Louis to Alger Rd., 2 1/2 north. List
of the United Fund Campaign last year and
a past member of the Chamber of Com-
merce. He served as president of
the board of canvassers. Canfield suc-
scedes Kurt Martens (D). First place. That O-E team is
second in Clinton County News.
Koenigsreuther was re-elected vice-chairman.
In other action, the board established
the 119-pound—Al Cobb (O-E) decisioned
Fred Enos (O-E) de-
pinion. However, the board also made a
motion to close the club, which was effective in
March. They have two grandchildren.

Fluoride treatment scheduled

Thermal fluids applications will again be on display at the 25th annual Clinton County Gas (COG) meeting. The poster exhibit, sponsored by the Central Natural Gas Operating Corporation, provides an opportunity for local and state officials to discuss the latest developments in thermal fluid technology. The exhibit will be open to the public from 9 a.m. to noon on Thursday, January 19.

In addition to providing preserved biological specimens, Haynes covers offers a valuable service to the medical community. The company has been providing high-quality tissue samples to hospitals and research facilities for over 50 years. They are, as you would expect, processed extensively and continuously. The result is a unique and versatile line of products that can be tailored to meet the specific needs of each institution.

The Middlebury High School drama department will present the musical, "The Music Man," Friday, Jan. 21, and Saturday, Jan. 22, at the St. Johns High School auditorium. The musical is based on the 1957 novel, "The Music Man," by Robert E. Sherwood, and the 1957 Broadway musical adaptation by Meredith Willson. The show features music and lyrics by Willson, with additional songs by the writer and composer. The story takes place in the fictional town of River City, Iowa, in 1921, and follows the adventures of con man Harold Hill, who arrives in the town and poses as a musical instrument salesman. Hill plans to make money by convincing townspeople to buy organs they don't need, but he soon finds himself falling in love with the town librarian, Marian Paroo. The show is directed by Phillip Henson, and features a cast of over 50 students, including Barb Piggott, who plays Marian Paroo. The production is sponsored by the St. Johns Lions Club, and all proceeds will go to the club's service projects, such as the annual talent show. The show is open to the public, and tickets are available at the door. For more information, call the high school at 224-4562.

Redwings drop 78-61 decision

By Harold Schmaltz

...Rick Waganar with 21 points as the Redwings dropped 11 points and three of three charities, 20-16.

The final score was 78-61 in favor of the Redwings, who went on to outscore the Rangers, 20-16.

The Redwings started out with a strong 11-point lead but it wasn't enough to secure the win. The Rangers hit on 26 of 61 attempts, compared to 21 from the floor, 33 percent of ball on the part of Coach Doug Japinga's squad.

The win boosts Bath to a 4-2 record, allowing the Aggies a slim chance to move up to the conference leaders. With a perfect 17-16 first quarter lead but trailing by six at the half, the Redwings went on to dominate the second half, outscoring Bath 28-12 in the process of, being fouled while driving to the hoop.

The Eagles were led by John Lankford (5) and Bob MacKinnon (5) and Bob MacKinnon (5) and Bob MacKinnon (5) and Bob MacKinnon (5) and Bob MacKinnon (5) and Bob MacKinnon (5) and Bob MacKinnon (5) and WARRANTY All Pre-owned Cars Are Warranted by Bee’s

BEE’S WARRANTY DOES ALL THIS,
You get 100%, repair or replacement cost coverage on engine, transmission, rear axle, brakes and electrical system for 30 days or 2,000 miles. And 15% discount on parts and labor for a full 24 months.

BEE’S Warranty does all this.
Jaycee activities vital to communities

Published in Clinton County News, St. Johns, Michigan  January 19, 1972

**Proclaiming Jaycee Week**

In celebration of Jaycee Week, January 16-22, local government officials in St. Johns and Fowler signed declarations. The event was recognized as Barry Dean, president of the St. Johns Chapter, looks on. In Fowler, J. Spieker, village president presents the signed document to Frank Hufnagel, president of the Fowler Jaycee Club.

**St. Johns**

Jaycees offer leadership training through community development for young men between the ages of 21-35. The organization is designed specifically to meet the needs of the young man seeking to make his place in community and business today.

Today, local Jaycees chapters are active in over 6,400 communities across America and in over 65 foreign countries. Some of the reasons why young men become interested in belonging to the Jaycees are (1) the desire for self-improvement; (2) the desire to work on a problem; (3) the desire to advance in the business; and (4) the desire for community involvement.

**Ovid-Elsie**

The Ovid-Elsie Jaycees, with 38 members and 10 of them active, met each Tuesday at the St. Johns Picnic Pavilion. The meetings are held at the second Thursday of the month and are open to all young men.

Next week marks the founding of the Jaycees in 1919, with a national meeting held in St. Louis. The organization is dedicated to the development of young men in their communities.

**National Jaycees Week January 16 to 22**

Meet the presidents of the four Clinton County chapters of Jaycees. Seated from left, Barry Dean, St. Johns; John Funkhouser, Fowler; standing from left, Stan Smith, Westphalia and Clare Parker of Ovid-Elsie.
Congratulations

Their Achievements Have Given
Our Community "Grow Power"

We're wearing our pride on our sleeves because of our community-minded young men. They represent progress and prosperity. A fine example of good citizenship is self-evident. They have made our town a better place to live with their boundless energy. We are in step with a changing world through their tireless efforts. Because they care, we are strong. We heartfully thank them...because we care.

CLINTON COUNTY NEWS, St. Johns, Michigan

48

It is the custom of officers, directors, and staff members (employees) who work to make up the important part of their lives working for Central National Bank and in the service of the banking community. They are compared with the larger financial institutions of the state. It is well. Almost none have been in business for these people are the people who take care of the people who need service. Every community is different and that is why they are so important to the community. They are the people who make a bank's operations efficient and profitable.

We salute them. For their growth and ours. We salute them. For their growth and ours. For, their growth and ours. Their growth and ours.

In the month of February, the directors and staff members (employees) who work to make up the important part of their lives working for Central National Bank are shown in the service of the banking community. They are compared with the larger financial institutions of the state. It is well. Almost none have been in business for these people are the people who take care of the people who need service. Every community is different and that is why they are so important to the community. They are the people who make a bank's operations efficient and profitable.

We salute them. For their growth and ours. We salute them. For their growth and ours. For, their growth and ours. Their growth and ours.

We salute them. For their growth and ours. We salute them. For their growth and ours. For, their growth and ours. THEIR GROWTH AND OURS.
Unemployment jumps to nine-year high

By Michigan Employment Security Commission

Despite the recent pick up in activity, unemployment in Michigan rose to a nine-year high in 1971. The State's unemployment rate for the year was 8.1 per cent. This was the highest level since 1963, when the rate was 8.2 per cent. The number of insured workers on unemployment rolls in 1971 reached a monthly high in July with 374,000 out of work, which was the largest

donated their basketball skills to the students at St. Charles High School, when the students were.
Lawmakers have a sorry image

Six times Dowdy's trial was delayed because of his reported illness. But the inaction of the House Ethics Committee has confounded even this most confounding of House members. The panel has taken no action on Dowdy's violations, even though his attorney said he was incapable of representing himself in trial.

Now there is a felon conviction—but still no action.

It has always been thus. The committee voted to expedite Aaron Clayton Powell without any conviction. This action was proper in their opinion.

But it is needed today as more than a red flag on the issue committee. They would remove the process from legislative arena, fairness or integrity.

It would be better, of course, if Congress respected officials existed.

Representative Dowdy is a fellow congressman. He would not be allowed to remain in his position has been found guilty of abusing his position. They would remove the lawmakers themselves for their present sorry image.

Back thru the Years

One Year Ago

January 10, 1971

State Rep. William Bellinger, chairman of the House of Representatives, yesterday signed the bill in cooperation with the Senate, giving to New York its first state public education laws. The Senate had recently proposed substitute revenue sharing measure after it had been removed by the House.

The most powerful country in the world is no longer America, but the USSR, as John F. Kennedy had learned the hard way.

The United States had been the world's leader in science and technology, and had been the world's number one superpower, but now it had been overtaken by the Soviet Union.

It's almost Ground Hog Day!

The Administration plan proposed a complex network of state and local government sharing of the costs of education, with the federal government covering up to 50% of the cost of education.

The Administration plan proposed a complex network of state and local government sharing of the costs of education, with the federal government covering up to 50% of the cost of education.

But the House Ethics Committee (FCC) has dropped its investigation circle of the the proceeding.

The FCC doesn't know. And... It doesn't know. It's almost Ground Hog Day!

Come, February second 1972.

WARREN R. DOBSON

WASHINGTON, D.C.-You should see the Administration's most recent proposed revenue sharing proposal which looks like a public good puzzle. But it takes a college board lest the FCC report is prepared to conform to the administration's standards.

The administration's plan places provisions for the general allocation of funds and a system of federal grants-in-aid to the states and local governments for the purpose of improving state and local educational systems. The plan provides for a "National School Aid Plan," which would provide limited federal grants to states and local school districts for the purpose of improving educational systems. The plan also includes provisions for federal grants-in-aid to states for the purpose of improving state educational systems. The plan also includes provisions for federal grants-in-aid to states for the purpose of improving state educational systems.

of a child who was mysteriously

Epiphany begins

by REV. HUGH BANNINGA

In some Christian counties the

Epiphany season is followed by

the Epiphany season. This season

begins in January and continues

throughout the month of January,

with the exception of February.

The Epiphany season is the

season in which we celebrate

the baptism of our Lord Jesus

Christ. This season is also known

as the season of the Wise Men

and the Magi. The Wise Men

are said to have come from the

east and brought gifts to the baby

Jesus. As an

epiphany begins with the story of the Wise

Men who brought gifts to the baby Jesus. As an

example, we often think of the Wise Men as

a group of animals who were wise in the

sense that they were able to understand

things. However, the wise men were

not animals; they were humans.

The story of the Wise Men is

found in the Bible and is

recorded in the book of Matthew.

Matthew 2:1-12: Now when Jesus was born in

Bethlehem of Judea, in the days of

Herod the king, behold, there came

wise men from the east, asking where

is he that should be born king of

the Jews; for we have seen his star in

the east, and are come to worship him.

When Herod the king heard these

things, he was troubled, and all Jerusalem

with him.

Immediately, the Wise Men

journeyed to the place

where Jesus was

born. They were

led by a star that

they had seen in the

east. The star

was a symbol for

the birth of Jesus

Christ. The Wise

Men came to

worship Jesus,

and they

brought gifts to

him. These

gifts were

symbolic of

the things

that Jesus

would fulfill

in his

life. The

first gift

was gold,

which

represented his

royalty. The

second gift

was frankincense,

which

represented his

divinity. The

third gift

was myrrh,

which

represented his

sacrifice.

The Wise Men

brought these

gifts to

Jesus and

worshiped

him. The

story of the

Wise Men

is a

beautiful

symbol

of the

importance of

Jesus in

our lives. The

story of the

Wise Men

reminds us

that Jesus is

important and

that we should

worship him.

The story of the Wise Men

also reminds us that Jesus

is the savior of the world.

The story of the Wise

Men is a beautiful

representation of the

importance of

Jesus in our lives. The

story of the Wise

Men reminds us

that Jesus is

important and

that we should

worship him. The

story of the Wise

Men also reminds us

that Jesus is the savior of

the world.

Optimistic forecast for corn damage

By JOHN AYLWORTH

Michigan forecast "should be in good shape" to assure a 1972 "good" corn crop. Dr. Louis H. Shaffer, Michigan State University crop specialist, predicted a high percentage of the corn crop in Michigan will make the best good to above average yields this year, the old rainfall and soil conditions are much better than last year.

"We can produce all the corn we need," Shaffer said, "if we can get the corn planted in time. We have a lot of dry time and after the rains hit us we have a lot of good growing weather.

Shaffer said that in 1971, 60,000 acres of corn were lost due to lack of a good planting of corn. This year, he said, 70,000 acres of corn will be planted in the state. "This is a good indication of the weather conditions this year."

In 1970, corn damage was caused by a very cold and dry weather. This year, Shaffer said, the weather has been much better and the corn crop should be good.

Cook speaker for meeting

The speaker at the annual meeting of the Citrus County and Orange County FFA was Richard H. Holton, Citrus County FFA Chapter adviser, and assistant professor of horticulture and agriculture at the University of Florida. Holton spoke about the importance of the FFA and its role in agricultural education.

He discussed the different projects that are available to FFA members, such as soil conservation, animal husbandry, and crop science. Holton also emphasized the importance of leadership and team work in the success of the FFA.

The speaker concluded by saying that the FFA is a great way for students to learn about agriculture and to develop valuable skills that will be useful in their future careers.
