How to get out of the有没有问题

That could be a real problem. Problem.
But if it’s our equipment, you have no problem. We’re set up for fast service. We install the latest systems, and from then on your costs are reflected in one figure—your monthly phone bill.
And that could work out far better for you, because many people overlook the real cost of purchased equipment.
Which brings up some other questions:
Could you be doing something else with the money you use to buy equipment? That’s capital you’re spending, and the same money might be put to more productive use in your business.
What about insurance? If it’s our property, it’s our problem. Does your warranty cover all parts or just key components? Make sure you know. When we supply you with equipment, we take responsibility for every single part.
Is maintenance included? With us, maintenance is part of the regular service you’re entitled to. Labor and parts cost you nothing extra.
How local is your supplier’s operation and how local will it stay? This has a lot to do with getting fast repairs. Your phone company is always there, and when there’s a problem, it’s always there, too. He’s on the spot.
We’ll give you a cost analysis of your systems, or any other at no additional cost. For more information, contact your local telephone business office.

Jaycee Week—a week-long salute for year-round service.

This is Jaycee Week, recognizing the contributions of an organization of young men dedicated to serving their communities. The Jaycees’ main mission is to give young adults the opportunity to develop leadership and service skills.

In the Clinton County Jaycees, we have members from across the county, including businessmen, educators, and community leaders. Each year, we hold an annual meeting to elect our new officers and set our goals for the coming year.

On this day, we celebrate the hard work and dedication of our members, as well as the contributions they make to our community. We look forward to another year of service and growth.

Jaycee Week is a time for us to come together and recognize the efforts of those who have dedicated their time and energy to our community. We are grateful for all that they do and look forward to working with them again next year.

Join us in celebrating Jaycee Week and the work that we do for our community. Together, we can make a difference and create a better future for all.
