was educated here.

The T. W. V. class had a picnic at Crystal Friday. This was a far reaching picnic and the bear was the talk of the place.

The ladies are looking forward to the annual fair with great interest. Mr. and Mrs. Mary Long spent Saturday visiting at St. Johns.

Mrs. Albert Jenks and the Misses Jenks spent Saturday looking over Mrs. Mary Long's new house.

“Cyclone Sweeps Over Michigan”
—DOING THOUSANDS OF DOLLARS DAMAGE

This is fresh in mind because it happened but a short time ago. Several counties of the state suffered heavy losses—Houses, Barns, Silos and Orchards were destroyed and stock killed.

This big, new barn, sitting in a field a mile or so from the highway, was built about 9 years ago of the very best grade of material. Was located 4 miles east to summer pasture. If interested, call or come to see us.

This is the same barn taken just after the cyclone or blast had visited the area. Stock were killed during this trip, including a fine Guernsey heifer killed on this farm. Also three calves, all unborn.

There never has been a half day of tomato season when I would not be interested in it. Tomatoes with punch or a decoration of some kind make a beautiful centerpiece. I think they could even be put into a basket of flowers and used as a table decoration. Tomatoes with a bunch of flowers tied around the stem make a pretty picture and would be good to put in a window sill or in a vase on a table.
