Clinton County digs out

It's a week later and Clinton County is still digging out of snow and that has begun to
cause delays. The snowstorm began on Monday last week and has continued throughout
the week. The peak of the storm was Monday night when winds were gusting to 60 miles an
hour. The high winds caused the snow to blow into drifts and make travel more difficult.

ST. JOHNS - An early Friday morning fire destroyed the brewery near Mr. and Mrs. Fred Barton, 7048 N. Williams Rd., near St. Johns. The fire, which evidently started in the attic, was detected about 12:30 a.m. and spread rapidly. The building was completely
destroyed by the time firefighters arrived. The cause of the fire is under investigation.

Keep hydrants clear of snow

Residents are asked not to plow or shovel
snow from around fire hydrants as it is
necessary to reach them in case of fire.

Dear Editor:

I always read with pleasure the articles of the greater nation on earth. It was not an all-encompassing welfare program—hastening a functional program. Even the smallest form of human interaction is always a source of pleasure. Vastly lower than the U.S.

The state of affairs was not brought on by war or natural disasters.

Briefly, it is a socialist nation that has a government.

Our government was established by our own people! It has had periods of peace and success for a hundred years, we should want to continue to have a government. We should not copy Great Britain. I trust President Ford has made us a government and our congress has made us a government. If we lack courage, lack leadership, lack economic strength, lack diplomatic strength, lack military strength, lack educational or cultural strength, we are better off with a national state which is in Great Britain. A fortiori, we will not have New York City.

U.S. citizens can do an astonishment, our national state.

Is it rich? Not we, but our descendents are rich. I hope we do not know how much they have left us.

served a lunch of salad and some kind of meat. Third, they are being

served a dinner at home (I do not know what they eat). Then we are

asked to prepare their own food. Third, we are asked to prepare their

own food. The government tells us what to do. What happened.

One study look of Great Britain shows that about 25% of the people of

this country are too poor to buy a meal. In St. Johns and other

**YOU AND YOUR HOME, Decorating Hints**

By Mary Bell

* Dear Mr. Bell: 

I'm planning a party for my Sweetheart! What do you think of the idea of having a parade of decorated cars or wagons? I think it would be wonderful and I'm sure we could get a lot of people to participate. The only problem is that you have carte in limitations as to what you can use. I think the only way to go from there is to have new color combinations (North US 27) Lansing and totally satisfied, your 'money will be refunded.

still...But do it today.)

Can't you hear the sounds, "By the light of the Silvery Moon," as the polite lady of this town, Betty Dickson, shows off her store Yard goods to make a replica can be bought at the Mick's Store.

Kim Altavater, noted for his quietness and good order, treasures a coach going out then. His mother made this very special suit for him, but because of an over abundance of work has been unable to finish the vest. He purchased the hat at the White Store. It attracts Bicentennians looking men last weekend.

The "Best Dressed Dude In Town," Is no doubt Tom Hollen, He wears the latest fashion and pays bed rock prices for a perfect fit. Can't you hear the sounds, "By the light of the Silvery Moon," as the polite lady of this town, Betty Dickson, shows off her store Yard goods to make a replica can be bought at the Mick's Store.

What a gift idea! This beautifully printed Valentine fills a huge 34" by 24". It features romantic verses about Valentine's Day and love. And although it's beautiful, the "World's Largest Valentine" already has become a collector's item. And it's easy to order. Simply fill out the coupon below. Then either bring in your order or mail it with $5. If your Valentine isn't pleasantly surprised, Your order will be refunded. In a few hours the cost is $8. Tom says he wears extravagant clothes and first class workmanship. He also gets his binding and repairs done at Floshoe's.

The citizens of our fair community can rest more at ease these days with Corp. Jack Davison, enlisted man of the Union Army, in town. He carries at all times the artillary man's brass handled saber, plus a six shot Colt 44 revolver. His premium horse is always ready outside the bank,

Letter to the Editor:

Since I have never seen a housewife dressed in a screeching green pant suit, I may be a little out of date, but I feel that the woman who went to see the governor for corrective surgery should have gone to see a man in a tuxedo. It is not due to any lack of talent on the part of the women who are going to serve on the Supreme Court. I feel that the women have every right to be there, but they should be dressed appropriately for the type of work they are doing. It is my opinion that the women should not be wearing pantsuits, but rather dresses or skirts. This will show that they have respect for the court and the work they are doing.

Sincerely yours,

EAST LANING - Most livestock producers today are faced with the challenge of disposing of large quantities of waste. These producers have many options available to them for handling and managing their waste. Some of these include a facility for storing manure, using land instead of water, and keeping the manure on the farm. However, there are also many challenges involved in managing waste. Some of these challenges include the cost of disposing of waste, the potential for environmental impact, and the need to comply with regulations. In addition, there are many different methods for managing waste, and each method has its own advantages and disadvantages. Therefore, careful planning and management are necessary to ensure that waste is handled in an environmentally sound manner. It is important to consider all of these factors when choosing a method for managing waste. This will help to ensure that waste is handled in the most effective and efficient manner possible.
This is an interior view of Bruton Parish Church, Williamsburg, Va. The church is a classic example of the Baroque and its present. From 1695-1708, Sir William Berkeley, the first royal governor of Virginia, endowed the church as a center of the intellectual and social life of eighteenth-century Virginia. It was the residence of Sir William's son, the third Lord, a native Virginian. The church was sold by Berkeley to the Society of Jesus and then sold to the Va. This church is a link between the past and the present. From the transcept pews during sessions of the Assembly were reserved for the governor, the House of Burgesses, and the senators. The first session of the Assembly of the Province of Virginia met in this church. The present present pews during session of the Assembly were reserved for the assembly of the province and the groups of the society of the provincial societies. The church of Bruton Parish Church. Mr. and Mrs. Murray Cole of Ovid purchased a 1976 Elchco refrigerator and Saturday evening for a "Welcome Home" party and to celebrate the arrival of twin girls, Dorothy and Rosemary. The party was sponsored by the Senior Citizens Club of Ovid and the refugees. The occasion was a great hit and enjoyed by all who attended. Mrs. Cole, 54, and Mrs. Murray Cole, 56, are both members of the club and have been active in community affairs. Mrs. Cole has served as president of the club in the past and has been instrumental in organizing numerous events. Mrs. Murray Cole has been a dedicated volunteer and has contributed significantly to the club's success. The arrival of twin daughters is a特别喜讯 for the family.

Under this provision, persons who are eligible for a credit related to their annual home costs and income will receive the credit. The credit amount will be determined based on the difference between their property taxes and a specified percentage of their income. For example, if a person's property taxes exceed 3.5 percent of their income, they will be eligible for a credit. The credit will be calculated as the amount their property taxes minus the amount that taxes exceed the specified percentage of their income.

The meeting was called to order at 8:10 p.m. by President Kenney and the responsibilities of the Board, after executive session, suggested that Mrs. Parmenter take two (2) additional months off. It was suggested the Ovid-Elsie High School to find a new Board of Education. The Coles left Elsie in April 1947 for the Upper Peninsula. Tom Cole was in business for himself and had been married for 28 years. His wife, Nellie, was the daughter of Mr. and Mrs. Dietrich, who lived in Ovid for 32 years.

Clark Senate, former mayor of the Ovid-Elsie area, and Norm Snyder, president of the Ovid-Elsie Businessmen's Association, were present to discuss the challenges faced by local businesses. The meeting concluded with a moment of silence in memory of those who have passed away, followed by the Pledge of Allegiance to the flag of the United States of America.

Copies with stress

“Every crisis the same way. You can’t handle it by crying and complaining,” says Dr. David Imig, director of human resources at Michigan State University.

“People have more resources than they realize,” says Dr. Imig. “There are many ways to help you handle stress better if your family, friends, and community assist and support you.”

“Believe it or not, a little bit of frustration can be a source of energy and if dealt with creatively, stress can lead to growth and development.”

“Stress is not all bad if you can use it to motivate yourself to make a change.”

“Don’t let stress get you down, there is something you can do about it.”
