Bath votes on new school

BATH — Bath voters are asked to go to the polls Monday, May 8, to support a $2,800,000 bond for a new Bath High School in the Bath School District, practically doubling the size of the current Bath High School. Construction of the new $2,800,000 Bath High School could start around the second week of August and be ready for occupancy in the fall of 1973.

FINANCING FOR the new Bath school could result in the lowest tax levies ever in the Bath School District. The current tax levies average 2.7 mills and the new bond would be at a 3.75 mills rate.

The new Bath High School would be located at the center of the Bath School District. The Bath High School, named in honor of area Bath citizens, would have an enrollment capacity of 1,200 students. A cafeteria at the new Bath school would be provided for a new lunchroom area.

“**Chicken feed** isn’t small change

By LAURIE KIPPMilford News Writer

Fowler -- "Chicken feed" isn’t small change, according to Fowler’s Stephen Fedewa at 3636 S. Platteville St.

During the past 11 years, Fedewa has been raising chickens, a business he said he had been instrumental in growing from a small operation to one of the largest in the state.

Fedewa and his wife inspect a day’s egg production stored inside a large storage tank. "Chicken feed" isn’t small change, he said, as they’re planning to open a new hatchery next year.

The feed he uses is an important part of his business, he said, "and it’s important to have a good feed because you can’t make money with poor feed." He added that the eggs he raises are sold to local stores, and that the business is "growing every year." He also said that he’s planning to expand his business in the future, and that he’s "looking forward to the future.”

The state of Michigan has told Bath Township they must build a sewer.

Some people in Bath are not too keen on the idea with the financial picture painted by constructing a sewer, but they say they'll have to proceed with steps to build the sewer.

In a nutshell, they're being told by the government to do so... while at the same time they have just been told they are getting a sewer for free.

The Water Resources Commission states Bath has to have a sewer. The Attorney General's office says Bath can't assume the bonded indebtedness to follow the Water Resources Commission stipulation.

The state government will be affected by it.

The newsworthiness with a tax.
