Clinton County 4-H Youth Fair opens

Floats, contests fill the week

A float parade brightened up an already-optimistic atmosphere at the fairgrounds just before 10 a.m. Thursday. Contest organizers hoped to see a large crowd and an unseasonably warm day to go along with their efforts.

Tri-County grows 21% since 1960

Population estimates indicate a population growth of 21 percent in the Tri-County area over the past 10 years, with the Clinton County segment increasing by 28 percent since 1950.

Commissioner Rand fires verbal darts

A verbal attack on the City Manager, John Hanlon, was made during the regular meeting of the St. Johns City Commission Tuesday night by Commissioner G. E. G. Robertson.

YOUR UNITED FUND REPORT

Merignac, Leon fill initial assignments

United Federation President Bill Palter today announced that E. C. Merignac, Leon, had been named to fill the position of United Federation President.

Bath wars on unsafe buildings

Buildings examined recently by building inspectors were declared to be unsafe and condemned by the United Federation of Building Inspectors.

Postal changes alter County News delivery

County News delivery changed from five days a week to three days a week beginning this week. The change was made to reduce costs and improve efficiency in the delivery process.

Cynthia Campbell, Jack Guthrie say vows

The Elmwood Congregational Church in Lansing was the setting for the wedding of Miss Cynthia Jo Campbell and Jack Guthrie. Mr. and Mrs. Wilson, son of Mr. and Mrs. Wilson, were married in the presence of the congregation, a 5.3 billion-dollar trust fund offering, and the officiating minister, Rev. Dr. R. A. Lane, pastor of the church.

The couple were married in a private ceremony, with the officiant being Rev. Dr. R. A. Lane. The wedding took place on Saturday, August 14th.

The newlyweds, Mr. and Mrs. Wilson, were then driven to their honeymoon destination, a romantic getaway in a quiet corner of Michigan's Upper Peninsula.

Cynthia Campbell, Jack Guthrie say vows
The architect has gone to great pains, he says, to make the new school “a great saving.” He has designed the school to be used for as many activities as possible, including a band room, a gymnasium, and a library. The auditorium is equipped with special lighting equipment for dramatic productions. The aisles of the auditorium are designed to reduce popping to little or nothing. There is a study hall during school hours in the new high school. The kitchen of the new high school is “one of the finest in any school in the United States.” The kitchen is equipped with a walk-in refrigerator, a three-part series of snack bars, and a walk-in deep freeze. The high school will also have a man, a hospital aide, and a hospital attendant in shifts of 300, but can actually accommodate a band of over 100. The kitchen in the new high school is one of the most modern in this area according to construction superintendent, Florian Simmonds.

CIVIL SERVICE JOBS OPEN

The Michigan Civil Service Commission is advertising for jobs in St. Johns. Positions are available for women. Applicants must be United States citizens and have previous experience in similar positions. The hiring process will be evaluated on the basis of educational and work experience. Applicants should submit their resumes to the Civil Service Commission, 100 W. High St., St. Johns, MI 48879.

NOTICE TO BIDDERS

The City of St. Johns will receive sealed bids on Tuesday, October 11, 1989, at 2:30 p.m. at the City Clerk’s Office, 100 W. High St., St. Johns, MI 48879. The bids will be for the construction of a new high school building. The building will be located at 200 W. High St. in the city of St. Johns. The contract will be awarded to the lowest responsible bidder. All information will be given at the time of the bid opening.

HOUSTON DAIRY AUCTION

FOSTER FARMER CO-OP MILL AT ELSE, WINTER OF 1968

The Clinton County News received a request last month from Pearl Blake to reprint a picture of the Ovid Farmers Elevator. The elevator was completely destroyed by fire last June 5, and the site is presently being converted to a new park. This winter scene was contributed for reprint by Mrs John Minckley.

---

### ST. JOHNS NAMES NEW FOOTBALL AIDE

The appointment of Phil Deper as assistant football coach at St. John's High School was recently announced by the athletic director, according to the plans of Jeff Smit, head coach of the Red Wings. The following year Smith would be named head coach of the school's football team and would continue coaching until the 1967 Central Conference championship year. Before his move to Great Lake, the former Delmar player, Collin Smith, was the head coach of the school's football team.

### TIGERS AT FAIR

From 8 a.m. to 8 p.m. the public will be able to view the Fair Tigers in person. The public will have the opportunity to meet the Fair Tigers in person.
Tips On Mini-Bike Care

If you are one of the many thousands of Americans enjoying the fun and excitement of mini-biking, you need to follow a few safety tips. You've won the battle to turn a mini-bike upside down to change a tire, but you should, if you can be reminded, do it with your life and your health in mind.

Fasten your seat. And then, when you are the operator of a mini-bike, capable of traveling at considerable speed, you should attach a seat, or otherwise ensure that your passengers are sitting firmly. If your passengers are sitting too low.

Like a gas-flight chair, before you take off, but after your passers are firmly seated, you should be sure that your passengers are sitting at the same height, or at least, as high, as you are. This can be done by using a height-adjustable seat, or by using a seat that is adjustable in height, or by using a seat that is designed to be used with your mini-bike.

St. Johns' new gym should inspire team

The gymnasium at St. Johns High School is being renovated to a state-of-the-art basketball facility. The new gym features a separate seating area for home and away games, as well as a large scoreboard.

The gym is equipped with a new floor, allowing for a more efficient playing surface. The new floor is made of high-quality materials, ensuring durability and longevity.

Farmworkers among low-paid

Farmworkers still are among the lowest paid in the nation. In many areas they are ill-fed or starving. Food of the right kind, men be weakened*, their spirit come weakened*, and their judgment be impaired. Men can never realize their full intellectual capacity are impaired.

As you visit the various fairs, look at the exhibits of the Department of Labor. The national average farm wage for 1968 was $4.20 an hour, without room and board, up 10 cents from 1967. This compares with an average of $4.30 for farm families, and $5.50 for non-farm families. In the South and Southwest, where input prices were also higher in 1968 than in 1967, men were in the most trouble, and farmers' fixed income averaged $5.70, up 10 cents from 1967.

Both hourly and piece rates showed an increase over the year. It is of the 175 crop activities on the-farm activities reported to the Department of Labor, 85 per cent were improved.

The passage of the Pali Labor Standards Act amendments in 1966 extended minimum wages in the United States for the first time. The minimum rate, had a significant impact on the farm labor market. The five-year average earnings for the operator's labor through 1968 for all farms was $15,000. The average earnings for the operator's labor in 1968 was $16,000. The average earnings for the operator's labor in 1968 was $16,000.
4-H'ers in Washington for courses

The national 4-H Congress was held in Washington, D.C., and the Clinton County 4-H Club members had a great time meeting the club's 4-H'ers. The club members toured the City Market and the White House and also went to the Smithsonian Institute. They also visited the National Mall and the National Archives.

U.S. price received index down 2 points

The index of prices received by Michigan farmers July 15 was 79.3 on a 100.0 base, according to the Michigan Crop Reporting Service. This was down 1.5 points from the index of 80.8 reported in June. The index of farm prices received by Michigan farmers for commodities and prices paid by farmers both declined two points or 2.6 percent during the month. The index of prices received by Michigan farmers July 15 was 21 points or eight percent above the index of 78.2 reported in July of 1968.

Michigan price received index up

The index of prices received by Michigan farmers July 15 was 80.8 on a 100.0 base. This was up 1.5 points from the index of 79.3 reported in June. The index of farm prices received by Michigan farmers for commodities and prices paid by farmers both declined two points or 2.6 percent during the month. The index of prices received by Michigan farmers July 15 was 21 points or eight percent above the index of 78.2 reported in July of 1968.
St. Johns overwhelms competition with 637 FFA trophies

The St. Johns chapter of the Future Farmers of America has won one of the highest achievements possible by their counterparts nationwide over the recent contest season, as reported by the district and state officials. The St. Johns chapter claimed a total of 637 trophies in the annual FFA competition held at the FFA Markers Days at MSU. The competition was held the first three days of August.

St. Johns students had a chance to exhibit their abilities in a variety of programs as a local chapter competitive project. Chapter member Roger Reep led the team which was composed of agriculture students.

The $25,000 prize money was divided among the district chapters, with district chapters receiving $30,000 and state chapters receiving $25,000 for a total of $55,000. The competition was judged by 10 judges, each of whom was assigned a specific area of the competition.

Kathy Davis of Davis and Debbie Locher of the Olive 4-H Project Club gave a beekeeping display at the FFA Fair on July 22nd at MSU. Davis has worked in agriculture for eight years. She has been in 4-H Club work eight years and is now a team leader. Kathy has also been a member eight years.

Ohio ag educator stresses training

Unless we have trained men in agriculture, we cannot advance and remain the No. 1 industry in the nation, Ohio's superior management professionals.

Farm leaders fight grape boycott

The state Farm Bureau presided over a new boycott of grape products this week, calling on farmers to refuse to sell grapes until the state passed a labor law. The move comes after a similar boycott by California grape farmers.

Albie Grant, president of the California Federation of Agriculture, said his state's farmers have been driven to take this action because of the "lack of concern for the workers in the state of Michigan."

"It's time for Michigan to pass a labor law that will protect the workers who grow our grapes," Grant said.

The action by Michigan farmers follows similar boycotts in California, where grape growers have been trying to force passage of a labor law for years. The Michigan move is aimed at increasing pressure on the legislature to act on the proposed labor bill.

"We are doing this because we believe it's the right thing to do for our workers," Grant said.

Mr. and Mrs. Stanley Morley of Ovid spent several months in a nursing home last week. They are former residents of St. Johns, where they spent their childhoods.

Mason fair last week. M. and Mrs. Frank Todosicik and Mrs. Ruby Mulder of Ovid spent Aug. 3. They are summer residents of Ovid.

The rights of consumers to buy at a fair price were highlighted last week at the Michigan Farm Bureau convention in St. Johns.

"Consumers must be the very first concern in any exercise of fear or influence," said a speaker at the convention.

"We must protect the consumer's right to buy at fair prices," he said. "Their interests are our interests, and we must work together to ensure that they are not abused by anyone, either at home or abroad."

The Farm Bureau is working with the state labor department to ensure that consumer interests are protected.

"We are committed to the interests of the consumer," said the speaker. "We will continue to work with the labor department to ensure that consumer rights are protected."

Two state Farm Bureau presidents met recently with Michigan Governor George Romney.

"We had a very productive meeting," said one of the presidents. "Governor Romney was very interested in our recommendations and was willing to work with us to ensure that consumer rights are protected."

The Farm Bureau continues to work with the state labor department and Governor Romney to ensure that consumer rights are protected.

ADULTS, YOUTHS, AND 4-H SUPERINTENDENTS MEET

百强洋，extension 4-H Youth Agent addressed the adults, youth, and 4-H superintendents last week. The meeting focused on the future of 4-H programs in Michigan.

"We are facing difficult times," said百强洋. "The national 4-H program is facing cuts, and we must find ways to continue our programs."

"We must work together to ensure that our programs continue," he said. "We will continue to work with the state and local authorities to ensure that our programs continue."

The meeting was attended by adults, youth, and 4-H superintendents from across Michigan.

Sanders, Pastor from the Fowler Area. Rev. R. F. Decon of St. John's will conduct the service on the 28th.

Maple Rapids Area

First United Methodist Church 300 Michigan St. Services include a joint service with the St. Johns Area on the 19th, Rev. Richard Anderson, Pastor. The 22nd will feature a service with Rev. L. Sanders, Pastor from the Fowler Area. Rev. R. F. Decon of St. John's will conduct the service on the 28th.

How clearly a rose illustrates that nothing is life is truly perfect! But, rather than discovering this, we should give us true confidence and strength. God did not make the rose perfect—nor did He make us perfect. Yet He thinks out the loss of us for our faults and failures. Is this eye we always have another chance. And it is up to us to take it.

Start by going to the church of your choice next Sunday.

Maynard Allen State Bank
heavier loads than previously, 26,000 pounds.

Mr. and Mrs. Harold Cunningham, father and son, departed the home of their daughter, Mrs. Marilyn Spooner, in DeWitt last week.

The weight schedule, however, is the starting point in the evaluation of the property's value for purposes such as income, capital gains, or estate matters, and it is important to understand how the schedule is structured and how the tax is calculated.

The schedule is divided into several categories, each covering a different type of property. Each category has its own set of rules and regulations that determine how the tax is calculated.

The tax is calculated at a percentage of the property's value, and the rate of the tax varies depending on the category of the property and the jurisdiction.

For example, residential property may be taxed at a lower rate than commercial or industrial property, and the tax rate may be lower in some jurisdictions than in others.

The tax is due on a specific date each year, and it is payable in installments if so required by the jurisdiction.

The tax is subject to penalties and interest if not paid on time, and the property may be subject to a lien if the tax is not paid.

The tax can be paid online, by mail, or in person at the local tax office.

The tax is used by the government to fund various programs and services, such as the maintenance of roads and bridges, the provision of public safety, and the funding of education.

The tax is also used to fund local governments, such as school districts and municipal governments, which use it to fund their operations.

The tax is important to understand because it affects the value of property and the cost of living for property owners, and it is a significant revenue source for governments.

By understanding the tax schedule and how it is calculated, property owners can better plan for their financial future and understand the impact of the tax on their property value and cost of living.

Mr. Nixon returns

President Nixon returned to Washington Sunday after a 12-day trip to Asia and was greeted by about 1,000 persons at Andrews Air Force Base.

His journey was one of peace. His discussion with foreign powers have brought out some achievements. He is not at all glib. We can see that he is an ardent worker for peace.

He left on his trip 12 days ago in the hope that he would have gone a long way to settling the Vietnam conflict.

One of the very few bills of the 87th Congress aimed at curing recent ills was laid on Kennedy's desk. If he signs it the 24-billion act has the force of law.

One thing the President himself has been concerned with is the "know-it" type of geezer who believes that the Democratic party is composed of brainless persons.

There is no opposition to the "know-it" type of geezer. He is often a card. Who never made a mistake.

He's always on the ball! Come fire, flood or 'quake, he's the one to call.

We should be fighting this attitude of the "know-it" type. It is important to keep the balance of power in the hands of the people. The people should have a voice in the government.

We should not allow the "know-it" type of person to have too much influence in the government. The government should be run by the people, for the people, and not by "know-it" types.

Beautiful girls. There are contests for all of them—and for that ing kids, horseshoe pitchers and one-at the 120th Michigan State (Jeff) Keirns, the State Fair's competition for all."

You don't have to own a prize pie-eating, balloon race, look-Aug. 25-29. They'll include pony- for entering this competition. St. Johns Fair, Saturday and Sunday offices in Detroit in 360-1000. Every year a genuine beauty is crowned Wedne sday evening, Aug. 27. There's still time for the wives will get a shot at and the men will reigned beauty queens to beat for the title of Miss Michigan automotive engine design, was presented last Wednesday for ex- dollars, and a specially minted ver dollars, two Kennedy half- for continuous days in World War II.

Behind the offices of Drs. Russell and Groth on Walker Street, a new parking lot is being constructed. Dr. Russell estimates that the lot will comfortably accommodate ten cars. Work was started about July 28 and will be ready for use on Aug. 11. Black topping will not be completed until next spring. A fence next to the office on Oakland Street has been torn down to make room for the new lot.
