ANNIVERSARY YEAR

Walt Disney's daughter will be holding a public hearing on Monday at 8 p.m. in the Clinton Theatre, 301 N. Michigan. All interested officials and citizens are invited to attend. Everyone wishing to make constructive suggestions may do so. The meeting is open to the public and will consist of a discussion of the various alternatives in the airport expansion hearing held by Supervisor Dale Emerson and the Township Board. Following the meeting Monday, the public will be invited to submit written comments to Smith & Associates. The comments will be read at a later hearing in July, after which additional meetings will be held.

DeWitt Twp. Board voices highway, airport preference

Planning Commission and the American Transportation Association (ATA) have recommended that the County Board of Commissions, the DeWitt Township Board of Trustees, and the City Airport which would double its size by constructing a new runway for smaller planes. The recommendation would force a greater tax burden on the extending it further into Clinton County..

The ultimate airport expansion

Alternate plans proposed by Wilbur Smith & Associates call for expanding Capitivity Airport, the Township Board, County Board, and the City Airport, to study whether or not and how Capitol City & County are willing to accept the first 20 miles of airport development, the remaining 50 miles of airport development, or the entire airport project. However, the agreement ends there and a conflict arises over a new 7,400 foot runway for smaller planes.}

Is a manager needed in DeWitt?

The sign at the city limits of DeWitt says, "Welcome to historic DeWitt-the small town with a big heart." A resident of DeWitt said, somewhat tongue in cheek, that it should be changed to "Welcome to historic DeWitt-the small town with a big problem."

A bit of anecdotal humor, to be sure. DeWitt does have problems, just as any governmental unit suffers. That's why there are elected and appointed bodies of government to deal with the problems.

We wonder, however, how efficiently the City of DeWitt can continue to solve their problems utilizing the Council-Mayor form of government. We don't feel such a system offers the city a "boom." He's the guy who has his hands on the day-to-day operation of the city and is responsible for making decisions throughout the day and week, two numbers of the council or mayor are not able to do-they hold full-time jobs.

We realize the city has persisted in the past in going to the city manager form of government. At this time, however, we wonder if the city might have averted past and present situations if a full-time professional manager had been at the helm to plan on top of things.

We are not to criticize present and past members of the City Council. We are simply wondering if a full-time manager would not be more efficient in conducting the affairs of the city, these days so closely tied with state and federal regulations, agencies and bureaus.

Running a small town today is no small job. We feel hiring a city manager or city administrator (regardless of the title given) is something worth looking into by the City of DeWitt.

June 17, 1978 - The city-wide picnic at St. John's Park, 264' of road frontage was held at the picnic area.

St. John's City Park was attended by the senior citizens of DeWitt. They enjoyed a day of fun and fellowship in the beautiful park setting.

This great protective urge of government is getting to be the factor from the State Tax Department. This week, the State Tax Department announced the release of the first annual report on the state's tax revenue. The report shows that the state's tax revenue is down significantly compared to last year.

This trend is concerning for state and local governments, who rely heavily on tax revenue to fund essential services. The state is considering various options to address this revenue shortfall, including potential tax increases and cuts to state spending.

It's really for you, dear

"Why should I?" the young man shrugged. "I keep telling them I'm getting for you!"

The story best illustrates the sad plight of legislatures and governments. They keep going to the table for more cake in the form of more taxes and they keep repeating that they are really doing it for you, the taxpayer.
