That in itself says a lot about the people in our mortgage department...and that's where it really counts. That's where the mortgage is held, on the paper, and designed to each customer's specific situations.

Social Security benefits to increase in 2 stages

Judy C. Stevenson, a member of DeWitt's 100-year old Clinton County Rotary Club, announced that the Olivet Rotary Club plan on sponsoring another travel and sightseeing tour to Europe.

The trip will consist of two shows, one at 7 and another at 9 p.m., on Friday and Saturday, April 5, 6, and 7. The trip will include the ancient city of Rome, the Colosseum, the Spanish Steps, the Pantheon, and other major sights.

Members of the club have been working on this project for several years. During the last few months, they have been preparing for the trip, which includes visits to important historical sites such as the Vatican and the Sistine Chapel.

A tax return, according to Roger A. Carson, district manager in Lansing, will automatically be increased by 3 percent for most social security recipients. This increase will be added to checks delivered in April, and it will become effective beginning in July.

"The increase will enhance the financial security of most people who depend on social security payments," said Carson. "The overall increase will be added to checks delivered in July, and it will become effective beginning in July.

Additional housing for the Clinton County Community Country Club, which has been under development for the past few years, will be completed in the next few months. The club's current clubhouse will be expanded, and a new building will be constructed to accommodate the increased membership.

The members of the club have been working diligently on this project, which includes the construction of a new parking lot, a new driving range, and a new golf course. The club's current facilities will be completely destroyed by a fire, and the members have needed more space and facilities for some time.

Members of the club have been working on this project for several years, and they have made great strides in the past few months. The club's new clubhouse has received two design proposals, one for a modern building and another for a more traditional design. The members have decided to go with the modern building, which includes a state-of-the-art golf course and a new driving range.

The overall increase will be added to checks delivered in July, and it will become effective beginning in July. The members of the club are confident that the increase will enhance the financial security of most people who depend on social security payments.

TO THE EDITOR

Dear Editor:

On behalf of the Dr Stoller Memorial Fund, I would like to say congratulations to the Southwest Health Unit's school health workers for their outstanding effort that they put forth this past year. In March 1973, the girls here did a wonderful job and I believe I can say that knowing Dr Stoller would be most proud of the work done with the class of 1974 on their successful Memorial Fund. I would like to take this opportunity to say congratulations to the class for their hard work and dedication to the plan.

Many thanks to Mrs Griffith who has made it a success.

DEWITT - In an otherwise quiet meeting, the most recent Dewitt City Council meeting was highlighted by a debate over the City's bank balance. Councilman John McKeon brought up concerns over the city's financial situation, stating, "We need to stop by the bank and see how much money we've got in the bank." He continued, "If we don't, we could end up in a financial mess." The council agreed to review financial statements and plan a special meeting to discuss the matter further.

Where Your Farm Comes First

Farm Bureau NEWS

The President’s Column

by Fran Motz

Activities in County Farm Bureau were fairly busy last year. It will have to be said again this year, I think the weather was better and nature took its course, and this year is looking good. The weather during Farm Bureau was ideal, and it is very task advantage if it need to see the different possibilities for making hay and harvesting crops.

Your County Board and local committees have had a great time, with the legislation held in Lansing and Washington, and told me of their needs here. The local committees have had a great time, with the weather being so good, some of them went to the legislators and the farmers in the area. It looks like your local committee is doing a great job.

View from the Senate

BY BILL MILLER, JHON KELLER

You can't hear much about the state of the nation's health care system, though you hear a lot about HMOs.

The problem is not so much the health care system as the way it's structured. There is a need for comprehensive health care reform. It's not just a matter of providing better health care, but also of managing it more effectively. The HMOs, with their prepaid plans and emphasis on preventive care, offer a promising model for health care delivery.

In conclusion, we must continue to work towards a health care system that is accessible, affordable, and adequate for all Americans. The HMOs provide a good example of what can be achieved in this regard.
