Voters in school districts go to polls Monday

ST. JOHNS—Candidates for school districts are soliciting votes.

ST. JOHNS—The Annual Little League Opening Day game will be held Friday, at the Apple Wagon.

DeWitt township officials held a pre-meeting going to the St. Johns Little League Program.

Hannah files for re-election

ST. JOHNS—John Hannah, St. Johns City Commissioner, has announced his intention to run for re-election in the Fall.

If there were two candidates for the Post, the second would be elected by the board.

It is a continuing process to run for the re-election of the board of education.

"After considering the town and the operation of the school district, I have decided to run for re-election," Hannah said.

DeWitt Township eyes tax increase

At county commissioners meeting, a tax increase of at least one-half mill was considered.

"We have a lot of reek in the county, and the board of education is looking to increase the tax revenue," Hannah said.

If approved, the increase will be the first tax increase in the area in over 10 years.

TCRPC map details recreational facilities in Clinton, Ingham, Eaton.

Would you like to add a new park for an outing, or a canoe trail for a weekend of paddling? The Clinton County 4-H Spring Conference will provide the information you need.

The 1975 4-H Spring Conference, a two-week conference held April 27 to May 9, is one of the most popular 4-H conferences in the state. The conference will be held at the Michigan 4-H Conference Facility, operated by the Michigan 4-H Foundation, in the City of Lansing, midway between Lansing, East Lansing, and Michigan State University.

The conference is designed to bring 4-H members together for a week of learning, sharing, and fun. Each day is filled with educational sessions, outdoor activities, and social events. The conference concludes with a special program on Saturday evening.

Win $100 A DAY FOR A FULL YEAR!

A Green Game Lottery Player? Here's a chance at $100 a Day for a Full Year. The Michigan 4-H Foundation is offering this special promotion to encourage outdoor recreational activities.

Here's how it works: Beginning June 3, anyone can buy a ticket for the $100 a Day for a Full Year promotion. The promotion will run for two weeks, ending June 17.

The Michigan 4-H Foundation will be drawing one winner each day for a total of 30 winners. The winner will receive $100 a day for a full year, or a total of $36,600.

Tickets will be available at local 4-H clubs, Michigan 4-H Foundation offices, and other participating organizations.

Winners will be announced each day on Michigan 4-H Foundation's TV station, WTVG, Channel 3.

This promotion is open to all residents of Michigan over the age of 18. To enter, purchase a ticket and mail it to the Michigan 4-H Foundation, 965 East Michigan Avenue, Lansing, Michigan 48926.

The Michigan 4-H Foundation is an equal opportunity employer and educational institution.

Elect Aylsworth head of 4-H Youth Staff group

John Aylsworth, 23, is the new director of 4-H Youth Development for the Tri-County Regional Planning Commission. John replaces Almond B. Cressman, Tri-County chairman, who has been named state director of 4-H Youth Development.

The election took place at the 1975 4-H Spring Conference held April 27 to May 9 at the Michigan 4-H Conference Facility in Lansing. The election was conducted by ballot, with the votes cast at the conference.

Aylsworth is a 1965 graduate of Michigan State University with a degree in education. He has been active in state 4-H youth development for several years, serving as the youth leader for the Tri-County Regional Planning Commission.

He is a member of the 4-H National Council and has been involved in various state and national 4-H youth development activities.

Aylsworth has been a 4-H youth development specialist for the past three years.

The Michigan 4-H Foundation will be providing renewable energy with the proceeds from this promotion.

We're proud of our new generation of Graduates.

but where will they be tomorrow?

Right now, it's graduation time, time for celebrations, for parties and for gifts...but tomorrow—after all the honors have been bestowed, our grads will be looking to the future. Some will choose to continue their education, others will enter the business careers. All of us have a definite interest in the future of these young people, and we'll all benefit if graduates find opportunities here. We invite you to join in our efforts to make our community a good place to live, a good place to shop, a good place to work.

Wayne Fedewa--designer
of Swegles St. home

Looking for a house to make a
home? St. Johns High School’s
building trades program has
given the interested buyer a
good start with a well-integrated custom type model
bursting with outstanding
features. Designed by Wayne Fedewa,
the 3-bedroom ranch at 1204 S.
Swegles makes the most of its
1,735 square feet of living space.
Situated on a lot 100 feet by
126.75 feet within the city limits,
the house has a virtually
maintenance-free exterior of
stone, brick and white
aluminum. A sliding door in the
dining room opens to a 10 by 12-
foot patio.

Inside features include a
sunken family room with stone
fireplace, 2½ baths, full
basement, finished utility room
and storm shelter under a
reinforced concrete porch. The
2-car garage features swirlplastered walls and is pre-wired
for an optional door opener.
An extra block brings the
basement headroom to a 12-
block height. Doors throughout
the home are 6-panel pine doors.
Closets feature bifold doors.
Wiring is to a 200 amp service
panel with ground-fault
protection.

Heating is by gas forced air
with a power humidifier. The
buyer who finds summer
temperatures too warm may
place, at his option, an air
conditioning unit on the fur-
nace.

The home is TV wired and
features several phone jacks in
key rooms. Fully carpeted, the
house is well insulated with 6
inches in the ceiling and 3½
inches in the sidewalks.

Decor is modern and was
coordinated by the home
management classes of Mrs.
Grace Ormston.

The house was built under the
supervision of instructor Robert
Niemi. Inquiries as to purchase
may be directed to Vocational
Director Ken Lashaway at St.
Johns High School.

We are pleased to have furnished the
carpeting and floor coverings for these

"A JOB
WELL DONE"

In this day and age when the need to bring knowledge to our young people is so important, we, the senior members of the community, owe a debt of gratitude for the many hours expended by Ken Lashaway, Bob Niemi and Dan Koenigsknecht in making the vocational department's building projects a reality. We owe thanks, too, to the many local people who served on the Advisory Committee and the school boards of St. Johns and Ovid-Elsie area schools for their far-sightedness.

It pleases us here at the bank, to say, "Well Done!" We urge everyone in the community to visit the homes that the high school students of our area built with their own hands. We also are pleased to publicly acknowledge the splendid efforts of anyone else who made the projects the success they have been.

County view enhances pleasures of the home on Harmon Road

A sense of local history, a pastoral country view and plenty of fresh air are side benefits of owning the house at 3790 North Harmon Road.

The house, located just south of the old Rochester Colony area at Duplain, is enhanced by a 150 by 290-foot treed lot on a country knoll.

Trees and a rolling lot offer scenic beauty at Harmon Road House.

The 3-bedroom all-electric ranch sports 1,750 square feet of living space within the confines of a 68-foot length. The south 'end of the home measures 28 feet and opens from a walk-out basement patio door onto a red block and redwood patio. The home. Exterior upkeep is easy, thanks to all brick and aluminum surfaces. Outside lighting includes 4 floodlights each in front and rear, with 2 floods at the north end garage entrance.

Indoors the dining room-family room combination features 2 sliding glass doors, and a brick fireplace. On each side of the fireplace are adjustable book shelves.

The fully carpeted home contains 2 baths. Utility work is easily accommodated by the spacious basement, and the busy housewife will not have to worry about plumbing backups - the house has a pair of 800 gallon septic tanks connected in series.

Heating is by forced air with a power humidifier; the new owner may add air conditioning at his convenience.

Swirl plastered ceilings and plastered garage ceiling and walls add class to the spacious.

A house is born—it all starts on the drafting table.

Wayne Fedewa works on Building Trades house plan design.

A house is born: Students in the drafting and design classes of Terry Adams at St. Johns High School each submitted a floor plan for consideration by the advisory committee to the building trades program.

The committee selected designs appropriate to the home lots in 3 Clinton County locations and suited to the goals of the program.

The floor plans were returned to their designers. Those chosen for the 3 building projects for 1975 went back to the drawing boards to add exterior and interior designs and details to the basic floor plans. Design of the home became virtually the sole responsibility of the draftsman whose floor plan was selected. He worked under the oversight of the instructor and incorporated zoning requirements into his plans.

Blueprints of the final drawing were reproduced at St. Johns High School and sent to the instructors whose building trades classes would construct the homes. Electronics and electrical trades students went to work on carrying out that phase of the construction. Homes furnishing and management classes planned the interior decorating.

Ground was broken in September, with work proceeding on each site throughout the school year, culminating in a finished product for open house in June.

And it all began in the mind's eye of Wayne Fedewa (Swegles Street), Russ Waggoner (Ovid-Elsie-Fowler) and Bill Bailey (Pewamo-Westphalia), all St. Johns High students who had a better idea.

Congratulations...

Harmon home dining area has "family" atmosphere

Dining in any mood for any occasion is possible in the Harmon Road home.

The 11 by 14 foot dining area is at the far end of a 14 by 21 foot family room, lending itself to complete versatility.

Diners may choose an elegant format for the evening, eating at leisure under the chandelier type hanging lamp controlled by 6 separate switches.

Or an informal night of cheer with a roaring fire in the family room fireplace may be the order of the day. The brick fireplace is flanked by built-in bookcases and may lure the satisfied diners for a quiet after-dinner session in a favorite book.

The summer months are super in the country, and the dining-family room area opens via 2 full sliding thermo glass doors to the huge back lawn. Entertainment is easy with the aid of a door from the dining room adjacent to the kitchen. And the 6-foot family room glass more than amply allows for the host's favorite stereo music to waft out into the backyard.

The family room also contains a built-in TV outlet jack from the motor-controlled color antenna and is wired with a phone jack as well.

Kitchen offers beauty and easy cleaning

Cross ventilation from the front door to the east-side kitchen window is one good thing about the Harmon Road home. But air has nothing to do with another big benefit - Formica. The famous counter covering is lavished on 130 square feet of the kitchen - in Leathergreen motif on both counters and walls.

So the homemaker who has a lot on her mind can get that kitchen looking just green in seconds of easy-off wiping with a damp cloth. She can put the dishes into a built-in sound-insulated dishwasher, throw garbage into a quick-grind disposal and put a casserole into the built-in range for a convenient supper.

That will take a lot off her mind right there. And she can exit the cheerful kitchen through swinging cafe doors and get to the next thing that's on her mind.

Finishing touches go on the Harmon Road house kitchen.

We salute the Clinton Area Building Trades Program on a splendid building achievement on their homes in St. Johns & Ovid-Elsie.

Kitchen-dining area in Swegles home is combination of efficiency and comfort

One of the most striking areas of the house at 1204 S. Swegles is the kitchen-dining room combination. It is designed for functional convenience, but the home's new owners will get the bonus of warmth, beauty and dimension that lifts it out of the ordinary.

The kitchen, 14 feet, 5 inches by 16 feet, features a built-in sound insulated dishwasher and garbage disposal along with cupboards space enough to take care of any storage needs. The Kemper cabinets are in the Oakbrook style with dark all-wood facing.

But the highlight is in the island that contains a drop-in range with push button controls under a large suspended gourmet ventilation hood. The hood is solid-state controlled. The counters surrounding the range are covered with Formica and form a snack bar combination or spacious cooking work area.

The kitchen is well lit with eyespots in the hood and overhead, while the connected dining area is given light by a hanging fixture and full sliding door opening to the 16 by 12-foot patio.

Decor is warm, with dark wood, richly patterned red vinyl wallpaper, and golden colors in carpeting and appliances.

Lush family room highlights home on Swegles St. in St. Johns

There's all the room a family needs in the spacious family room of the home at 1204 S. Swegles—it measures 15 feet, 2 inches wide by 21 feet, 5 inches long and is full of special features.

The sunken room is fully carpeted with a lush red and white pile and is accented at the far wall by a large, Indiana field stone fireplace flanked by adjustable built-in bookshelves. Two eyeball spotlights in the beamed ceiling help to set the right mood around the fireplace. Natural light floods in from the west through 3 wide Andersen welded windows.

The television buff can pick his corner and hook up to the antenna with one of two TV outlet jacks in the room. And for proximity to a phone, the family need only plug into one of several telephone jacks installed in the room.

Comfort, space and flexibility make the family room one of the most livable areas in the home.

CLINTON AREA BUILDING TRADES PROGRAM

The Building Trades Programs in the Clinton
Area schools has provided an opportunity for
young people to receive first-hand experience in the
construction of three houses and we support the
instructors and students in the program-by en­
couraging attendance at their Open Houses. The
interest and desire to accomplish is evidenced
through the coordination of schedules of the stu­

"If It Fits..."

Mickey's fans strike back

"by Jim Fitzgerald"

"If It Fits..." is a column written by Jim Fitzgerald, published in the Clinton County News of Michigan. This particular column discusses the intersection of sports and entertainment with a focus on events like the Indianapolis 500 race. It mentions the idea of putting a ball into a hole by whacking or falling off a mountain, and by extension, going skiing. It also references Scrooge, Dillinger, and Baby Face Nelson as examples of people who might engage in such activities, and mentions Louie Leper T-shirts for the 20% who might have them.

The column addresses the idea that sports and entertainment are often described in terms of reaching the top of a mountain, and it questions the need for such an approach. It suggests that these activities could be enjoyed more naturally, without the pressure to achieve a specific goal. "We anticipate not being able to fund the state's three-year re-education bill without tax increases," commented Ovid-Elsie education superintendent Merle Green.

"That means our basic budget will be increased by 35 mills, as is now being discussed by the state legislature," added Ovid-Elsie supervisor Earl Winkler.

"There is no guarantee that the state will pass the re-education bill," stated Winkler, who added that the school board would add the 35 mills to the school levy if the re-education bill is defeated by the state legislature.

"In the meantime, we are looking into the possibility of increasing the school levy by just two mills, in order to better position the schools for the 1975-76 school year," Winkler continued.

"We anticipate not being fully able to fund the state's three-year re-education bill without tax increases," said Winkler, who added that the school board would add the 2 mills to the school levy if the re-education bill is defeated by the state legislature.

"We're basing our estimated costs on the assumption that the state will pass the re-education bill," Winkler continued.

Chloe's Column
Parents, pre-schoolers, mealtimes... problems

Clinton County Home Economist Chloe Pogdin

One of the most frequently heard complaints by parents is that children eat so poorly. Just as many parents are frustrated with the behavior of children, so are many children frustrated with the parents. One of the main reasons for this frustration is that the mealtime is hard on both parent and child. How can we make mealtime a happy family time and also ensure that the children are getting what their bodies require to grow and develop?
