Snow chase nabs two

By TONY SPUFANG

Volkswagen, left, worked in a landing room at the plant parking lot and was chased into the front yard of the Don Kast residence, 4901 S. Meridian Road, ST. JOHNS—Dozens of deputies and 12 other officers from the Clinton County Sheriff's Department, including sheriff Anthony (Tony) Hufnagel, were pursuing the two men who were driving southbound on Clinton Street, Westphalia, with a stolen truck and a stolen car in tow.

The chase began when deputies discovered both vehicles disabled and removed from the scene of a previous year's accident on Westphalia Road in Westphalia. The truck had been used to transport an underground pipeline that was found to be severely damaged. The occupants of the Ford had fled the scene of the accident and were pursued by deputies.

The chase continued through the streets of Westphalia and into nearby villages, with deputies using a combination of vehicles and foot pursuit to capture the two suspects. Eventually, the truck and car were located and the suspects were taken into custody.

This was the scene Thursday afternoon when two Illinois men were killed when their truck was demolished by a westbound freight train at the Clinton Avenue crossing in ST. JOHNS.

Train-truck crash kills two

By MARIA STOUT

This was the scene Thursday afternoon when two Illinois men were killed when their truck was demolished by a westbound freight train at the Clinton Avenue crossing in ST. JOHNS.

The truck, operated by Anthony J. Spitzley, 36, of Westminster, IL, was southbound on Clinton Street when it was hit by the freight train. The driver of the truck, 32-year-old Dale Prosser, was killed instantly when the collision occurred. The truck was traveling at about 45 miles per hour when it collided with the train.

The train was traveling at about 60 miles per hour when it collided with the truck. The driver of the train, 42-year-old Lewis D. Sakrenas of Lennon, MI, was not injured. The train was carrying coal and was not transporting hazardous materials.

Witnesses said the signal lights were working properly and that the train operator was on duty at the time of the collision. The cause of the collision is under investigation by the Federal Railroad Administration.

Sealed Power names Fedewa

By BILL STOUT

Sealed Power Corporation, the nation's largest manufacturer of diesel engine parts, has named William R. Fedewa as its new president and chief executive officer. Fedewa will assume his new position on January 1, 1977.

Fedewa has been with Sealed Power since 1966 and has held a variety of positions within the company. He most recently served as vice president and general manager of the company's Power Systems Division.

He replaces the retiring Robert G. Batch, who served as president and CEO since 1971. Batch will remain with the company as a consultant for one year.

Fedewa has been involved in the diesel engine industry for more than 20 years, serving in various executive positions at several companies.

Joslin joins prosecutor's office staff

ST. JOHNS—The Clinton County Prosecutor's office has added another attorney to its staff with the appointment of William L. Joslin as an assistant prosecutor.

Joslin, 30, is a native of ST. JOHNS and a 1971 graduate of St. Johns High School. He received his law degree from Wayne State University and is a native of Detroit.

Joslin will replace Attorney Greg Kenworthy, who recently accepted a position as a deputy attorney general in Lansing. Joslin will be responsible for handling public welfare disputes.

Evaluation program set for St. Johns High School

ST. JOHNS—Quentin Verbeck, principal of St. Johns High School, has announced that the faculty and administration of the school have set aside this spring for a comprehensive self-study program in an effort to improve the quality of education offered to the students.

In preparation for the evaluation, the school has engaged a consultant, Dr. Donald A. Schleuning, of the University of Michigan, to make a study of the strengths and weaknesses of the school. The consultant will visit the school this month to conduct interviews and gather data for the evaluation.

Dr. Schleuning will work closely with the faculty and administration to develop a comprehensive program for improving the school. The program will be based on the results of the evaluation and will be designed to meet the needs of the students and the community.

The consultant will complete his study and submit a report to the school by the end of the school year. The report will be used by the faculty and administration to develop a plan for improving the school.

In addition to the evaluation, the school is also considering the possibility of joining the North Central Association (NCA) for a comprehensive program of school improvement. The NCA provides a framework for school improvement and offers resources and support to schools.

The school is currently in the process of applying for membership in the NCA. If the application is successful, the school will become a member of the association in the fall.

The evaluation and the possibility of joining the NCA are two of the major initiatives being undertaken by the school to improve the quality of education offered to the students.

The school is committed to providing the best possible education for its students and is confident that the evaluation and the possibility of joining the NCA will help it achieve this goal.

The school is grateful to Dr. Schleuning for his expertise and assistance in conducting the evaluation.

The school is looking forward to the results of the evaluation and the possibilities that lie ahead for the school and its students.
Cancer fund drive set

The current educational and research programs of the Clinton County Cancer Fund are being

advocated by a number of high school students. Their efforts are being directed towards an ambitious goal of raising $2,000 for the fund.

A number of these students have already been trained and are prepared to give talks to high school and junior high students. They will also be available to give talks to other groups as requested.

The Cancer Fund is an organization that was formed several years ago with the specific purpose of raising money to finance medical research. Since its formation, the fund has contributed to a number of worthwhile projects and has helped to advance the field of medical science.

The goal of the current fund drive is to raise $2,000, which will be used to support medical research projects. The fund is particularly interested in supporting projects that are aimed at finding a cure for cancer. In addition, the fund is interested in supporting projects that are aimed at improving the quality of life for people who are currently suffering from cancer.

The fund drive will be ongoing throughout the spring and summer months. Students will be available to give talks and answer questions about the fund and its goals. If you are interested in learning more about the fund, please contact the Cancer Fund office at (517) 555-1234.
Ind. Valparaiso, Ind.; a brother, Charles, Rahway, N.J.; and a sister, Mrs. Mary Lou Kramer of Colorado. He was a member of the Ancient Order of United Workmen, a member of St. John's Catholic Church, and a life member of the Knights of Columbus.

John H. Douglas

Clint Eastwood, one of the directors of the Civic Players, will direct the production of "Tom Sawyer and the Pirates," their classmate last Friday. The students, under the direction of their teachers, Mrs. Aurelia Spengler, have worked on the play and the construction of the scenery for the past three weeks. Before presenting the play to the audience, the cast viewed their production on video tape.

Meeting the Cast

Fifth graders at East Olive School presented the production "Tom Sawyer and the Pirates" to their classmates last Friday. The students, under the direction of their teachers, Mrs. Aurelia Spengler, have worked on the play and the construction of the scenery for the past three weeks. Before presenting the play to the audience, the cast viewed their production on video tape.
Redwings lose overtime game

Ed Jorae (15) of St. Johns gets an unwanted block from a Waverly Warrior during Tuesday night's 76-64 overtime Redwing victory.

St. Johns-The East Lansing Trojans weren't very happy about getting that block during their stop at St. Johns last week, and they weren't happy about it in their place, but neither could St. John's John Heathman.

The Redwings, host of the 1977 Class A district tournament, slipped behind the seemingly first-guamer-against-Thursday-nightly-by-the-time-they-could-get-him-into-the-game.

The Trojans were victorious, 54-47.

St. Johns, 18-15 in the first quarter and 15-14 in the second, were outscored 70-64 by Waverly in the tournament.

It was doubly sweet for St. Johns after it was the first time the Redwings had seen the Trojans.

The teams traded baskets and missed shots with the Redwings taking a slim one-pointer halfway through the first period. The outcome was in doubt through two quarters and the Redwings took a 31-30 lead into the third quarter.

The see-saw battle continued in the second half and missed shots with the Redwings holding a slim one-pointer after three quarters.

But St. Johns had a clear shot at a layup against Waverly. He hit a basket, sending the home cagers upset favored Waverly in the tournament finals.

The overtime period brought a Redwing victory, 4-1, with three straight baskets.

The Redwings finished the season with a 4-14 overall mark, while Waverly ended their campaign at 16-15 15 15 14 4 64.

St. Johns 16 14 13 15 10 70
Waverly 16 15 15 14 4 64

Others scoring for St. Johns were Parker (1), Jorae (0), Schueller (3), and Mohnke (4), Irish (6), and Sutherland (8).

The Redwings outscored St. Johns 29-20 in the second half and 19-14 in the fourth.

Looking back...The Redwings couldn't contain three straight baskets against the Warriors.

Flying high! St. John's Ken Schueller (15) puts off a bucket against two airborne East Lansing players Thursday night during Class A district cage competition. The Redwings lost 44-44.

Swish-tied! Rich Redon tossed the game with seconds remaining to send St. John's and Waverly into overtime play, which led to a Redwing victory—the first one ever against Waverly.

That's not very sporting, pal, Ed Jorae smacked a clear shot at a layup against Waverly. He clipped past (almost) two of them and looked to position on the other, but a tripping foul was called against the Warriors.

Mike Sutherland (31) makes two points as Bruce Irish (31) blocks out a Waverly rebounder.

District wrap-up

Clinton County, news photos by

Bob Schmaltz

Ed Jorae (15)—The East Lansing Trojans won't very appreciative guests during their stop at St. Johns last week, and they weren't happy about it in their place, but neither could St. John's John Heathman.

The Redwings, host of the 1977 Class A district tournament, slipped behind the seemingly first-guamer-against-Thursday-nightly-by-the-time-they-could-get-him-into-the-game.

The Trojans were victorious, 54-47.

St. Johns, 18-15 in the first quarter and 15-14 in the second, were outscored 70-64 by Waverly in the tournament.

It was doubly sweet for St. Johns after it was the first time the Redwings had seen the Trojans.

The teams traded baskets and missed shots with the Redwings taking a slim one-pointer halfway through the first period. The outcome was in doubt through two quarters and the Redwings took a 31-30 lead into the third quarter.

The see-saw battle continued in the second half and missed shots with the Redwings holding a slim one-pointer after three quarters.

But St. Johns had a clear shot at a layup against Waverly. He hit a basket, sending the home cagers upset favored Waverly in the tournament finals.

The overtime period brought a Redwing victory, 4-1, with three straight baskets.

The Redwings finished the season with a 4-14 overall mark, while Waverly ended their campaign at 16-15 15 15 14 4 64.

St. Johns 16 14 13 15 10 70
Waverly 16 15 15 14 4 64

Others scoring for St. Johns were Parker (1), Jorae (0), Schueller (3), and Mohnke (4), Irish (6), and Sutherland (8).

The Redwings outscored St. Johns 29-20 in the second half and 19-14 in the fourth.

Looking back...The Redwings couldn't contain three straight baskets against the Warriors.

Fowler snares district title in double-o-t win

By TIM YOUNKMAN

Congratulations champs! An area tournament official congratulates Alan Harr (44) and his Fowler teammates following the Eagles' double-overtime victory over Grand Rapids Covenant Christian, Friday night. Fowler avenges last year's regional games against the Eagles as he ties up the series at 7-7. Fowler's Holiday Classic victory at the School's home court.

IN NEXT WEEK'S COUNTY NEWS

The Regional Wrap Up... complete stories and pictures of the East Bank, Pewamo/Westphalia, Ovid-Elsie, Clinton County News, and the Sexson. Andy Brown returns to the scene for your best regional games. Andy Brown returns to the scene for your best regional games.

Up and in to tie the game. Fowler's Mel Pohl saves the day for the Eagles as he ties up the contest with this key moment before time runs out in regulation play. The score here was 61-61.

P-W Pirates to face St. Stephen in regional

By TOM YOUNKMAN

HIGHLIGHTS - Hansel Westphalia, 68-66, with Steve Talen, Tony Thelen, and John Pohl all getting their 15 points. The score here was 61-61.

Sharks slip past O-E

Barnes new mid-state engineer

Robert L. Barnes, 28, of New Haven Township, has been named Chief of Environmental Health of the Mid-Michigan District Health Department. The announcement of the promotion was made today by Dr. Ahmad Aurang, director of the Mid-Michigan District Health Department. In his new position, Barnes will supervise and coordinate the work of sanitarians in Gratiot, Clinton and Montcalm Counties.

Holder of the bachelor's degree in science, Barnes has been sanitarian of the Gratiot branch of the Health Department since 1969. He and his wife Patsy live on South Warner Road with their two children, Brien, 4, and Julie, 2.

Karber celebrates 50 years

Larry Karber talks with guests last week who stopped in during Karber Block's 50th anniversary open house.

Art Trierweiler and Larry Karber of Karber Block, one of St. Johns' oldest firms, greet Ralph Lebrato of Stylemaster Homes, one of the city's newest industries during open house festivities last week.

This is part of the Karber Block display featured at Central National Bank's lobby.

The firm has a fleet of eight trucks, set and ready to go.

Karber Block's Art Trierweiler and Central National Bank Pres. Harold Wellman draw the name of the grand prize winner, Mrs. Edith Stockwell of St. Johns. She won all of the materials for a complete outside barbecue.

Central National Bank Presents ... No. 7 in a Series

Karber Block Co.
St. Johns

Manufacturers of Block
And Miami Stone

Prior to a tour of the plant, Harold Wellman, Central National Bank president, discusses production with Larry Karber, owner of Karber Block.

The automated plant can produce up to 1,000 pieces per hour in any one of 67 different shapes. And the operation is complete, from production to delivery to the job site, in a few minutes.

Much of the raw materials used in the operation come from Karber Gravel, the former Walling Gravel which was purchased last year.

The finished product, ready for delivery in one of 8 heavy duty trucks.

See the Karber Block Company Display in the main lobby of Central National Bank.

style include, from top, Bob Elliott of St. Johns, Chip
Potts of Waverly, Mark Stephenson of St. Johns, Mark
Howard of Grand Ledge, Rick Iiams of Grand Ledge
and Tom Hamill of Grand Ledge, With swimming assistant
Bruce Barber.

CLINTON COUNTY NEWS, St. Johns, Michigan
It's inequity

A clear example of the inequity of government controls over business is the struggle between monopolies and the public for the distribution of profits. Some monopolies are forced to increase their wages while at the same time allowing the postal service to retain a mail monopoly. This situation has to be continually monitored by the postal service to prevent this from becoming a monopoly. There are various laws and regulations that are enforced to prevent this from occurring.

It is important to note that the profits of monopolies are not distributed evenly. Some monopolies are able to keep a large portion of their profits while others are forced to give a smaller portion to their employees. This inequity is a result of the monopolies' ability to control the market and dictate the terms of sale.

There are various laws and regulations that are enforced to prevent this from occurring. However, it is important to note that the profits of monopolies are not distributed evenly. Some monopolies are able to keep a large portion of their profits while others are forced to give a smaller portion to their employees. This inequity is a result of the monopolies' ability to control the market and dictate the terms of sale.
