Board hears protests over planned rock fest in DeWitt Twp May 18

By LINDA MEYER

An angry crowd of 150 DeWitt Township residents filled the Clinton County Board of Commissioners chamber Monday morning to protest a proposed rock concert at the future site of the DeWitt Community Hospital.

The concert is planned for the site of the proposed hospital, which is set to begin construction in late 1974.

The crowd of residents, who lined the walls of the chamber and overflowed into the hallway, told county officials they were opposed to the concert and expressed their concerns about the noise and potential damage to the site.

County officials, including County Administrator Ralph Grattarola, said they would consider the residents' concerns and make a decision about the planned concert.

But the crowd of residents had just one message: they didn't want the concert.

"We live within walking distance of the proposed hospital site," said one resident. "We don't want noise or traffic or any of the problems that come with a rock concert."

Another resident said, "We don't want to see our community turned into a music festival."

The residents voiced their concerns, demanding that the county officials find an alternative solution.

"We want a solution that won't affect our quality of life," said one resident. "We don't want to see our community become a rock festival."

The residents' concerns were echoed by several members of the community, who said they didn't want the concert to take place on the site of the proposed hospital.

"We don't want to see our community turned into a music festival," said another resident. "We don't want to see our hospital site become a place for rock concerts."

The residents' concerns were met with a promise from County Administrator Ralph Grattarola to consider their concerns and make a decision about the proposed concert.

"We will consider the residents' concerns and make a decision about the proposed concert," said Grattarola. "We will make sure that the proposed concert doesn't affect our community."

The residents were hopeful that their concerns would be heard and that the proposed concert would be cancelled.

"We hope that the county officials will listen to our concerns and make the right decision," said one resident. "We don't want to see our community turned into a music festival."

Band shell efforts: "nostalgic" project a plus for St Johns

Recent efforts to restore the St Johns Band Shell and to make it an integral part of the spring and summer season should be appreciated by all of us in the community.

If the band shell is considered "nostalgic," it is certainly a positive bit of nostalgia, from which St Johns can derive hours of warm weather enjoyment and community "togetherness."

Although the weatherman was an "urge" for Sunday's opening of activities, raining out the "season opener," we're certain in warm weather enjoyment and community "togetherness."

The next chore is to eliminate all activities, raining out the "season opener," we're certain in warm weather enjoyment and community "togetherness."

Then 6:30 and time to watch national news. Too minute, however. Wife says there isn't cloud in screens, so fix faucet. No washers. Tigers are mowing lawn, washing car, fixing faucet, in- talen off chore list.

Two more things needed to be done before the 6-6:30 function may be held to 3-3:30. Failure to perform these tasks means the guests will be trigger yourself. Did John Wayne conquer Iwo Jima by parcel post?

Senators' careers by not seeking re-election. However, some other legislation is expected to be presented in the Senate, which is due to begin on January 15th.

Michigan State Senator Charles Adams (1st District) is reported to be seeking re-election for the Senate. He was elected to the Senate in 1968 and has served two terms.

The Senate chamber's new location was recently announced by the Senate. The chamber is expected to begin its new session on January 15th.

Senators' careers by not seeking re-election. This area has been of interest to many voters, especially the Democrats. However, some other legislation is expected to be presented in the Senate, which is due to begin on January 15th.

New farm law protects prices

May 9, 1974 CLINTON COUNTY NEWS, ST JOHNS, MICHIGAN

Under the Agriculture and Consumer Protection Act of 1973, participants are eligible for payments if the average feed grains fall below the target levels that a farmer's feed grain allotments must accommodate for payments if the average market price drops below the target level. The price of wool has risen with decreasing supplies. The request was made by Dorn Diehl, state executive director of the Michigan State ASCS offices as soon as possible.
