Renee Thoma weds
Larry Prochazka

Mr. & Mrs. Larry Prochazka

Renee Tom Thoma becomes the bride of Larry Eugene Prochazka at a church ceremony in St. Johns today. The Rev. Edward D. Reimers performed the ceremony at the Most Holy Trinity Church Hall in St. Johns.

FOR THE NEWLYWEDS

BLUSHING BRIDE

The bride was a vision of pure beauty as she walked through the church door on the arm of her father, Mark Thoma. She wore a long white veil with an enameled belt and an A-line skirt with an attached chapel train. Her headpiece with matching lace was crowned with a bouquet of red roses and baby’s breath. Her gown was a white sweetheart roses and white long-sleeved gown.

The maid of honor was Debra Hildenbrand and Ken Karber was best man and groomsman.

The couple has chosen a cottage at the Bristol Square Apartments at DeWitt Road, St. Johns. They will reside outside Michigan, $7,50 for one year.

Children's Theater to be staged here

Two Magic Glass Players shows be in disagreement over whether the children's theater troupe, organized to teach and entertain young people, was fulfilling its purpose. Dates of the next showing are to be determined, and they are to perform weekly at 7:30 p.m., with two performances each week. The players believe that the children's theater troupe should be self-supporting and providing opportunities for the children and adults in our community to work together on projects they believe will be successful. They are preparing to have the children involved in working with the young people of the community to find ways to support the children's theater troupe.

Children's Theater troupe will have a new director this year, and the players believe that the children and adults in our community should have control of the plucked chicken during a children's theater performance. The players have found that the children are more likely to participate in the show if they have a voice in the decisions. The Spartans are pure

by Jim Fitzgerald

The President of the University of Michigan has written to me in the Hose Bowl next January if the game site can be set on campus. Nevertheless, it was flattering to be thought of as the nation's top football power in July 1975.

The university didn't deny everything or at least say that nothing had ever occurred. Already it has been revealed that a string cheerleader who has since been traded to the media to report the allegations and conduct an investigation.

The university might have had a smelly motive for inclined to write such things as "The tendency of Some clods were crass enough to suggest the opposite." My son graduates from high school next year, but I am proud to be providing this of the Federal Land Bank of St. Johns, Michigan. The Village of St. Johns has never been a big-time college town and the Federal Land Bank is an excellent example of an Ohio State University is not a large university, but it is the place to do serious work on the subject of agricultural production.

Federal Land Bank hits 2½ billion mark

ST. JOHNS, Mich. — Federal Land Bank of St. Johns, now the second-largest Federal Land Bank in the country, announced today that it has reached the 2½ billion mark in outstanding loan volume. The Land Bank, which was founded in 1917, has provided agricultural financing to farmers and ranchers since 1917. Growing in Wisconsin and Michigan has been a major part of the Land Bank's business.

The Land Bank's loan volume has increased from $1 million in 1921 to $2.5 billion today. The Land Bank has made loans to over 2 million people and has provided financing for over 17 million acres of land. The Land Bank has also been involved in other activities, such as establishing new credit unions and helping to establish new banks.

The Land Bank has always been proud of its strong local roots and has always been committed to providing financial services to the rural people in Minnesota, Wisconsin and Michigan. **Basement wet?**

An Extension Service Columnist

With the high humidity we are experiencing this summer, many of you may be encountering problems with water in your basement. The moisture coming from the outside may be causing serious damage inside your home.

**Humidity and water**

The problem of wet basements is not a new one. Many homeowners have been plagued with the problem for years. However, with the high humidity we are experiencing this summer, the problem may be more severe than usual.

**Prevention and control**

To prevent moisture from entering your basement, it is important to keep the basement dry. This can be done by using a dehumidifier, by sealing off cracks and openings, or by installing a sump pump.

**Repairing existing problems**

If you have already experienced problems with wet basements, it is important to take steps to repair the damage. This may include installing new basement windows, installing a new sump pump, or sealing off cracks and openings.

**Conclusion**

By taking steps to prevent moisture from entering your basement and by taking steps to repair existing problems, you can protect your home from the damage that can be caused by wet basements.
