People of Michigan, support your President. This is the man who directed giant strides in American foreign policy to safeguard the future of America. This is the man who painstakingly initiated détente with Red China and the Soviet Union. This is the man who ended long years of American involvement in Vietnam. This is the man who made this past Christmas the first in 12 years in which there were no American troops in combat. This is the man who has brought accord in the Middle East. Fellow Americans gave this man over 60 percent of the vote in 1972. He has made mistakes. All Presidents have. But he has done nothing to betray our trust.

People of Michigan, support your President. His adversaries in Congress and in the news media have dramatized and prolonged the events relating to the break-in of the Watergate. They have done so for their own political gain. It is past time for the responsible leadership in Congress to lift its vision about partisan politics and direct its attention to the problems of inflation and the energy crisis. Speak up. Tell your representatives in Washington that it's time to get on with the business of running America. There are four coupons below which bear the names of the influential Congressional leaders who can get America moving again. Complete those coupons immediately and send them to Washington.

A PERSONAL LOOK AT THE NEWS

What about Bebe and Tricia?

"By Jim Fitzgerald"

My heart was for President Nixon, but my problem is with a page that followed the one that had his picture. The message was "If it’s easier not to want, it’s easier not to need."

I believe it was the Church of Jesus Christ of Latter-day Saints who said, "If the Lord purposes it, he will supply all your needs." This is what the hair of a extra-long hair is saying. It is saying, "If you want it, it will be easy to get."

We have seen Cloth Suspenders which are comfortable and durable. They are often used by farmers and mechanics to keep their clothing secure while working in heavy machinery or on the farm. These suspenders are made of high-quality materials and can withstand a lot of wear and tear.

Other than that, there's not much going on in the world of farm machinery.
