Mary Gross wins P-W DAR award

Per-ki-ns—Frances Groves Community Branch has selected as its DAR Good Citizen for the West Michigan peninsula the daughter of Mrs. Leo Gross. This award is based on dependability, service, leadership, and patriotic spirit.

Mrs. Gross has excelled academically and has participated in many extra-curricular activities such as the 4-H Clubs, Home-making Club, BEMENTS, and the Catholic Youth Organization. As well as being a Junior High School student, she is a member of the Catholic Youth Organization and is a volunteer at the local hospital. She is also a member of the local DAR chapter.

The DAR Good Citizen Award is presented to students who have demonstrated outstanding leadership, service, and patriotism. This year's recipient, Mary Gross, has excelled in all areas and has been an active member of her community. She is a true example of the DAR Good Citizen Award and deserves this recognition.

There has been a petition looking for permission of holding a special election on this issue. The landscaping is going to be quite nice, with some flowers and bushes. It is quite easy, and there's no obligation. Just return the coupon for full information or call the phone number below. And, please, do it soon. And, please, do it soon.

To begin with, we have quite an estate. Our beauty residence building is on 5 acres of beautiful open space in the northeast part of East Lansing... just about 3 miles from town.

The landscaping is going to be really nice, having such an expense of landcape太空one to add value to the property. It's a comfortable one in terms of landscaping, gardening, sitting, with many more.

Sealed Power names new plant manager

Gordon Kelley

Sealed Power's plant in Clinton has a new manager. Thomas B. Kelley has been appointed Manager of Clinton Plant for Sealed Power Corporation. He succeeds J. W. Wood, who was transferred to Sealed Power's Vandalia plant in January.

The new manager is a 20-year veteran of several Sealed Power locations. In addition to the Clinton job, he will serve as regional manager for plants in Battle Creek and Battle Creek, Michigan.

Kelley was born in Battle Creek in 1940. He attended Michigan State University and received a degree in mechanical engineering. He has held various positions at Sealed Power, including plant manager at the company's plant in Vandalia, Ohio.

He replaces J. W. Wood, who has been transferred to Sealed Power's Vandalia plant. Wood has been with the company for 17 years and is a native of Clinton.

Sealed Power is a leading manufacturer of engine components for the automotive and industrial markets. The company has operations in several states, including Michigan, Ohio, and Indiana.

Thanks for the action

It may have taken the drastic realization that the St Johns and surrounding area was to be entirely without ambulance service to win the hearts and minds of area officials’ credit, that action has been taken.

The process of building the newly formed area ambulance service swiftly dealt with the problem and plans are in the works now to get the service rolling as soon as possible.

Such an operation, made up of officials from several units of government, lends itself usually to slower and less decisive actions.

We feel those working on the ambulance service avoided those time-consuming pitfalls and have done the area a service.

We will be a minimum of argument and “gum-bumping”, the individuals have worked to provide a needed service and we express our appreciation.

Future Farmers of America

The 1973 observance of National FFA Week is February 19-25, The theme for this year is “FFA: Farm Boys With Opportunities.”

In coming years, young people will find agricultural careers more personally satisfying and more rewarding and productive in terms of providing the food and fiber for the future. FFA is training leaders who will gain experience in modern agricultural techniques and prepare themselves for careers in the varied and interesting opportunities in agriculture—today and tomorrow.

The opportunity to study—vacation—agriculture in 9,000 public schools, FFA gives the students, through county organization, the chance to pursue their individual potentials; interests and skills in agricultural work. From this experience, they are developing the qualities that will best prepare themselves to be the agricultural leaders of tomorrow.

The United States has the most productive agricultural system of the world. The Farm Boys of FFA of America helps assure that it will stay that way.

PROPOSAL

We, the undersigned, hereby propose to amend the Constitution of the United States of America so as to establish a term of office for members of Congress of not less than one year, and to require that they be re-elected at the expiration of said term.

This proposal is based upon the belief that Congress is too often subject to the influence of special interests, and that by requiring longer terms of office, it will be better equipped to represent the interests of all the people.

We believe that this proposal is long overdue, and we urge all Americans to support it.

Pollution and waste of natural resources

I am a concerned citizen. I smoke two packs a day and I walk into the offices of our local government on a regular basis. I am aware of the health risks associated with smoking, and I am concerned about the negative impact of tobacco use on society.

I would like to ask the local government to consider implementing policies that reduce the impact of smoking on our community. This could include increasing taxes on tobacco products, implementing smoke-free zones in public places, and providing resources for individuals who wish to quit smoking.

I believe that by addressing these issues, we can improve the health of our community and reduce the burden of smoking-related diseases.

Sincerely,
Concerned Citizen

An ounce of prevention

By Joe J. Larkin, MD

Children should be taught the importance of preventive health care at an early age. This involves teaching them about the dangers of smoking and encouraging them to adopt healthy habits.

It is crucial to start educating children about the negative consequences of smoking from a young age. This can be achieved through classroom discussions, presentations by health professionals, and educational materials distributed in schools.

By focusing on prevention, we can help reduce the number of people who develop smoking-related diseases and improve the overall health of our community.

Sincerely,
Joe J. Larkin, MD

Environmental is the key

Whether you like the present state Constitution, or wish to see further changes, it is a fact that the present state Constitution does not provide for the protection of the environment.

The recent meeting of the Clinton County Zoning Commission to be held on Thursday, February 21, at 7:00 p.m. will provide an opportunity to discuss the need for stronger environmental protections in the county.

I urge everyone to attend the meeting and voice their opinions on this important issue. Together, we can work towards creating a more sustainable future for our community.

Sincerely,
Derek Towle

School financing

By Douglass Turner

The Supreme Court has given a狒st school, people in the county, and the state are being urged to support the "fight for schools" campaign.

The court's decision on the case of the state of Michigan vs. the city of Detroit, which is currently pending, could have a significant impact on schools in the county.

I encourage people to support the "fight for schools" campaign and work towards providing adequate resources for our local schools.

Sincerely,
Douglass Turner

Dearborn District winds up

Dearborn District winds up with a balanced budget, as the organization has been able to manage its finances effectively.

The district has faced challenges in recent years, including budget cuts and increased costs. However, the organization has been able to adapt and maintain its services.

I am proud of the work being done by the Dearborn District and encourage others to support the organization.

Sincerely,
Dearborn District Administrator

More things that can be done

The court ruled that there is a need for more things that can be done to discourage smoking and encourage abstinence.

This ruling highlights the need for continued efforts to reduce smoking rates and improve public health.

I support the court's decision and encourage others to join in the fight to reduce smoking and improve public health.

Sincerely,

WE PAY TRIBUTE TO THE BUILDERS OF OUR NATION

Washington and Lincoln—The two presidents who gave us the cornerstone upon which our great nation is built. Integrity, honesty, freedom and individuality. The only way these great gifts can be kept is by placing them uppermost in our minds and using them day by day.

"Come in...The Selection is Fine!"
Our DISCOUNT WITH A DIFFERENCE program offers money-saving prices on a wide variety of high quality meats, produce, and other foods which helped to build Eberhard's reputation.

When we converted to discount, we made sweeping changes in operating methods. These changes, which included new pricing methods and the elimination of unnecessary merchandising expenses, reduced our cost of doing business. Our savings were immediately reflected in substantial price reductions. We introduced our every day low level prices which helped to make the discount program so popular and effective. With low prices in effect all week long, there was no longer need to postpone shopping until the weekend. Low level prices gave our customers added incentive to buy from us all of their food needs. With shopping spread more uniformly throughout the week and throughout the store, our whole business became more efficient. We streamlined ordering, stocking, and price marking. We increased checkstand efficiency and lessened the possibility of errors at checkout.

Savings in our costs of doing business continue to be reflected in the prices of things we sell. Shop Eberhard's for the finest foods and a low total food bill.
