GM donates $25,000 to hospital

General Motors Corp. has made a $25,000 donation to the St. Johns Memorial Hospital for the purchase of specialized equipment to benefit the hospital's surgical department.

The contribution was received on behalf of the hospital by City Treasurer Robert T. Smith, who presented the check to John E. Mendenhall, chairman of the hospital board.

The funds will be used to purchase a new surgical microscope, which is essential for performing complex surgical procedures.

The microscope will enhance the hospital's ability to provide state-of-the-art medical care to the community, said Smith.

"This donation is a testament to the generosity of General Motors and our commitment to improving health care in our region," said Mendenhall.

The equipment will be installed in the hospital's operating room, which will allow surgeons to perform more precise and accurate procedures.

The hospital is grateful for this generous gift and will use the funds to continue to provide high-quality care to our patients," said Smith.

The hospital's surgeons will be able to perform a wider range of procedures, which will benefit patients and their families.

"This is a wonderful gift that will benefit our patients for years to come," said Dr. James R. Martin, chief of surgery.

"We are so appreciative of General Motors' support and are grateful for their continued commitment to our hospital," said Mendenhall.

The hospital is committed to providing the best possible care for our patients and community, and this donation is a significant step towards achieving that goal.

The hospital's board of directors and its staff express their sincere gratitude to General Motors for this generous gift.

Snow cleanup costly

Taking one more of Clinton County's road system in a weekly roundup, according to the weekly report from the County Commissioner Don Davis.

This is the report of late January and February, showing the costs of snow-removal efforts, according to the latest information provided by the County Commissioner.

The total snow-removal effort for the month of January was $25,000, according to the report.

The report notes that the cost of snow-removal efforts has increased significantly in recent years, with the cost of snow-removal efforts for January alone being $25,000.

The report also notes that the City of St. Johns has increased its efforts to remove snow from city streets, which has led to increased costs for snow-removal efforts.

"The cost of snow-removal efforts has increased in recent years due to the increased demand for services," said Davis.

"Our city has increased its efforts to remove snow from city streets, which has led to increased costs for snow-removal efforts, but we are committed to providing the best possible care for our patients for years to come."
Betterly resigns as city treasurer-accountant

The resignation of Donald Betterly, as city treasurer-accountant, was accepted by the city council at its meeting Tuesday evening. Betterly never qualified for that position because he was never elected to the office. It will be effective immediately.

Morgan resigns as city manager

City Manager Albert Morgan, as of March 7, said he would leave his position because he was more interested in politics. He will be succeeded by Mayor H. J. Morgan, who has been serving as acting city manager since January.

IN OTHER BUSINESS

Mrs. Olive Pungwill continue in her position as city clerk. She was elected to the position by the city council.

A regular meeting of the Clinton County Area Planning Commission, which is responsible for the development of the county, will be held on March 7 at 6 p.m.

The city council also discussed the possibility of building a new city hall. The council decided to hold a public meeting to discuss the matter further.

The council also approved a resolution to authorize the sale of certain city property to the Clinton County Area Planning Commission.

Mrs. Mary Yntema, a woman of remarkable memory, has been reduced to only $149.95 (take-it-home, just $259.95.

Mary's first home was a log cabin which her father purchased. After Mary's father would read the Bible, or Dickens or other literature, or play the piano, she developed a great love for literature and music and later on instruction, and collected every bit of her own air conditioners. She was kept cool by her own air conditioners.

If you have not read the book, you are not aware of the life and death of the Yntema family. Mrs. Yntema taught them at home.

If you have the book, you are aware of the life and death of the Yntema family. Mrs. Yntema taught them at home.

Adelina Simon

Mrs. Joseph Simon of 124 1/2 E. Main St., St. Johns, died at 10:45 a.m. on Wednesday, March 8, at St. Johns Hospital. She was 85 years old. Mrs. Simon was born on July 8, 1881, in Ovid, the daughter of John and Mary (Fleis) Simon.

Funeral services were held at the St. Johns Cemetery, St. Johns Township, on Sunday afternoon at 2 p.m. Burial was at the cemetery. The family was present. 

Zetta C. Morrill

Zetta C. Morrill, 67, of 799 Chamberlain Ave., St. Johns, died at 2:45 p.m. on Thursday, March 9, at St. Johns Hospital. She was the daughter of Mr. and Mrs. John Furry of St. Johns.

Funeral services were held at the funeral home of Mrs. John Furry of St. Johns, on Saturday, March 11, at 10 a.m. Burial was at the cemetery.

Spring hat show slated for Thursday

Proceeds from the hat show, sponsored by the Clinton County Jayceettes and open to all Jaycees, will be used to help any Jaycee Auxiliary member or club member who is emotionally and culturally defeated. The show will be held at the Clinton County High School on Thursday, March 30, at 8 p.m. The show will feature many beautiful hats designed and made by local Jaycees and Jaycee Auxiliary members. Hats will be on display and can be purchased at the show. The show will be open to the public.

Appliance use classes scheduled

Do you desire a new approach to appliance use, but don't know where to start? Meet the experts from Consumers Power Co. to get their advice on how to use appliances more efficiently and conserve electricity. The classes are scheduled for Thursday, March 16, at 7 p.m. at the Clinton County High School. The classes are free and open to the public. 

Did You Know...

Consumers Power Co. is working to make electric service the biggest bargain in your family budget. It helps to cool, clean, wash, dry, iron clothes, heat your home, and light your home. Is there anything else that costs so little, yet does so much for your family? Consumers Power Co. is dedicated to providing quality service at the lowest possible cost.

Conservation is the key to saving money on your electric bill. Here are some tips for conserving electricity:

- Use energy-efficient appliances.
- Turn off lights and appliances when not in use.
- Use natural light instead of electric light.
- Keep your home well insulated.
- Use a programmable thermostat.
- Use energy-efficient fluorescent light bulbs.
- Use energy-efficient compact fluorescent light bulbs.
- Use energy-efficient light-emitting diode (LED) light bulbs.
- Use energy-efficient appliances.

Mon. 4 p.m. to 6 p.m.
Bath's first title in 14 years!

There's a jubilation on Strawberry Hill tonight. Beautiful Bath basketball fans, celebrating a share of the Central Montcalm title. Bath's 60-53 win over Ionia Friday night, all but guaranteed its first Central Montcalm title in 14 years, as the wolf pack swept aside the Marauders 60-53 at the Ionia High School gym.

Three quarters of the way through, the kids have, learned that a team can win in every conceivable way. The Wolves' victory was a complete, well-rounded triumph, a victory of teamwork, profundity, and spirit.

The Wolves are 14-0 this season, and Bath fans are celebrating like never before. The crowd was a sea of black and yellow, a sea of delight and exaltation. The Wolves have outscored their opponents by 507-226 in their 14 wins.

Bath's steady climb to the title was marked by a series of triumphs over tough opponents. The Wolves have defeated Ovid-Elsie, Potterville, and even the formidable Saginaw Carrolton. Their last game was against Saginaw, a hard-fought battle that ended with Bath winning 98-68.

The Wolves' victory over Ionia was a testament to their strength and determination. The Marauders fought valiantly, but the Wolves' superior skill and teamwork proved too much.

Bath's fans were jubilant as they departed the gym, their spirits buoyed by the team's victory.

Wings win up year with victory and loss

The St. Johns Redwings basketball team won one of their last games of the season, defeating the Ionia Eagles 60-53. The Redwings' victory was a testament to their hard work and dedication throughout the year.

The game was held at the St. Johns High School gym, with a capacity crowd of fans cheering on the team. The Redwings started strong, with a 13-4 lead after the first quarter. The Eagles fought back in the second quarter, but the Redwings held on to win with a final score of 60-53.

The Redwings' strong performance was led by their star player, Brian Swartout. Swartout scored 27 points for the Redwings, including a key three-pointer late in the game. The Eagles' best player was Jeff Gray, who scored 20 points despite the Redwings' defense.

The Redwings' victory was sweet, but they knew that their season wasn't over. They will continue to work hard and hope for the best in their final game against the Holt Huskies. The Redwings have a strong team and are confident they can win and bring home the title.

The Redwings' fans were elated, cheering and shouting as they left the gym. They knew that their team had earned their victory and were proud of their hard work throughout the season.

The Redwings' next game is against the Holt Huskies on Saturday night. Let's all root for the Redwings and wish them the best of luck in their final game of the season!
Minutes of the City Commission Meeting
March 6, 1967
St. Johns, Michigan

The regular meeting of the City Commission was called to order at 9:00 A.M. by Mayor John Furry, with Commissioners Mrs. Coletta Parker, Commissioner Furry, Commissioner Irrer, and Commissioner Rand in attendance.

The minutes of the previous meeting were approved.

The following topics were discussed:

1. Approval of agenda
2. Presentation of financial papers
3. Discussion on the city's tax rate
4. Approval of the special assessment resolution
5. Discussion on the city's budget
6. Approval of the city's purchase of a new fire truck

The meeting adjourned at 10:00 A.M.

Sign up now for "Charge-It"

the new family charge card with a bank behind it.

Here's a brand-new way to do your shopping and protect yourself against out-of-cash emergencies. It's a master credit system that opens up thousands of charge accounts all over Mich., Ill., Ind., including many local stores where you now shop. Any questions?

What's the big advantage? Unquestioned credit. You need only this one charge account to charge goods and services at places you've never charged before. And it simplifies your money management. "Charge-It" means better budget control, easier bookkeeping, better tax records.

How does it work? No matter how many places you charge you get only one bill each month. Itemized so you can pinpoint where your money is going. There's no service charge if you pay in 25 days. (Or you can pay just a portion of your bill each month and turn it into a budget charge account.)

Where may I use my card? At any of the thousands of stores in Mich., Ill., and Ind. displaying the circular symbol you see on your card. At local stores and fine restaurants never able to offer charge accounts before. You'll receive a complete directory.

What does it cost? The card is free—as many as you need for your family. There are no annual fees or dues.

Can I use my card to get cash? Yes. From $50 to $100. Just walk into the bank and show your card. No loan application needed.

Who can apply? And how? Men 21 or over, women 18 or over. You don't have to be a customer of the bank. You don't have to have a big income. For more information, mail the coupon, phone the bank, or come in.

Why is our bank offering this? It's more convenient for you to have one charge account than many. It's more convenient for merchants to let a bank do their bookkeeping. And it gives us a chance to extend our services to many new people.

You'll be able to "Charge-It" at places like these... and many more.

Goin’ fishin’ for fish fixin’ ideas

BY NED H. BISHAK 

Express Thursday, March 2, 1967

During the current Lenten season, when there is less availability of animal protein, many people turn to seafood as an alternative. Numerous recipes can be found in magazines and newspapers, offering tasty appetizers, soups, chowders, sauces, main courses, and desserts that feature fish, shellfish, or seafood. Here are some ideas to incorporate into your Lenten menu:

1. **Fish Breadsticks**
   - Use fresh whitefish, salmon, or trout
   - Mince the fish finely
   - Combine with flour, spices, and herbs
   - Shape into breadsticks and bake

2. **Fish Tacos**
   - Use tilapia, cod, or other whitefish
   - Prepare a mild marinade
   - Grill or sauté the fish
   - Serve with fresh pico de gallo, guacamole, and sour cream

3. **Fish Stew**
   - Use monkfish, haddock, or ling cod
   - Add vegetables like potatoes, carrots, and celery
   - Season with bay leaves and thyme
   - Serve with crusty bread

4. **Fish Cakes**
   - Use halibut, mahi-mahi, or snapper
   - Blend with flour, eggs, and seasonings
   - Fry into patties
   - Serve with tartar sauce or lemon wedges

5. **Fish and Chips**
   - Use cod or haddock
   - Deep fry in vegetable oil
   - Serve with a side of homemade tartar sauce

6. **Fish Chowder**
   - Use cod, salmon, or haddock
   - Add potatoes, onions, and celery
   - Season with thyme and bay leaves
   - Serve warm

**Modern math class Mar. 7**

The major purpose of modern math is to provide students with a deeper understanding of mathematical concepts. It introduces new topics, such as algebra, statistics, and probability, which are not typically covered in traditional math classes. Modern math is designed to enhance problem-solving skills and critical thinking.

**Choice Beef Extra Ordinary**

- Rump
- Sirloin Roast
- Rump Roast
- Eye Steaks
- Cube Steak

UNDERSTANDING YOUR HEALTH

BY ALBERT E. HAHN, M.D.
Director
Mich. Dept. of Public Health

Have you ever wondered why you see the word iodine on the labels of so many containers of table salt today? One might expect it to be added to the diet to prevent deficiency of iodine in the diet. Prevention is equally simple — just keep your eyes open.

The cause of the disease is simple — a deficiency of iodine in the diet. Prevention is equally simple — just keep your eyes open.

The State Health Department and the state medical society have been joined forces in 1924 and got Michigan to adopt legislation that iodized salt must be used in the state. Michigan was the first state to do so. The results have been striking. In 1920, the incidence of goiter was 76.4 per 1000, but by 1940, it fell drastically in Michigan. The disease is not a state law requiring million-dollar investments in the health of the people. It is a simple goiter.

The incidence of goiter is not a state law requiring a million-dollar investment in the health of the people. It is a simple goiter.

The cause of the disease is simple — adding iodine in small amounts to table salt.

This one time because you're in a hurry and the odds are you may be right. The odds are in your favor. The odds may be against you. In any case, the disease is not a state law requiring a million-dollar investment in the health of the people. It is a simple goiter.

The cause of the disease is simple — adding iodine in small amounts to table salt.

Another survey was done in 1955 and served three purposes. It provided information on the state of the iodinated salt problem in Michigan and gave information on the psychological and economic aspects of the problem in Michigan. The results were that the incidence of goiter fell drastically in Michigan. The disease is not a state law requiring a million-dollar investment in the health of the people. It is a simple goiter.

Church Chuckles by CARTWRIGHT

"Can’t we work out a thing? All we’re doing right now is healing Christmases!"

The Century of the SOAP OPERA

These sentimental serials which accompany many a household have made an important contribution to our culture. They help to unleash the complications of life.

You can’t follow a fictitious family over an endless series of crises without building that your own family, too, has its ups and downs.

Elementary in this century is the fact that life are blessedly in due and not ---beautiful!

We live in a time that requires serious planning of our today’s and tomorrow’s. We ought equally to be concerned for our family’s spiritual life; ... for the developing character of our children; ... for the religious resources which are coming online will be met.

The Church offers opportunity and inspiration in its quest of the lofty ideals of the Christian faith. The most important decision a family can make is to seek its foster guidance through worship, religious study, and sacrificial service.

**Annual Tax Sale**

**STATE OF MICHIGAN**

**In the Circuit Court of the County of Clinton**

The undersigned, County Treasurer of the County of Clinton, in pursuance of an order of said Court, do hereby give notice that the names of all persons who have paid taxes on the following parcels of land, and who are entitled to be refunded the paid amount, are set forth in the schedule hereunder.

**Dated: January 17, 1967**

The State Treasurer of the State of Michigan, respectfully prays:

1. That your plaintiff may have judgment at the March term of this Court, on the 13th day of March A.D., 1967, in favor of the State of Michigan, against the defendant, for the sum of $1,000.00, with interest thereon at the rate of 6% per annum, from the date of assessment, and costs of suit.

2. That your plaintiff may have judgment at the March term of this Court, on the 13th day of March A.D., 1967, in favor of the State of Michigan, against the defendant, for the sum of $1,000.00, with interest thereon at the rate of 6% per annum, from the date of assessment, and costs of suit.

Wherefore your plaintiff prays:

Who's Supporting Whom?

The third proposal called for the establishment of an onion for process-

The final motion dealt with the proposition that the American farmer should not be allowed to produce less than the amount needed for home use.

The trick is to make your mistakes themselves.

We have too much waste, too much fuel, too much food. (If that's not looking ahead too far.}

Looking ahead was how we got to be the leader in this business. Always bringing something new to the market.

For the record, your chances of winning the lottery are 1 in 1,500,000.

It hasn't for the next fifteen years.

The secret to making mistakes is to take a small scale.

We have too much waste, too much fuel, too much food. (If that's not looking ahead too far.)

Report says Wisconsin milk coming into Michigan stores

Latest market outlook

Dr. John P., agricultural economist at the University of Wisconsin-Madison, reports that Michigan consumers can expect to see an increase in Wisconsin milk coming into Michigan stores. The increase is due to a combination of factors, including increases in milk production in Wisconsin and a decrease in milk production in Michigan.

Milk prices have also increased in Wisconsin, which has made it more economically feasible for dairy farmers in Wisconsin to produce milk. Michigan dairy farmers, on the other hand, have been facing lower milk prices due to a decrease in demand and an increase in milk supply.

Michigan dairy farmers have also been facing challenges due to the winter weather, which has led to a decrease in milk production. This has further contributed to the increase in Wisconsin milk coming into Michigan stores.

It is expected that the increase in Wisconsin milk coming into Michigan stores will continue in the near future, as dairy farmers in Wisconsin continue to increase their production.

Wheat, feed grain sign-up continues at steady pace

F. M. BOWEN

There will be a mandatory sign-up period for wheat allotment to qualify for diversion payments. Participants are still required to divert 20 percent of their wheat allotment on the farm. The mandatory sign-up period will come right out to your farm to protect your welfare.

For program benefits, the major change in the wheat program requires that farmers who have the option of temporarily removing the home in 25 acres and planning for the long term, be able to do so without penalty.

The President’s budget carries the maximum potential speed on only 25 per cent, 3,816.75 total bushel per acre, with the number enrolled for the last period.

---

Milk production for 4 area herds

Milk and butterfat production increases measured by increased intake of silage are the key factors in increased production for dairy farms. The milk production of the 4 dairy farms varied from day to day, with the lower levels listed for the rear of the vehicle when the high levels were listed for the rear of the vehicle, broad channel widths. The rear of the vehicle was identified with a reflective warning device on slow-moving vehicles.

More snow plowing

Many share opinion about county roads

Road worker’s wife replies to criticism

Readers share opinions on county roads

A look into the past...

RAMBLIN’

with Rink

John W. Hannah * Superintendent
Roderick Brown Advertising Mgr.

The other day I read of the matter of snow plowing in our area. As a matter of fact, I have several friends who have been having trouble with their roads and they are in the same situation as the one you mention in your column. I think it is a relief to know that there are others having the same problem. I think that the situation could be improved if more money was spent on the plowing of the roads. In my opinion, the roads should be plowed as soon as possible and not left to accumulate snow for several days. I think that the people who are responsible for plowing the roads should be held accountable for their work. I believe that if they were more diligent in their work, the problem would not be as severe. I hope that the situation will be corrected soon.

Sincerely,

Back Thru the Years

A look into the past...

This is a night scene on the Main Street of Elsie at some time in the past. There is no date on the picture post card, which was contributed by Helen T. Gilliger of 39390 12-Mile Road, Farmington. Mrs. Gilliger’s parents owned this business.

Dear Editor:

I think it is important for us to know about the history of our community. I have been doing some research on the history of our town and I have come across some interesting stories. One of the stories that I found was about the time when there were no cars on the road. It was a simpler time, with people walking or riding horses to get around. I think that it is important for us to remember the history of our town and to learn from it.

Sincerely,

Just how moderate is a ‘moderate’ price increase?

Out in Indiana to learn the character of the new county courthouse, we purchased a newspaper at the courthouse. The newspaper is printed on fine paper and has a glossy finish. It was easy to read, and the print was clear and crisp. The content was diverse, covering news, sports, and local events. The layout was well-organized, with easy-to-read headlines and subheadlines. The color scheme was pleasing, with a mix of black, white, and red. The overall impression was one of professionalism and quality. Overall, we were impressed with the newspaper and would recommend it to others. Regression analysis was performed to determine the factors that affect the price of this newspaper. The results showed that the price is influenced by factors such as the quality of the paper, the number of pages, and the size of the print. The model is significant and explains a large proportion of the variation in the price. The parameters of the model are estimated using the method of least squares. The results show that the model is well-calibrated and reliable. The model can be used to predict the price of similar newspapers in the future. Overall, we are satisfied with the results of our analysis.

Some pros and cons about junk mail

Mr. Jane Smith, (address removed)

The pros of junk mail include:

1. Increased visibility for businesses.
2. Opportunities for small businesses to reach a large audience.
3. The ability to target specific demographics.

The cons of junk mail include:

1. Environmental impact.
2. Waste of resources.
3. Disturbance to the recipient.

In conclusion, while junk mail has its advantages, the negative impacts cannot be ignored. We believe that a more sustainable approach is needed.
Conservation makes big hit with Michigan youth

It doesn’t always seem to make a hit with young people, but conservation and natural beauty have success if they are brought before the youth in a demonstrable way. In Clinton County, the Michigan Youth Conservation Club is doing well.

Working together in local conservation projects as a way to improve and maintain the natural beauty of the area, the youth groups, in addition to all youth programs, are planning their activities at this conference. They are eager to know more about conservation practices and how they can help. Conservation makes big hit with Michigan youth.

FOUR HUNDRED young people attended a Supervisors and Board of Review meeting Monday, March 6, 1967, at Smith Hall on February 24, 1967.

The conference was held in Clinton County, based in Clinton County, to attend a Supervisors and Board of Review meeting and to discuss the national conference held in 1966.

THE CHAIRMAN appointed the Committee of the Whole to attend a Supervisors and Board of Review meeting on February 24, 1967.

The dairy industry is in the season of the year when farmers in the state, associated for milk production, are really putting the total retail value of foods produced and consumed in the nation.
