The bride wore a sleeveless blue floor-length train. She carried a bouquet of baby's breath and flowers fashioned into a nosegay. The mother of the bride, was married 50 years earlier. Philadelphia evokes proper emotions

Philadelphia is made in order for sentiment, and Philadelphia is the perfect place for the "Liberty Bell" to be located. For, it is true that the historical and cultural events that occurred in Philadelphia have left their mark on the city and its surroundings. For example, the Liberty Bell is an iconic symbol of American independence and the birth of a nation. It is a reminder of the struggles and sacrifices made by the Founding Fathers of the United States. Therefore, the Liberty Bell is a symbol of the American spirit and the ideals of liberty that are still relevant today.

The Liberty Bell is a perfect example of the proper emotions that Philadelphia evokes. It is a place of historical significance that has been preserved for future generations to learn from and be inspired by. It is a symbol of the American dream and the values that have shaped our nation.

The Liberty Bell is not just a piece of history, but a living reminder of the struggles and sacrifices made by the Founding Fathers of the United States. It is a reminder of the importance of freedom and the need to continue to fight for it. Therefore, Philadelphia evokes proper emotions that are relevant and meaningful to this day.

Recreation Round-up
With Dick Buggs
St. Johns City Recreation Director

Despite continued rainy weather and soggy softball diamond, it was a great week for recreational activity. The following is a tidbit of the week’s events:

**CHILDREN’S RECREATION**

Coloring books and clowns quickly replaced our outside activities until and cold Wednesday. The town square was empty but for boys tossing the frisbee across the court. The five-year-old boys were having a good time for long they can. On Thursday, the kids finally allowed me to play hide-and-seek behind the school and in the bush. We had approximately forty-five kids, our group getting much bigger each day. We are working on a new program of recreational fun in our county which will open to the ages of children. On Thursday, the sun finally shined and we played "jungle pom-pom poHaway," "spud," treasure hunt on cold and rainy Wednesday. The brave seven participated in the session myself, I can say that it was a lot of fun. We have now concluded our first session of tennis instruction, approximately twenty people participated and according to Bob Halmo, instructor, there was much paper in and out of the spokes now, without tearing it or anything. The league games are becoming more and more exciting, and everyone is looking forward to the next week. We have scheduled half of the games scheduled for the week but here are the events:

- **MEN’S LEAGUE**
  - Week 2
  - Fri., Sat., Sun.

- **WOMEN’S LEAGUE**
  - Week 2
  - Fri., Sat., Sun.

**VIDEOS**

**FILM SOFTBALL**

We've had a number of people call regarding the videos. All the films will be reviewed and selected to be included in the next film series. We appreciate those who have passed their ideas on to us.

**ADVERTISING**

There’s a certain person who usually makes his video about the point but we had players. If you see between the ages of 18 and 25, please contact me. We are still looking for new talent.

Children’s hobby club, Better Club met this week, tea party, junior basketball meeting and more.

MOST STORES OPEN 24 HOURS FOR YOUR SHOPPING CONVENIENCE!
The last time you borrowed money, chances are that all the interest was added on at the beginning of your loan. So, there was little advantage in making payments early or making extra payments.

But now there is.

With a Michigan National Bank Early Bird Loan you can save money on interest. Because only simple interest is computed daily on your unpaid balance. We do not charge interest on the part of your loan that is already paid off.

**Save on early payments, save on extra payments.**

So every time you make a monthly payment several days early, you save several days of interest. Every time you make extra payments, you save additional days of interest. Over the full period of your loan, Early Bird simple interest can mean significant savings over the cost of an ordinary add-on loan.

Let’s say, for example, you take out an ordinary loan for $3,600 for 36 months. At the Annual Percentage Rate of 11.08%, the total finance charge on the loan would be $648.00. Let’s say further that you make an early payment of $250 two months after you take out the loan. You save a mere $2.92 in interest.

Suppose on the other hand, you had taken out an Early Bird Loan for the same amount of money, for the same period of time, at the same interest rate. And you had made the same $250 early payment. With Early Bird simple interest, you would have saved the tidy sum of $88.72.

Pay off your full balance without penalty.

And if you pay off the full balance of your loan early, you save all remaining interest charges without paying any penalty. So, with an Early Bird Loan, our customers can actually control the amount of interest they pay.

Come to Michigan National Bank for an Early Bird Loan. You can use it to help buy a car, remodel your home, pay medical bills or dental bills, college tuition, meet emergency expenses and a wide variety of other worthwhile needs.

The Early Bird Loan from Michigan National Bank. The earlier you pay, the less interest you pay.
