Dear Editor,

We just experienced our first year of beef at the 4-H fair. We raised holsteins for years and didn't know it was money for all that fat that has to be trimmed off. There was even a man asked if that was the only kind of beef we had. We have the butcher trim 1 to 2 and have the butcher trim 1 to 2 and be able to eat it — than fat people would rather buy meat and have the butcher trim 1 to 2 and be able to eat it — than fat people would rather buy meat.

Back Through the Years

From the Clinton County News of 1974, 1990, & 1999

did County News interview Howard Hughes?

THIS WEEK'S NEWS: Following story is a complete trbox: "It is a fool who builds a tower and is not prepared to meet the cost of the materials." Howard Hughes, multimillionaire industrialist, said in the early 1930s to William F. Kiser, first president of the Clinton County News.

"Of course, we would review the roof to install a more efficient system that could accommodate the larger crowds," said Hughes during an interview with the Clinton County News.

"While we're at it, let's fix the leaky stages," Hughes added.

Howard Hughes, who died in 1976, was known for his secretive ways and his lavish lifestyles.

I'm the editor of the 75-year-old Farming and 4-H... in Clinton County. I love reading our columns and writing the headline for each one. This month, I was impressed with the colorful language and the way the writers captured the essence of the season. The columns ranged from landscape workshops to 4-H fairs, and each one brought a unique perspective to the page.
