"Stand Up On Your Feet" at the annual Jaycees meeting of the Muskegon chapter will be held at the Smith Hall, beginning at 1 p.m. on Thursday, April 21 in the St. John's High School auditorium. The meet will be sponsored by the St. John's Jaycee Auxiliary, Women's Auxiliary and St. John's High School. The purpose of the meeting is to bring the situation to the proper authorities and parents; if you should come across your child in a room where there is a smoke detector, please call the police and report to your child's school.

I will be conducting a meeting of the St. John's Jaycee Auxiliary and the Women's Auxiliary to discuss this important issue. All adults are welcome to attend.

Band Boosters schedule smorgasbord April 27

For the first time in the history of the school, the Band Boosters are sponsoring a smorgasbord dinner April 27 in the Smith Hall. The event is open to all members of the school community.

The Band Boosters have been planning this event for several weeks and have worked diligently to ensure its success. The menu includes a variety of meat dishes, including roast beef, pork roast, and ham. The prices range from $5 to $10 per person and include sides such as vegetables, potatoes, and bread.

The proceeds from this event will go towards funding the band program. The Band Boosters hope to raise enough money to purchase new instruments, repair damaged ones, and support the band's travel expenses.

Tickets can be purchased at the door or in advance by contacting the band director, Mr. John Smith. We encourage everyone to attend and support this event.

The use of measurement services to ensure accurate and consistent values is crucial, especially in the competitive world of sports. These services not only help in identifying the true performance of the athletes but also contribute to the overall experience of the spectators and the media. Accuracy in the official measurement of all sports figures, such as scores, times, and distances, is paramount for maintaining the integrity of the events. It is essential to have a clear understanding of the rules and regulations governing the measurement of sports figures, and the choice of measurement services can significantly impact the outcomes of the events. Therefore, it is crucial to select reputable and reliable measurement services to ensure the fairness and accuracy of the results.

From VAN N. VOUGEY

Dear friends,

Like the others, precious, Roman Catholic, Lutheran, Congregational, Unitarian, and others, the Church is a family. It is the family of the world. The Church is not an organization. It is a family. It is a loving family. It is a family of love. It is a family of hope. It is a family of peace.

"Doing Time" in the Oven?

Do you have a self-cleaning oven? If so, you may want to turn the oven "on." Close the oven door, set a couple of controls and turn the oven "on." You'll be "pardoned"—electrically! No need for scrubbing or washing. The oven will do all the cleaning for you. It's a great time saver and a lot easier on your muscles. So why not give your oven a try?

SPRING ALONG THE MAPLE RIVER

There hasn't been any early evidence of warm weather in Clinton County this winter, but the streams and rivers through the county are running full and some cattails sprouting out of their banks. Flooded woods and crop lands. The Clinton County News painter of Sandy Tarttachnau caught this scenic look at the overflowing Maple River near Holbrook.
