FEW CONTESTS FOR TOWNSHIP PRIMARIES
Two county families are hosts of English visitors

ST. JOHNS -- Two Clinton County farm families are host to 2 Englishmen, gaining practical farm experience in England while earning credit at Michigan State University.

The families are the Dowles of 11530 US 27, DeWitt, and the Hawkins family of 600 acres of wheat and barley near the new St Johns Animal Clinic.

The Hawkins' family farms about 600 acres in wheat and barley with about 400 acres in soybeans. Neil Dowlel, 19, is staying with the Hawkins family. He is a 1971 graduate of Michigan State University.

Gaining farm experience with the Hawkins family is 15-year-old Robert Malesky, from Clinton County. Robert said his family also hosted 2 English families last year and they are looking for a new family to host.

Robert Malesky opens new veterinary clinic

ST. JOHNS ANIMAL CLINIC

E. W. Dowlel, owner of the DeWitt farm, and his wife, the former Nellar, state VICA treasurer for the Federal Clubs of America and 1 national voting delegate, and Robert Malesky, a Clinton County student, opened the new St Johns Animal Clinic.

Although both families live near the border, it is called corn in England. What is referred to as wheat in the United States is known as barley in England, although both crops are harvested the same way.

Nellar said about 180,000 students from 44 states are participating with student activities and national conferences. The difference between the 2 countries lies in many of the occupations and crops that are harvested.

They all agree...

Good old days?

In this era of nostalgia, The Great Gatsby and "the good old days," Paul McManus, Clinton Memorial Hospital administrator, supplies us with the following that points out that things aren't all bad today.

The 3 items below are requirements of a floor nurse in an 1887 hospital.

1. Daily sweep and mop the floors of your ward, dust the patient's furniture and window sills.
2. Maintain an even temperature in your ward by bringing in a scuttle of coal for the day's business.
3. Light is important to observe the patient's condition.

Therefore, each day till lanyard lamps, clean chimneys, and trim wicks. Wash the windows once a week.

4. The nurse's notes are important in adding the physician's work. Make your pens carefully, you may whittle nibs to your individual taste.
5. Each nurse on duty will report every day at 7 am and leave at 8 pm, except on the Sabbath on which day you will be off from 12 noon to 2 pm.
6. Graduate nurses in good standing with the Director of Nurses will be given an evening off each week if you go regularly to church.
7. Each nurse should lay aside from each pay day a goodly sum of her earnings for her benefits during her declining years, so that these regulations may be carried out to the letter of her wishes.

The problem of finding a place to wash your hands and clothes will exist, but the nurse's duties are to be done at any cost. The Assistant Director of Nurses will be available to help.

W. A. Arnott was chief of the Sanitary Section and was very strict about the hospital being maintained to the letter of the regulations.

A nurse who was dead from a drug overdose in the hospital is no longer employed by the hospital.

In 1887, nurses were given an increase by the hospital administration of $10 per month to maintain a steady level of motivation.

The people of this community are especially grateful to the hospital and its staff for their hard work and dedication to maintaining a high standard of care.

The Lansing social security office is at 838 Louisa Street.

The President's Column

By Fran Mota

The regular monthly meeting of your County Board of Directors was held June 21 and was well attended with a good representation of the members in attendance. The business meeting was held at the Farm Bureau Building in the fall of 1972. At that time, the membership included many new members, including myself. It was the first time I had attended a meeting of the county and many newcomers were present.

At the July 21st meeting, the following matters were discussed:

- The importance of preserving the farmlands and open spaces for future generations
- The need for better road and transportation infrastructure
- The role of the Farm Bureau in promoting agriculture and rural development

In closing, I want to express my appreciation to all members for their continued support and dedication to the Farm Bureau. Together, we can make a difference and ensure a bright future for our rural communities.

Thousands of old ladies are to be found lounging in turnstiles at the gates of the White House. They have passed from the stage of life, but not from the stage of politics. They are the old ladies who will never be forgotten, because they have never been forgotten. They are the old ladies who have always been there, to remind us of the things that we must remember.

Our big winner was the six-cylinder Dodge Dart Sport which got 27.3 mpg. That was better gas mileage than any other car in the test. The Dodge Dart Sport with 318 V8 got 21.7 mpg. Again, this was better gas mileage than any other car in the test.
