Election Tuesday

Millage approval in St. Johns would mean $110,000 annually

Andrews, branch manager of the St. Johns "You can't pass the license plates on your car yet, you'd better get moving—subscribers can expect deliveries shortly after taking office."

President's stated purpose of his inauguration was accomplished and the costs have been corrected accordingly.

Secretary of the Interior, St. Johns waste water treatment, said the millage request would be presented to the Board of County Supervisors for their consideration and the Board would present it to the public for their consideration. The millage would be $1 per thousand of assessed valuation for the next five years.

Honda prime minister to visit St. Johns April 7

Wilcox defends criticism of Tri-County sewer plan

Honduras prime minister will visit St. Johns April 7

Wilcox defended the criticism of the Tri-County sewer plan as being "the honest view of some of the people who live in St. Johns and the surrounding area." He said the sewer plan was necessary to protect the health and welfare of the people in the area.

Allen introduces abortion measure in the House

As Rep. Richard J. Allen (D-St. Johns) introduced abortion measure in the House Wednesday, March 25, 1970. The measure would allow a physician to have a legal abortion on any woman seeking an abortion now, regardless of the woman’s religion or in any case the woman wishes to have an abortion. The measure also applies to women who are not married or who have a child under 18.

In St. Johns

$2,545 less in treasury as city valuation drops

The St. Johns city treasurer on Wednesday when he made calculations of the total valuation of the city for the current year, said the assessment in this city was $5,245,900 is charged against real property while the balance of $5,245,900 is charged against personal property. A major portion of the city’s personal property is held by the Board of Education for the personal property category. The 1969 assessment figures, was $5,245,900 in 1969 and ending with the personal property category. The personal property decrease was $5,245,900 in 1969 and ending with the personal property category.

Chamber endorses millage

After receiving a favorable review which showed support for a proposed millage increase in St. Johns, the Chamber of Commerce has endorsed the measure calling for an addition of five mills. The election will be Tuesday, March 25, 1970. Voting on the issue will be held at the school on the same day.

Music students entertain club

Music students of St. Joseph High School presented a program of the music department in the school auditorium on Monday evening. The program included student solos, duets, and groups in a variety of music styles. The audience was enthusiastic and the students received a standing ovation.

Safer noon hours for Rodney B. students

Rodney B. students will enjoy safer noon hours this week as a new traffic control policy adopted by the city council went into effect Monday night. The new policy is in effect from 11 a.m. to 1 p.m. Monday, Wednesday, and Friday.

BY MRS. JAMES BERGMAN, Correspondent - Phone 22-4411

The women of the nation will play a large and vital role in the 1970 census, and each woman will be counted. The census is being conducted by the United States Census Bureau, and it is the first time in history that women will be counted in a national census. The census, conducted every ten years, provides information about the population of the United States, including information about race, age, sex, and family characteristics.

The census will also provide information about the economic conditions of the United States, including information about employment, income, and housing. The data collected by the census is used by government agencies, businesses, and researchers to make informed decisions about policy and planning.

The census is important because it provides a snapshot of the United States at a particular point in time. The data collected by the census is used to inform decisions about policy and planning, and it is used to allocate federal funds to states and localities.

The census will be conducted in two phases. The first phase, known as the “address canvassing,” will be conducted from March 1 to April 15, 1970. During this phase, census takers will visit every household in the United States to verify the accuracy of the address information.

The second phase of the census, known as the “enumeration,” will be conducted from April 15 to July 15, 1970. During this phase, census takers will visit every household to collect information about the occupants of the household.

The census is an important tool for understanding the economic and social conditions of the United States. It is used to inform decisions about policy and planning, and it is used to allocate federal funds to states and localities.

The census is a valuable tool for understanding the economic and social conditions of the United States. It is used to inform decisions about policy and planning, and it is used to allocate federal funds to states and localities.
Clinton National honors employees

Mrs. Jean Pavlick, secretary and new account receptionist, was named Mrs. Clinton National Bank's first Secretary for her years of service to the bank which have gone beyond the demands of her position.

She and her husband Carl reside at 200 W. High St., JOHNS. She is a graduate of Pittsburg H.S., Pittsburg, Kan. She attended Central Michigan University and B. Wilson High School, she and her husband were married in 1944. Miss Pavlick has been with the bank since 1965.

Also honored for more than 25 years service with the Clinton National Bank were Fred Tile, Arden Cook, John Rumbaugh and Irene Spodak. Vera Martin, who has also more than 25 years with the bank was absent.

Sewer fee is eliminated

In an effort to cooperate with the Department of Environmental Control, the Clinton County Health Department has eliminated special sewer permits for new residences of 2500 sq. ft. or more with 10 years or longer and establishments of 5000 sq. ft. or more with 25 years service.

The Health Department recommends that long-time residence maintain proper sewage systems to avoid any problems at all. This results in more money spent for water and sewage systems.

People with such problems can go to the health department and get systems free of charge.

Sewage permits for new residences will be available.

Miss Virginia Shawnee, Doris Strouse, Virginia Devore, Virginia Shawnee, Mrs. Clinton Trust Co. held its first Secretary for her years of service as follows: Gladys Baker, Victor Bryan, Dennis Fleck, Victor Schutte, William Nemcik, Jean Pardike, Nancy Young, Betty Mankey, Susan Miller, Jones, Stan Loznak, Connie Lounsbury.

The following have been especially honored five employees for one year. She was chosen for her community functions - during the year 1970.

John Rumbaugh, executive vice-president, presented awards to the following for one year: Mrs. Clinton Trust Co. held its first Secretary for her years of service as follows: Gladys Baker, Victor Bryan, Dennis Fleck, Victor Schutte, William Nemcik, Jean Pardike, Nancy Young, Betty Mankey, Susan Miller, Jones, Stan Loznak, Connie Lounsbury.

Clinton Demhs allocate 111 delegates in precincts

The Clinton County Democratic Central Committee has allocated 111 delegates in precincts to the county convention.

In determining the number of delegates allocated to each precinct, the Committee has considered the population in the area, the vote and proportional representation of the party's candidates in previous elections.

The full text is available in the file named "Clinton County Convention Allocation.pdf".

County of Clinton
State of Michigan
County Planning Ordinance

An amendment to the ordinance establishing a county planning commission, its organization, powers and duties.

Article I, Creation: Pursuant to and under the authority of Act 283 PA 1946, and Act 283 PA 1945, there is hereby created and established a planning commission with all of the authority, powers and duties set forth for the general purpose of serving and preserving the health, safety and general welfare of the residents of Clinton County.

Article II, Power: The Clinton County Planning Commission shall have all powers and duties which can be conferred upon a planning commission pursuant to Act 283, PA 1946, as amended, or by any other provision of law. It shall have all powers and duties which can be conferred and incorporated in this ordinance as fully as though set out verbatim herein.

(a) These commissioners shall be appointed for a term of three years and until appointment and qualification of a successor. If a commissioner shall die, resign, or otherwise cease to hold his office before the expiration of his term of office, the vacancy thus caused shall be filled for the balance of his term of office by appointment of the county board of supervisors.

(b) The basis for representative membership on the commission shall be as follows: One commissioner shall be appointed from each of the following segments of the community: agriculture, industry, commerce, transportation, education, recreation, government. No more than one commissioner shall be appointed or shall serve at any one time from any segment of the community as designated hereinabove.

(c) These commissioners shall be appointed for a term of three years commencing Feb. 13, 1970, at 4:00 p.m.; Two commissioners shall be appointed for a term of two years commencing Feb. 13, 1970, at 4:00 p.m.; Two commissioners shall be appointed for a term of one year commencing Feb. 13, 1970, at 4:00 p.m.; and the remaining commissioner shall be appointed and make up the balance necessary to complete the vacancy as provided above.

Chairmen of the Clinton County Board of Supervisors, Chairmen of the Clinton County Zoning Commission, Chairmen of the Clinton County Road Commission, Clinton County Drain Commission.

Article V: The County Board of Supervisors may remove any member of the commission for misbehavior or misconduct pursuant to reasonable notice in writing and after a public hearing.

Article VI: Each member of the commission shall receive the same compensation as the County Board of Supervisors on a per diem basis as provided for in the County Drain Commission Ordinance. Each member of the commission shall be reimbursed for actual reasonable and necessary expenses incurred in the discharge of his duties. Upon approval of the board of supervisors, an official member of the commission shall serve without compensation, but may be reimbursed for any expenses incurred in the discharge of his duties as provided for in the County Drain Commission Ordinance. Each member of the commission shall serve without compensation, but may be reimbursed for any expenses incurred in the discharge of his duties as provided for in the County Drain Commission Ordinance.
A funeral service for William T. "Bill" Smith, 80, was held at the First United Methodist Church of Whitehall, with the Rev. James L. Maxfield officiating. A graduate of Michigan State University, Mr. Smith was a retired school teacher. He is survived by his wife, Mrs. Mary Smith, and their daughter, Mrs. Carol Smith Nash. Services were held at 1:30 p.m. today in the church. Interment will be in Greenlawn Cemetery, Whitehall.

New leaders emerge in Fowler Bowl

Several new leaders emerged in the Fowler Bowl during the recent season. The team, which has been in existence for over 25 years, is known for its competitive spirit and has produced several All-America players. The team's success is attributed to the hard work and dedication of its members. The new leaders have been praised for their strong leadership and their ability to motivate the team. The Fowler Bowl is a popular event in the community, and the new leaders are expected to continue the tradition of excellence. #FowlerBowl #Leaders #CommunityEvent

We're a deal for you...

It's spring! Time to take off those winter-weary snow tires and let St. Johns Automotive Install a set of new Goodyear tires. And, while we're working on your tires, relax over a cup of coffee in our showroom. Also, there's still time to take advantage of our tune-up special... just $9.95 plus parts for a 4-cylinder engine. Drive out today or better still phone 224-4562 and we'll make an appointment for your service work. #StJohnsAutomotive #GoodyearTires #TuneUpSpecial

We've got a deal for you.

It's a win every time. Your earnings save from 1 1/2 to 3 1/4% now at Central National. That first year, the $20,000 insurance from F.D.I.C., makes it still a better deal. No chances taken here... just high return. Higher than at most banks, because we compound the interest DAILY on all...
All-County team - a tribute to Clinton basketball

In recognition of the high school basketball season which ended last weekend, the Clinton County News has named to this year's All-County basketball team, Mike Botke and St. John's Dave Gaffney.

The difficulty of selecting and the actual talent within the county are a tribute to the level of basketball played in Clinton County where top-flight basketball meets and second place is first runner-up. Considering all the talent from all the county schools, the All-County team is a true indicator of the strength of basketball within the region.

Three on first squad

Redwings dominate all-Conference team

As a result of the selection of the All-County basketball team announced Tuesday with three Redwing seniors, the question of how the team will be selected for the Michigan All-State team rose.

St. John's Dean Miller and Bob Rehmann were picked as the top two forwards and Dave Gaffney was selected as a guard. Bellingham's Tony Florey was chosen as the team center.

The second team to be announced Tuesday was St. John's John Kenlgsknecht, Fowler Gaffney of St. John's and Mike Botke of DeWitt.

The third team was selected with Christian's Paul Davis as the top forward and Fowler's Jim Taylor as the top guard.

All-County team members included Rich Stoddard, DeWitt; Ronie Rams, senior, all of Pewamo-Westphalia; and Paul Stoll, sophomore and Mike Truscott, senior, all of Ovid-Elsie.

Banquet ends Redwing season

By ROY KARLE

"No scout only talked to the basketball team, but made the point that the team would have to prove itself in practice." ..."That's a no-brainer" was reported.
By DAVE GIFFEN

SPECIAL

SPECIAL

Eighteen hundred times before—he's made a real effort..." he's all basketball.

A very fine job was said to have been accomplished by the arena. The Redwing season ended with a win over the Montana Maroon in the final game of the season.

The Redwings, concluding their first season in the Professional Basketball League, will be back next year with a more experienced team. The team has made a big impression on the local basketball scene and has a bright future ahead.

A note on the topic of basketball: The Redwings have signed a new player, Mike Davis, who will join the team next season. Davis has played for several Pro-Ball teams and is expected to make a significant contribution to the Redwings.

In a related note, the team's assistant coach, Tom Smith, has been instrumental in the success of the Redwings. Smith is expected to continue in his role next season.

A final thought: The Redwings have shown great promise and have a bright future ahead. With the addition of Mike Davis, the team will be even stronger next season. The fans of the Redwings can look forward to exciting games and a team that is on the rise.

Team thanks St. Johns

Gibralts principal pays tribute to Redwing fans

The team thanks St. Johns for uniting and supporting them during the season. They particularly want to thank the St. Johns fans for their support and encouragement.

Gibralts principal, Mr. Japinga, thanks the fans for their support and encouragement. He says that the team couldn't have achieved as much without the support of the fans.

Win 5 of 5

Local Golden Gloves still have that polish

The gold has worn on the boxing gloves, but the spirit of the Golden Gloves is still present. The local Golden Gloves team has had a successful season, with several members advancing to the state and national levels.

The team has a strong core of experienced fighters, including the state and national champions. They have been training hard and are ready for the upcoming tournament.

The Golden Gloves tournament is a great opportunity for young fighters to showcase their skills and compete against other top fighters. The team is looking forward to success in the tournament.

Boys within 20 miles of St. Johns eligible for Soap Box Derby

The Soap Box Derby is open to boys within 20 miles of St. Johns. The boys will be able to participate in the event and show off their skills.

The derby will be held on a warm, sunny day, and is a great opportunity for boys to get involved in a fun and exciting activity.

Boys will be encouraged to build their own soap box cars and compete in the race. The event will be a great way for boys to have fun and get involved in the community.

6th grade thoughts on Easter

Easter Time

BY JULIE LITTLE
Easter is a time for living. Easter is a time for giving. Easter is a time for joy. For every girl and every boy.
Easter brings a festive mood. Easter brings sweet candy food. Easter brings a time for all. Easter brings a joyous call.

Springtime

BY CINDY THORNTON
Springtime is a happy time. It's always very gay.
If you gave kids some time, but they would say the first of spring is their favorite day.
When the tulips are full of bees and leaves are in the trees, then give a big cheer for springtime is here.

Easter Time

BY SANDY BARCLAY
Easter time is fun and gay. When the rabbit comes your way, bringing us baskets filled with joy.
On Easter Day we go to Church, and the children wait to search. For their baskets filled with candy. Isn't Easter fun and dandy?

A Gay Easter Sunday

BY TERRI SUPPA
The sun is shining. Children inside getting ready. Easter egg time is here.
Easter Bunnies outside hiding. Colorful eggs, orange, purple, pink and red.
The children come running to find such beautiful eggs. Sheets of glee come from behind a tree.
One never knows where eggs will be hiding on branches, under leaves, and behind trees. Easter eggs are everywhere.

The 4-H message

by John Aylsworth

Twenty-four million 4-H Club members throughout the United States are involved in a variety of activities that help them grow into responsible adults. 4-H offers young people a chance to develop skills in science, technology, and business, all while having fun. This year, 4-H members are working on projects that address issues such as environmental conservation, agriculture, and leadership.

The county club's 4-H program is designed to help young people develop the skills they need to succeed in the future. Members are encouraged to participate in a variety of activities, including workshops, demonstrations, and competitions. They also have the opportunity to work with leaders and experts in their fields.

In addition to the 4-H program, there are dozens of other 4-H clubs throughout the country. Each club is unique, but all share the same goal of helping young people reach their full potential.

The 4-H message is a call to action for young people to get involved in the 4-H program and make a difference in their communities. It encourages them to take advantage of the many opportunities available to them and to be proud of their 4-H membership.

Raymond Thornton, who has been named one of 19 outstanding farmers in Michigan, looks over some of his 200-acre dairy farm. Thornton, a Clinton County farmer, Raymond Thornton, has been named one of 19 outstanding farmers in Michigan. He is a member of the Elzie 4-H Club and has been active in the club for many years.

Horse club honors two Ovid youths

Two Ovid youths, Bill and David Haas, have been honored by the Arabian Horse Association of Michigan. Bill was honored for first place in another class of the Youth Activities Division, as was David, in the rider division. Bill Haas (above) and his horse "Fire" were honored third place in the horse division.

Despite state trend

No decline in cows for Clinton County

Although the number of dairy farms in Michigan is down, the number of cows, based on the 1970 Farm Census, is still increasing. Haas, Clinton County Extension agent, says that's the Michigan dairy picture, produced but many other farm operations have been declining.

The annual NFO dinner will be held on April 11, 1970, at 6:30 p.m. at the L & L Motor Hotel. The meeting will be held at the L & L Motor Hotel. The meeting will be held in the Kiva Room. The conference will be held in the Kiva Room. The conference will be held in the Kiva Room. The conference will be held in the Kiva Room.

According to Haas, there are over 50,000 dairy farms in Michigan, with over 4,600 million pounds of milk produced. The average milk per cow is 10,030 pounds, which is a little less than three years ago.

Farmers see the light

U.S. farms used an all-time record in the 1970s to meet the nation's milk needs, according to the U.S. Department of Agriculture. The average milk per cow is 10,030 pounds, which is a little less than three years ago.

Miss Michigan promotes jobs

in agriculture

The 1970 Farmers'Week program at Michigan State University will focus on increasing the number of women in agriculture. Miss Michigan will be the featured speaker.

How AMIBEN is today's No. 1 soybean herbicide

Because it gives you, in your choice of liquid concentrate or granules, the broadest range weed and grass control on the market.

Other soybean herbicides are essentially grass killers. AMIBEN's prematurity weedkiller not only controls a full range of grasses but also, as a bonus, controls a full range of broadleaf weeds. In fact, AMIBEN controls more grassy weeds and more broadleaf weeds than any competitive chemical you can buy.

Amiben gives you these advantages with safety to your crop (even in wet weather), safety to adjacent crops and to crops you plant on the same ground. In fact, Amiben is the best way to protect your soybean crop. Amiben is the best way to protect your soybean crop.

Why AMIBEN is today's No. 1 soybean herbicide

State leads in labeling for pesticides, fertilizers

The Michigan Department of Agriculture has been leading the nation in efforts to label pesticides and fertilizers properly. These labels provide important information about the use of these products, which can help prevent accidents and reduce waste. The labels also include information about the potential hazards of these products and how to use them safely.

Short course alumni to meet at MSU today

The more than 20,000 graduates of the short course program at Michigan State University are being invited to attend a reunion on the campus of Michigan State University to celebrate their achievements and to reconnect with old friends.

Tax regulations explained by Haas

Most farmers do not have to file annual or quarterly reports. E. Carl Haas, County Economist, says that farmers are not required to file any reports if they are not required to file reports in their state. If they are required to file reports in their state, they do not have to file in their county. If they are required to file reports in their county, they do not have to file in their municipality. Many farmers have wondered whether or not they should file in the county or the state, or both. It is best to check with your local extension agent to ensure that you are following all the necessary requirements.

One antibiotic isn’t enough for hogs

The typical hog carryover is not enhanced if it is given on a fixed-date schedule. Research conducted at Michigan State University, conducted by E. Carl Haas, County Economist, showed that a combination of antibiotics has a greater impact on the growth of hogs.

Milky ways

From 1930 to 1968, the number of milking cows in the United States increased from 1 million to 5 million. Today, there are 10 million milking cows in the United States.

Yellow leaf blight is a major problem in cereal crops

Phytophthora may not mean more to some farmers but will be to many others as — yellow leaf blight — and they know that it is a real pest.

Corn crop threatened by yellow leaf blight

Yellow leaf blight is caused by a fungus that can reduce yields of corn up to 80 percent. It is a disease that is difficult to control and can be very devastating to corn crops.

State officials explain the dangers of pest management

State officials are reminding farmers and ranchers of the importance of pest management. They are recommending that farmers follow the guidelines provided by the Department of Agriculture and the Environmental Protection Agency to protect the environment and the health of their animals.

Back Through the Years

'

Millage supported

Next Tuesday, for the fifth time in less than four years, residents of St. Johns will be asked to support a proposal designed to stabilize the county's road structure. We encourage endorsement of that proposal.

For too long the city has been burdened by an ever-lightening budget on one hand yet an increasing demand from citizens for services and facilities on the other. There can be no doubt that the road base is either without a more realistic revenue base.

The millage proposal, if accepted, will still leave St. Johns behind the levels of operating millages in most other cities of comparable size. The request for the additional five mills is one that is not only reasonable but also conservative.

Gutless results

Reflecting on the turmoil present in our society today we find it difficult to not see of deep loss of self discipline. Throughout history there are graphic examples of social and political successes and failures in direct relation to the degree of self discipline of people.

Carswell's nomination for the

gutless results

Next Tuesday, for the fifth time in less than four years, residents of St. Johns will be asked to support a proposal designed to stabilize the county's road structure. We encourage endorsement of that proposal.

For too long the city has been burdened by an ever-lightening budget on one hand yet an increasing demand from citizens for services and facilities on the other. There can be no doubt that the road base is either without a more realistic revenue base.

The millage proposal, if accepted, will still leave St. Johns behind the levels of operating millages in most other cities of comparable size. The request for the additional five mills is one that is not only reasonable but also conservative.

Gutless results

Reflecting on the turmoil present in our society today we find it difficult to not see of deep loss of self discipline. Throughout history there are graphic examples of social and political successes and failures in direct relation to the degree of self discipline of people.

It has always been held by me that the most effective church structures are those that do not separate the hearer from the speaker, and that the acoustics are adequate and that the lighting is good. This is a natural for a nut sanctuary of the kind of faith you describe. I would not recommend any speaker to attempt this sort of thing. Too much is being asked of the speaker, and too little is being asked of the audience. The audience should be involved, not just passively listening.
