Prosecutor Patrick Kelly resigns post

ST. JOHNS—Prosecutor Patrick Kelly said Tuesday he is resigning effective Sept. 5.

In a letter to the Clinton County Board of Commissioners, Kelly said he was resigning "for personal reasons. He told reporters he was resigning because he wants to spend more time with his family. Kelly's office said that under state law, Kelly's resignation must be effective by Sept. 5.

In resigning, Kelly said he would be leaving the position with the same amount of money he made during his time in office. He said it was a difficult decision, but he is confident that the work will be handled by the new prosecutor.

In his letter, Kelly thanked his family for their support and said he will continue to support them in their law practice. He also thanked the public for their support during his time in office.

The resignation is effective Sept. 5, and the county will begin the process of selecting a new prosecutor.

The article in The News-Herald that accompanied the resignation letter included a statement from the Board of Commissioners, which said, "We are heartbroken to learn of Patrick Kelly's resignation. He has served the county with great dedication and honor. We wish him all the best in his future endeavors."

Third consecutive sweep
Local FFA wins market program

ST. JOHNS—The St. Johns FFA market program team emerged as the best of the best in last Saturday's competition, as they swept all three of the contest categories.

The team, consisting of Anthony Hufnagel, Benjamin Mears and Mason Statz, took first place in the beef, swine and poultry categories, totaling 196 points.

The team's success is a testament to the hard work and dedication of the members, as well as the support of their advisors, who have made this year's competition even more successful.

Fulton High School students to register

MIDDLETON—Students at Fulton High School are being encouraged to register for the new school year by signing up for classes online.

The registration process is easy and can be completed from home. Students can access the online registration portal by visiting the school's website.

The registration deadline is Sept. 1, and students are encouraged to complete it as soon as possible.

PLANNING PARISH PICNIC

Henry George, right, chairman of the Holy Trinity Catholic Parish Picnic in Fowler Aug. 11, discusses plans for the event with Fr. Albert J. Schmitt, honorary chairman, and Mrs. Mark Schaffer, co-chairman.

Commission plans waste water plant renovation

ST. JOHNS—the City Commission has approved plans for the construction of a new waste water treatment plant. The project is estimated to cost $2.5 million.

The commission plans to renovate the existing plant and build a new one to handle the city's growing waste water needs.

The project is expected to be completed by late 2023.

---

E.A. Idzkowski new Mason vice-president

ST. JOHNS—E.A. Idzkowski was elected as the new vice-president of the Masonic Lodge in St. Johns during the annual meeting of the lodge.

Idzkowski succeeds the outgoing vice-president, who stepped down after serving two terms.

The new vice-president is expected to lead the lodge in the coming year, working with the lodge's executive committee and members to ensure the lodge's continued success.

---

Hafner retires

ST. JOHNS—William Hafner, president of the Clinton County Chamber of Commerce, announced his retirement on Tuesday.

Hafner, who has served as the chamber's president for 10 years, said he is stepping down to spend more time with his family and pursue other interests.

The chamber's board of directors has named James Schmeiding as Hafner's successor.

Picnic plans ready

FOWLER—A picnic is in store for the Fowler area on Saturday, Aug. 21, when the Clinton County Chamber of Commerce will sponsor a picnic at the Fowler Civic Center. The event will feature music, games, food and drinks, as well as a raffle.

The proceeds from the event will be donated to local schools and charities.

---

Coletta named to Chamber's board

ST. JOHNS—A former St. Johns city commissioner, Coletta Nickerson, has been named to the Clinton County Chamber of Commerce's Board of Directors.

Nickerson, who served on the city commission for two terms, said she is looking forward to serving the community in her new role.

The Chamber of Commerce is a non-profit organization that promotes the local economy and works to attract new businesses to the area.

**Bloodmobile here Aug. 26**

ST. JOHNS—The Red Cross Bloodmobile will be in the Elbridge Town Hall on Thursday, Aug. 31 from noon until 1 P.M. by permission of the board of supervisors.

Under a new state law that goes into effect on May 13, anyone who gives blood will receive a certificate of service or adminstration for free. All residents of the 38 counties participating in the Lansing Regional Blood Program are entitled to free blood, and all hospitals in the region bear the costs for collection and testing.

The automatic coverage for the Bloodmobile will be based in the Health Department, 800 S. Michigan St., St. Johns.

The church is located at the corner of State Street (M-21) and Maple Street, west of the city park. Be sure to attend.

**Sheriff Percy Patterson was only one of 90 friends and guests who were there to see the sheriff's department.**

By so indicating at the time of collection, the automatic coverage for the Bloodmobile will be based in the Health Department, 800 S. Michigan St., St. Johns.

The church is located at the corner of State Street (M-21) and Maple Street, west of the city park. Be sure to attend.

**City workers hold picnic**

During the week, the city workers held a picnic at the city park. The workers included the surveyors, mechanics, street crews, and service men.

**Paying close attention are Mrs. Patterson and Mrs. Hafner.**

Prior to coming to St. Johns, he had been employed by the Village of Fowler, Father is presently on sick leave. Paying close attention are Mrs. Patterson and Mrs. Hafner.
Breaking language barrier main goal of migrant school

ST. JOHNS—The primary goal of the migrant workers' children's school, being held in the county, is to enable the students to communicate in English on an equal basis and to increase their proficiency in their native language.

The school, located in the present building, was opened to provide the students with the mental and social adaptability to live in a busy classroom environment along with normal students. It is conducted by two trained teachers who are able to communicate with their students and pass along their native language.

In the second year of operation, the school will serve approximately 30 children of migrant farm workers. The school was started this summer, Joseph School here the children will be able to communicate with their families and peer group in their native language.

The school's primary objective is to provide the students with the social and emotional adaptability to live in a busy classroom atmosphere among normal students. It is conducted by two trained teachers who are able to communicate with their students and pass along their native language.

In the second year of operation, the school will serve approximately 30 children of migrant farm workers. The school was started this summer, Joseph School here the children will be able to communicate with their families and peer group in their native language.
New Jersey - July 16, 1971:

Heavyweights head for Saginaw Fair

SAGINAW-Saginaw will be the scene of some of the heaviest muscle power ever to visit the Northern Michigan area. Team owners and horses are being shipped in from all over the country to compete for prize money in a contest which will be the highlight of the Saginaw Fair.

The contest is sponsored by Forage Harvesters, Mower Conditioners' with the National Heavyweight Horse Pulling Federation, Detroit, Michigan, as the official sponsors.

The contest will be held at the Saginaw Fair, July 17-20, and will feature teams of horses drawing loaded dynamometers, with the heaviest team to pull the dynamometer unassisted the winner.

The contest is open to any team or individual who can provide proof of ownership and registration of the horses used in the contest.

All equipment and dynamometers will be provided by Forage Harvesters, Mower Conditioners, and the National Heavyweight Horse Pulling Federation.

The contest is expected to draw over 50,000 spectators each day, and will feature other events such as horse shows, livestock exhibitions, and entertainment.

The Saginaw Fair is scheduled to begin July 16, 1971, and will feature a wide variety of events and activities for visitors of all ages.

The contest is expected to conclude on July 20, 1971, with the final awards presented at 6:00 p.m.

For more information, contact Forage Harvesters, Mower Conditioners, or the Saginaw Fair office.

The Saginaw Fair is a major event in the Northern Michigan area, and is expected to attract visitors from all over the United States.

Sealed Power sales, earnings up slightly

ST. JOHNS — Sealed Power Corp., for the six months ended June 30 was up sharply from the comparable period a year earlier, although its net earnings were slightly below the company's announced second quarter profits.

For the first half, the company earned $37,039,000, or 54 cents per share, on sales of $372,000,000. That compared with earnings of $1,504,000, or 87 cents per share, on sales of $177,940,000 a year earlier.

Second quarter profits was a quarterly record, $34,483,000, or 55 cents per share, on sales of $176,290,000. In the second quarter a year ago, earnings were $929,000, or 54 cents per share, on sales of $177,940,000.

Here's a close-up look at Sealed Power's performance:

- Sealed Power is a leading manufacturer of piston rings and various, industries.
- It has a long-time and a good deal of research to evaluate the effectiveness of various cover crops and look into the damage caused by various corn blight problems. This research crop is on the Redman Farm, Forest Hill Road.

Penny Pennell bride of Gregory George

The bride was given in marriage by her father and accompanied down the aisle by arial of deep pink and white rosebuds. The bridesmaid was Robin Holmgren and the flower girl was Shelly Searles of St. Joseph. The attendants were dressed in Colonial theme attire, with the bride and groom wearing traditional wedding finery. The ceremony was officiated by the Rev. John Snyder of Manistee, St. Joseph Catholic Church, and took place at 3:00 p.m. at the Ovid-Elsie High School auditorium. Following the ceremony, a reception for 350 guests was held at the Ovid VFW Hall. A wedding trip to Europe and the honeymoon will be the responsibility of the bride and groom. A new chapter begins for the couple as they embark on their journey together.

Best Wishes... for Continued Success to the 4-H CLUBS of Clinton County

We urge everyone to attend The 4-H Fair
August 16, 17, 18
St. Johns City Park
Karber Block Co.

The Clinton National Bank wishes to take this opportunity to congratulate all 4-H members and their leaders for their efforts to develop good citizenship. Working together helps build strong communities and develops the leadership we need in the future. Best wishes for a successful fair again this year.

Hello, Mr. Congressman

These are the six Clinton County 4-H'ers who attended the National 4-H Citizenship Short Course program in Washington, D.C. this past week:

Fred Thelen, Marie Blaskey, Marcia Tait, Congressman Charles Brown of the Third Congressional District, Steve Thalen, Lori McQueen and John Dunham.

The Clinton National Bank wishes to take this opportunity to congratulate all 4-H members and their leaders for their efforts to develop good citizenship. Working together helps build strong communities and develops the leadership we need in the future. Best wishes for a successful fair again this year.

4-H report to the nation

By KATHY JO NICHOLS - 4-H Projects Club

By KATHY JO NICHOLS - WOULD YOU BELIEVE... 4-H?

Audiences and to help all types of projects to "learn by doing.*

Any interest in the 4-H program, resulted not in mere paper reports, but in actual projects that were presented to the FAIR. Their interest in the 4-H program was only, to allow the young people in our state and county to express their desire to learn.

4-H has been developed to serve the young people in the community, as a way to gain knowledge and experience through hands-on activities. Such new, projects are being developed. It is a great feeling to know that this is the way to better citizenship and prepare for the future of our children.

The 4-H members point to the National and State Fairs as being a valuable experience in public speaking, listening, and public relations. It is a great feeling to know that many people have been able to express their feelings through these experiences.

We Salute the world's Largest Rural Youth Organization during the Clinton County 4-H Fair

ST. JOHNS CITY PARK
4-H as a parent-leader looks at it

By Donnal R. Wayte
President 4-H Club Leader

In my role as a parent and 4-H leader, I’ve had more experiences with my three children in their club work, whether as a volunteer or in my official capacity, than I have in my entire professional life. There have been a disappointments and many happy moments. As a parent-leader, I truly enjoy the challenge of helping others to find the joy and growth that I’ve found through my involvement in 4-H Club activities. The most important lesson I’ve learned is that one must never give up on anyone, even if they were to make a mistake. I’ve seen many instances where I’ve helped someone overcome a difficult problem or situation. I’ve also seen how rewarding it is to help others overcome their own challenges.

HATS OFF TO... 4-H CLUB MEMBERS

We Proudly Hail the Youth of Clinton County who are preparing themselves for a better future through 4-H Club activities.

The 4-H movement offers a great opportunity for the boys and girls of today to better adapt themselves for the years ahead which will surely find our country’s population vastly increased.

Pleasure horse breeding spreading across nation

By VIRGINIA OILDR

TivoliWenches 4-H Club

TivoliWenches 4-H Club has spread its wings as far away as California in the past three years. In addition, two other club members have become national winners.

"The popularity of the pleasure horse project? What good can come from it? " I asked a parent-leader who is very active in the project.

"Your question is like asking, 'What good can come from going to a movie?' " she replied.

"I think more people realize that there is more than just showing and riding - there is a true sense of family involved."

Many families are learning the basics of good photography

By KAM WASHBURN

Kodiak makes me very angry. With their appearance of brownish, remember, all you have to do is look in the mirror, toilet, and shoe box, and you can take away the majority of the problems.

"You can take away the majority of the problems by learning the basics of good photography."

When a person begins to develop a love for photography, they discover a new world of possibilities. The possibilities are endless, and the potential for growth is unlimited.

One of the main reasons is because of this. Through photography, you can take pictures of your friends and family, and share them with others. Learning to take pictures is a fun and rewarding experience.

Pictures taken by 4-H photographers range from still life to abstract, and there is something for everyone. Watching others take pictures is a great way to learn.

Youth Exploration Days Exploring during MSU’s

By STEVE THELEN

Begin 4-H Club Exploration Days. It was held at Michigan State University.

"The exploration days were a great success. The members had a great time learning about different aspects of MSU’s."

Congratulations To All 4-H CLUB MEMBERS

The Year’s hard but enjoyable work will be ending soon… as we wish every member could be awarded a Blue Ribbon.

Gun safety – conservation program

BY JUDY SCHWARK
Spring Valley 4-H Club

Gun safety is a conservation program that teaches proper handling of a gun. The program includes target shooting and prop­­­­­­­­­­­er teaching the correct way to handle, and explains the procedures to which we must always adhere while shooting. Let me teach you how to shoot, and you will soon realize that we must always use a lead rifle or shotgun in the presence of children.

Bugs are interesting? You bet

BY HARRY MOLDENHAUER

You might say, well I'll own a bug, but what can I do with it? You might say, well it is a bug, but what can I do with it? Probably the only time you perceive insects in their true environmental leas is when there is a bug on your plate or in your garden work.

You can probably never own one yourself, but what if you could offer them to your neighbors? Do you know what you can do to help keep the future of our environment from being threatened? Magnificent! Just imagine it! And when you think of the future of our environment, you think of the beauty of our environment, and you think of the importance of the 4-H program.

We supports you, the youth of America, with its 4-H program activities, and we strive to help you achieve your goals in this wonderful world of exploring nature.

We bank with you and support the Clinton County 4-H Fair.

The youth of America is the future of America, and the aims and activities of the 4-H Club in developing initiative and character in the lives of our future leaders are commendable.

Be Sure to Attend

Learning about woodworking

BY DENNIE BADES

In woodworking, real things come from dreams. For the first project you have to put a small piece of something in your head, and it must evolve into something that makes you feel that it is worthwhile. This lesson teaches you to use your hands, fingers, and how to make. Our first year we held small classes that are a little more complicated but still not very hard. The first cut second year you are an apprentice and are learning to use techniques. But then the third year you have an advantage of either changing or becoming a business. A beginner project is only one article but they keep me. The project will have an article, a small or a large article, and even a something. One can be a handplane by Bob Hopkins, or a beam, or anything you can do with a handplane or a beam. Our first year we taught small classes that are a little more complicated but still not very hard.

A craftsman, as the maker of a thing, has to be able to do it in a way that is not very complicated but still not very hard.

Safety is an interesting project because you learn so many principles. The fire-risk, the color deficiency, the liability, and the safety aspects are all important. It is not a simple project but as a good person, you can become better prepared. You can become a better person and develop the skills that are needed for a project. You can become a better person.

Mr. Farmer

Mr. Businessman

Get behind 4-H

When you talk to people about woodworking safety, they talk about woodworking safety. A lamp or two would stimulate the patient's interest. A book or two would stimulate the patient's interest.

Our first year we build small articles by Bob Hopkins, etc. Learning about woodworking Safety: Qll Open project

In woodworking we build things complicated but still not very hard. The first and second year, one can either stay as a member or become a 4-H leader. The first and second year, one can either stay as a member or become a 4-H leader.

Imagine you're visiting the garden center of the South US-27 ST. JOHNS, Phone 224-2693

PATTIFOX

A craftsman only has to make one article, but it has to be more complicated than the projects In 4-H. In this project, you will learn how to paint by this time. When you are finished, you will learn how to paint by this time. You could learn to paint around this one article, but you could learn to paint around this one article, but you could learn to paint around this one article.

By DENNIE BADES

Landscape 4-12 Club

Safety is one of the most open projects you have. You can make the different kinds of safety projects you are interested in. You can make the different kinds of safety projects you are interested in. If you do not have a project for safety, you can still plan to do some safety projects you are interested in.

I have in my mind a woodcut of a woodcut. It is difficult and it took a lot of patience, but it is a beautiful, simple woodcut. A lamp or two would stimulate the patient's interest. A book or two would stimulate the patient's interest. A book or two would stimulate the patient's interest.

Our first year we held small classes that are a little more complicated but still not very hard. The first and second year, one can either stay as a member or become a 4-H leader. The first and second year, one can either stay as a member or become a 4-H leader.

Emergency ward for home improvements

BY PATTY FOX

Happy Hustlers 4-H Club

The bus ride enabled us to get to Washington D.C., our real awakening. I found that it was difficult to make the right decision. For the first part of the story, Mr. Holmes will concentrate on matching children with the right animals. The visit was a happy experience. We were forced to broaden our minds because we were forced to broaden our minds because we were forced to broaden our minds because we were forced to broaden our minds.

When asked to describe this trip to Washington D.C., our real awakening. I found that it was difficult to make the right decision. For the first part of the story, Mr. Holmes will concentrate on matching children with the right animals. The visit was a happy experience. We were forced to broaden our minds because we were forced to broaden our minds because we were forced to broaden our minds because we were forced to broaden our minds.

The Tailwaggers is a recently formed puppy patrol. These unwanted puppies also pose a danger to others. A lamp or two would stimulate the patient's interest.

4-H offers opportunities for creative expressions

By WENDY SMITH
Frederick's Corner 4-H Club

All people are creative. Creativity manifests itself in the form of qualities, characteristics, of creative activity, and affects each person in different ways. Creativity is shown in many ways. Creativity can be exhibited in many ways.

Creativity is a natural talent that can be developed and evaluated by a qualified person. Creativity is a great part of learning. Creativity is the key to unlocking the possibilities of the self.

The program was developed in many areas. Creativity is important. Creativity can be used to express their individual creativity. Creativity is valuable. Creativity is fun. Creativity can be used to express their individual creativity.

The occasion was the 41st National 4-H Conference. The date was April 18, 1971. The reason for this is that they have been meeting in groups which tried to find how to do before fair time. There was a lot of interest.

The paintings and drawings exhibited, show the individuals are to be judged and ribbons awarded. The paintings and drawings exhibited, show the individuals are to be judged and ribbons awarded.

The modeling teaches you to make your own creation. The modeling teaches you to make your own creation.

### 4-H camp's a great experience

**ALAN COBB**

There is almost no end to the rewards of 4-H membership. Joining can be an experience of a lifetime. I have found that there is a range of classes for a child to choose from, thus providing the best opportunity for learning. In our county, there are classes for all ages. From 9 to 12 year-olds, there is a class for them. As far as me personally, I have been in the 4-H program since I was a little child, and I have found that it has helped me to be a better person. I have learned how to manage finances and the basic requirements of life. However, I have also found that it can be a challenge to manage finances and the basic requirements of life.

I have found that being able to participate in the program has helped me to learn new skills. I have learned how to manage finances and the basic requirements of life. I have also found that it is very helpful to be able to participate in the program. I have learned how to manage finances and the basic requirements of life.

### Reasons for dairy's popularity

Adults Only Game material may be obtained by mailing request to Zodie Games Cards and Tickets To Be Distributed. No purchase necessary to participate. Zodie Games Cards and Tickets To Be Distributed.

---

### Field crop for farm boys project good

Field crop for farm boys project is ideal for boys and girls. It is very helpful to be able to participate in the program. I have learned how to manage finances and the basic requirements of life. This lets us do what we've done in the past, to make it this summer, it will still be popular with the boys and girls.

### Zodiacash Game

There's Still Six $1000 Cash Prizes with Zodiacash Game No Limit to the number of times you can win! If you have a winning card in this game, get a new card and continue to play. The rabbits have to be confined so that they can be given good food, and watch how light it is. This lets us do what we've done in the past, to make it this summer. It can also be spread between states. It is very helpful to be able to participate in the program.
Knowing techniques of ceramics is a fantastic learning project

The fun with food

By DIANE DAVIS

There's more fun in food than just eating it and having enough to eat. There's also the creation of a dish, the planning of a meal, and the joy of sharing food with others. Food can be a source of creativity and expression, and it can bring people together in a joyful way.

When you're cooking, think about the ingredients you're using and how they'll work together to create a delicious dish. Consider the textures, flavors, and colors of the ingredients, and think about how they'll complement each other. You might also think about the occasion for which you're cooking, and how the dish you're creating will fit in with the rest of the meal.

Don't be afraid to experiment with different techniques and flavors. You might try a new recipe, or modify a classic one to make it your own. You could also try cooking with different ingredients, or using new equipment. The more you try new things, the more fun you'll have in the kitchen.

Another way to add fun to your cooking is to involve others. You could try cooking with friends or family, or you could encourage them to help you in the kitchen. You could also try cooking for a group of people, like for a potluck or a party.

Remember, the fun with food isn't just about the end result, but also about the process. So go ahead and enjoy the journey, and have fun in the kitchen!

**Who's to blame?**

**By TIM YOUNGMAN**

Another of the most serious issues that we face is the problem of drug addiction. Unfortunately, many of the people who have become addicted to drugs are children of addicts. This has led to a cycle of addiction that is difficult to break.

Cigarettes are popular among young people, but they are also known to cause respiratory problems. The use of cigarettes has increased significantly in recent years, and this has caused a rise in the number of people who suffer from respiratory problems.

The use of alcohol is another serious problem, and it has led to a rise in the number of accidents on the roads. The use of alcohol has also led to a rise in the number of deaths due to road accidents.

Drugs have become a serious problem, and they have led to a rise in the number of people who have experienced physical and emotional problems. The use of drugs has also led to a rise in the number of people who have been arrested for drug-related offenses.

Alcohol and drugs are both legal, but they are both dangerous. The use of alcohol and drugs can lead to serious problems, and they can also lead to death.

Many people are aware of the dangers of alcohol and drugs, but they still use them. This is because they are addicted to them, and they cannot break free from their addiction.

There are many ways to help people who are addicted to alcohol and drugs. These include counseling, rehabilitation, and support groups.

**Recipe for wealth**

We all want to be rich, but we don't always know how to achieve it. The key to wealth is to be persistent and to always be looking for new opportunities.

The key to success is to be persistent and to always be looking for new opportunities. The key to wealth is to be persistent and to always be looking for new opportunities. The key to success is to be persistent and to always be looking for new opportunities.

**Encourage the slobs**

We Americans must certainly be among the greatestubbards in the world. Inteligent beings for the most part, and generally not oblivious to most surrounding us in our back yard yet we'll indiscriminately hitter streets, parks, and public places.

It truly burns us when we watch others who park in his car, with nothing much to do, empty noon's accumulation of cigarette butts and misciolonous wrappers, onto the ground.

ARENAC COUNTY INDEPENDENT

**Too much fuss about hair styles**

Adult attitudes towards length and style of a boy's hair may go down to history as the most ridiculous and hypocritical . . . situation ever.

In short, haven't we all made too much of a fuss about hair? Before our own sons begin thinking their father's has flipped his lid and that they're back side of the century hill, it's good to mention that youth.

WE DO NOT understand why a boy would want to look like a girl and long hair shaves we did away with World War II vintage, young folks, and for we country lads, at least, the first boys we'd ever seen in our lives with shoulder-length hair were in New York. We were told they didn't need things like propellers and wings to go aloft, and we were scared to get near 'em, and that impression of flying looks never left us.

So we'll never like shoulder length hair. We'll never come to terms with it again.

**Year One Again**

American labor unions have been pressuring the Ford Motor Company for higher pay and better working conditions for the last time. This time around, they are demanding a 10% wage increase and a 10% increase in the number of paid holidays.

**25 Years Ago**

Roy G. Peters, of the Chicago Board of Trade, has resigned his position as president of the board.

Public outraged on hike

By SEN. WILLIAM S. BALLINGER

Public outrage at the possible July 1 increase in gas tax by 2 cents a gallon was expressed by Sen. William S. Ballinger, of East Lansing, at a Senate Finance and Appropriations Committee meeting last week.

"I feel that this is a pretty ridiculous position to take," he said.

The present gas tax is 5 cents a gallon. The increase would bring it to 7 cents a gallon.

Mr. Ballinger said he was opposed to the tax hike and expressed his concern about its impact on the state's economy.

A look at graduated tax

By Rep. Douglas Throop

Detroit Free Press

Graduated tax proposals in Michigan have been rekindled, and the state has seen its share of attention in the debate.

The graduated tax, which is a tax on income, is used in many states to help pay for public services.

In Michigan, the graduated tax was established in 1965, but it was repealed in 1971.

Since then, there have been several attempts to bring back the graduated tax.

One of the most recent attempts was in 1998, when a bill was introduced in the legislature to bring back the graduated tax.

However, the bill did not pass.

At the time, there were concerns about the impact of the graduated tax on low-income families.

Some lawmakers argued that the graduated tax would be unfair to those who earn less than the state's median income.

Others argued that the graduated tax was necessary to help fund public services.

In the end, the graduated tax was not brought back.

It remains to be seen whether the graduated tax will be brought back in the future.

In the meantime, lawmakers are continuing to look for ways to fund public services.

Graduated tax proposals are on the table in other states as well.

In New York, for example, there have been discussions about bringing back a graduated tax.

In California, there have been attempts to bring back a graduated tax.

These proposals have been met with mixed reactions.

Some lawmakers support the graduated tax, while others are against it.

The debate continues.
