**Dial down. It adds up.**

Every degree you dial down permanently cuts annual heating costs by almost 3%.

**3%**

Dial down your thermostat — you'll save money and Natural Gas. You can save almost 3% for every degree you permanently dial down during the heating season.

For example, set your thermostat from 70 degrees to 68 degrees. — leave it kept in the night and you'll save, too.

Our Gas is your least cost fuel. It is efficiently and you'll save even more.

Responsibilities as a citizen

A good citizen has many responsibilities. The first and foremost responsibility of any citizen is to obey the law. Laws are passed by our government to protect the rights of every American citizen. Laws are needed to keep order and maintain harmony between individuals and groups in the community. Laws are necessary to maintain a just and fair society.

The flag of the United States represents the 13 original colonies that formed the United States of America. The flag is a symbol of our country and our nation's history. The flag is also a symbol of our freedom. The flag is a symbol of the sacrifices that were made by our ancestors to ensure that we have the freedom that we enjoy today.

The flag is a symbol of democracy. It is a symbol of the people who live in the United States and the principles that they hold dear. The flag is a symbol of freedom and liberty. It is a symbol of the American Dream.

The flag is a symbol of unity. It is a symbol of the diversity of our country. It is a symbol of the many different cultures and backgrounds that make up our nation.

The flag is a symbol of progress. It is a symbol of the changes that have taken place in our country over time. It is a symbol of the future.

The flag is a symbol of pride. It is a symbol of the love that we have for our country.

Responsibilities as an American citizen

Every American citizen has a responsibility to their country. This responsibility is to love their country. As an American citizen, it is my duty to love my country. It is my duty to support the constitution, the flag, and the principles upon which our country is founded.

This responsibility is not always easy. There may be times when we disagree with the government or with our elected officials. There may be times when we feel that our voices are not being heard. There may be times when we feel that our freedoms are being threatened.

However, as an American citizen, it is my duty to love my country. I must support the constitution, the flag, and the principles upon which our country is founded. I must do my part to ensure that our country remains free and democratic.

This responsibility is not just a duty. It is also a privilege. It is a privilege to live in a country that is free and democratic. It is a privilege to enjoy the freedoms that we are afforded as American citizens.

I believe that it is my duty to my country to love it. I believe that it is my duty to support the constitution, the flag, and the principles upon which our country is founded. I believe that it is my duty to do my part to ensure that our country remains free and democratic.

I believe that it is my duty to my country to love it. I believe that it is my duty to support the constitution, the flag, and the principles upon which our country is founded. I believe that it is my duty to do my part to ensure that our country remains free and democratic.

Well here it is, the fourth and final column of the week, and what a week it has been! Our community has been buzzing with activity, and I must say, it has been quite exciting. Let's get started.

First of all, I want to congratulate Mrs. Hetzei on her retirement. She has worked hard and is well deserved of her time off. I also want to extend my thanks to the staff at the Nursing Home for their dedication and hard work. We are truly grateful for all their efforts.

Now, let's talk about the economy. It's been a tough year, but we are seeing some signs of improvement. The Department of Management and Budget has released a report that shows some positive trends. It's a good sign, and I hope we can build on this momentum.

On the lighter side, I want to share some information about the local farmers' market. The market is open every Saturday from 8 am to 1 pm, and it's a great place to find fresh produce and support local farmers. I highly recommend checking it out.

That's all for today. I hope you have a great weekend and that you enjoy the rest of the week. Keep your eyes on the news, and we will see you next week!

Winter camping—low cost entertainment for family

Winter sports enthusiasts seeking to cut the cost of a weekend or longer trip may find winter camping at one of Michigan’s 37 state camps a cost-saving alternative. Winter camping also helps save on the cost of food and gas, which run up to $200 for the entire winter season.

“Having run some test camps at Twin Lake State Park and in the UP, we have found it not only possible but also beneficial to provide some low-cost recreational opportunities,” states Joseph Ratke, Auto Club, touring division, Michigan.

According to the Michigan Department of Natural Resources, offering winter camping has been the norm in the state for about 10 years. The Department oversees 37 state parks and offers winter camping plans at most of the state parks. Some offer skiing and other winter activities, such as snowmobiling trails while others offer lake and woods recreation. Campers in the state parks have heated activities and facilities, have lakes for fishermen, and have recreation trails and areas for cross-country skiing and snowmobiling.

“Such things as car pools to and from the campgrounds could help a camper save money by sharing the cost of the necessary equipment,” he says. “Snowmobiles can be aimed at the cost of the winter camping trip.”

The Department of Natural Resources recommends that campers check the local weather before planning their trip. “Call us before sailing your grains,” advises Mr. Ratke.

“Campers should also be sure that a window or vent is left open when using a space heater,” he says. “Auxiliary heat should be turned down by at least 25 percent when not in use. Space heaters can be aimed at the cost of the winter camping trip.”

The Department of Natural Resources recommends that campers also be sure that they are prepared for the cold weather conditions. Campers should bring with them a window or vent to provide proper ventilation for the space heater. "We recommend that campers open the door and keep their feet off the floor while using a space heater," advises Mr. Ratke.

“Winter camping is a great way to get closer to nature and to enjoy the beauty of the outdoors,” he says. “We encourage everyone to try it out.”

For more information on winter camping, contact the Michigan Department of Natural Resources or your local campground.
