Three more named in United Fund Drive

United Fund President, William Chauncey, announced three more named in the 2nd fund drive on October 13. Raines, Ohio State University, and Ohio State University, are among those who have contributed to the fund drive.

Clayton County budget viewed

Clayton County supervisors met with the county auditor to view the annual budget for 1957. The budget includes a provision for increased building operations, an increase in the amount of taxes, and a decrease in the number of employees.

Helping hand marks haven for children

Where can a child go for help if he needs something? The answer is the Clayton County Children's Haven. The Haven provides a safe haven for children in need of care.

Adult courses offered

Adults are encouraged to continue their education in high school. There are free courses offered in the Clayton County school system. Registration is required.

County court house almost located in DeWitt in 1856

The history of the Clayton County Courthouse has been documented. The courthouse was originally located in the town of DeWitt. However, in 1856, the courthouse was moved to DeWitt, Michigan. The courthouse was built in 1857 and was used until 1910. It was then moved to its present location.

City Commissioners Newley appointed to fill out the term of the outgoing members. The new commissioners are Jim Johnson, Bill Smith, and Bob Williams.

New tornado warning system for St. John's

St. John's Hospital installed a new tornado warning system. The system is designed to provide advance warning of tornadoes in the area.

Other tie-breaker wins $20

The Clayton County News reports that J. O. Palmer, a member of the City Commission, offered the resolution to locate the courthouse building on the site of the old courthouse. The resolution was approved and the courthouse was moved to a new location.

No long-term lease on football field for school, says city

The city commissioner of St. John's has announced that there will be no long-term lease on the football field for the school. The city plans to use the field for other purposes.

Matson joins prosecutor's staff

Dan Matson took over the prosecutor's office in Eaton County Monday, March 13. Matson, 42, moved here from Racine, Wis., to replace William Silverman who left two years ago to run for state's attorney in Madison County.

Silverman left his wife, Maryanne, recently bought a house at 118 N. West Drive in DeWitt. Their two children, Scott, 4, and Maria, also moved.

Matson, who has lived most of his life in the Racine area with the exception of the four years he spent in Madison, is in new quarters in DeWitt.

Matson and his wife recently bought a house at 118 N. West Drive in DeWitt. The house is two blocks from the courthouse.

Matson's college degrees include a B.S. in political science and law from the University of Wisconsin at Madison and a J.D. from the University of Wisconsin Law School.

'Unhonorable' policy

A U.S. Department of Labor study of the 31 states revealed that the infamous 'unhono­ able' policy for workers who are injured on the job has been made obsolete by a federal law that provides for the payment of medical expenses.

In 1929, the study showed, the law was introduced to prevent employers from paying more than the minimum wage to workers who were injured on the job.

The law was recently amended to provide for the payment of medical expenses up to $200,000, and for the payment of $200,000 for the loss of a limb or life.
Ambulance service for Ovid, St. Johns

The commissioners agreed to sell the entire Walker Street parking lot to the Post Office for its main branch in the downtown area. The city has made plans to develop this area and will need at least 1 foot of the lot in the area.

The Post Office plans to expand its facilities and use it in the future.

A letter was sent to the Postmaster General expressing the city's interest in the lot.

The city's plumbing superintendent, Jerry Kubica, is working on the purchase of a new water heater for the city.

The commissioners are considering the expansion of the parking lot in front of the courthouse.

The sale of the parking lot will be advertised in the newspaper.

DESCRIPTION:

Roll No. 59-72-00, 291 E. State St.
Meet County News teen correspondents

BY JANET MORRIS

The Ovid-Elsie High School newspaper has three full-time correspondents this year. The students, who are also members of the Junior Class, are: Laythe Fisher, Maby Shepard, and Jackie Wortman.

Laythe Fisher, a junior, says that “as well as sports” she enjoys dancing and being with friends. She is also a member of the Future Farmers of America.

Mary Shepard, also a junior, is working on the school newspaper. She says that “I enjoy working with the students and helping them with their work.”

Jackie Wortman, a senior, says that “I enjoy being part of the community.”

Thayer Junior Band. 39 members, says the school newspaper.

The beginning instrumental program will start within the next two weeks. There will be a meeting for all instrumentalists—Mrs. Parks, Miss Sargent, Mr. Laythe Fisher, Mr. Mary Shepard, and Mr. Jackie Wortman. The senior class band will also provide two concerts.

The Ovid-Elsie majorettes traveled to Syrmoza, Ind., this summer to attend a week-long session at the Smith-Walbridge Camp of Baton Twirling. At the camp, the students learned new routines to perform at school and community events.

Ovid-Elsie is music-minded

The Ovid-Elsie music department has undergone some changes this year. Due to the retirement of Mrs. Parks and Mrs. Shepards, the new music director is Mr. Jackie Wortman. The new director has had some success in improving the school’s music program.

At the top of the dial

The Ditmer Broadcasting Co.
TIE BREAKER
Who wins the toss will be Texas Christian at Ohio State.
Pink the total number of points you believe will be scored in this game and write on your entry.

1. Read every ad on this page.
2. On a separate sheet of paper, write the name of each merchant on this page and after his name, the name of the team you select as the winner of the game listed to his left. List in sequence 1 to 20.
3. Be sure and print your name and address plainly on your entry.
4. Mail your entry to Contest Editor, The Clinton County News, St. Johns, before 2 p.m. Friday or deliver it personally to The Clinton County News office, St. Johns, before 2 p.m. Friday. Two entries must be postmarked on the same date. Two entries per person are allowed.
5. Contest winners will be announced each week in The Clinton County News.
6. Only one entry per person is allowed.
7. Remember—Your guesses plus the names of the merchants, must be on a SEPARATE sheet of paper... not on this page.
8. No entry at left for the breakee.

Join in the fun! You can win $30 cash, paid by The Clinton County News each week to the person who guesses the most winners of the high school and college football games listed on this page. Check the ads and read the rules to find out how you can cash in!

Art contest set for centennial

One of the projects planned for the Clinton County centennial celebration will be an art contest for students to create artwork. The contest will be open to students in grades 9 through 12.

1. Original artwork will be created by students in grades 9 through 12.
2. Artwork may be any size.
3. Artwork will be mounted or unframed.
4. Artwork will be displayed at the Clinton County centennial celebration.

The contest will be open to all Clinton County high school students. Students will be asked to submit their artwork by Sept. 30.

SOIL CONSERVATION AWARDS

A meeting of the Soil Conservation District was held in Clinton County to recognize the efforts of those who have contributed to soil conservation. Awards were presented to individuals and organizations for their work in maintaining the soil.

ST. JOHNS YOUTH STUDIES ABOARD

A St. Johns youth studies abroad program is underway for the 1969-1970 school year. Students will spend six months in a foreign country, learning about the culture and language.

U.P. bear hunting forecast favorable

Two hunting conditions are on the radar. Michigan hunters should soon notice good bear hunts in the Lower Peninsula. In the Upper Peninsula, especially in the E. U.

The Michigan Department of Natural Resources (DNR) has opened the Upper Peninsula season to a modest 50 animals or less.

A mild 50 animals or less is expected before applying for antlerless permits. Hunters in the Lower Peninsula will receive a modest number of antlerless bear permits.

The DNR personnel, drawing upon 1969 estimates of bear populations appear to remain in line with last year's harvest in line with last year's harvest.

The DNR's estimates of bear populations appear to remain in line with last year's harvest. The animals' inbred stock that produced them is not changing.

In that regard, it would be nearly impossible to improve the hunting population. The animals' inbred stock that produced them is not changing.

The short season in those two counties, lasting only 8 days, will be held to a field hunt during the first week of September.

The season will end in the Lower Peninsula, without allowing for the need to close out the second week of September.

Bears in the Lower Peninsula will be able to hunt in line with last year's harvest. The animals' inbred stock that produced them is not changing.

The 1968 season was held in the Lower Peninsula, with a total kill of 150 bears.

Redwinq Band back for MSU Band day

The St. John Redwings met their last game of the season at Michigan State University Stadium to perform before a large audience. The MSU band played a variety of songs, including "The Star-Spangled Banner" and "The Fight Song." The Redwings also performed a medley of songs from the movie "Smokey and the Bandit." The crowd was enthusiastic, and the Redwings were cheered on by their supporters.

Fowler wins statistics but loses game 14-8

"As we controlled the game everywhere but the scoreboard," said Davey Henley, director of bands at Michigan State University. "Our band played their best game of the season, and we were unable to score against such a talented opponent." The Redwings were defeated by the MSU band, 14-8.

"We had a great record," said Henley. "But we were unable to put our best foot forward in the last game of the season. I'm proud of our efforts, but we need to focus on improving in the future." The Redwings will begin their off-season training next week, and they hope to return to form next season.

Deer permit deadline nears

Michigan hunters are advised by the Department of Natural Resources (DNR) that the 2009-2010 deer season begins on November 1. Hunters are encouraged to apply early, as the application deadline for permits is October 31. The DNR expects to receive a record number of applications this year, and hunters are encouraged to apply early to avoid the last-minute rush.

Cell phone ban on buses

The Michigan Department of Transportation (MDOT) has announced a new policy that will prohibit the use of cell phones on public transportation, including buses. The policy, which goes into effect on October 1, is designed to reduce distractions and improve safety. Bus drivers will be equipped with devices to enforce the policy, and violators will be subject to fines.

Wanted: 10 Guineas for turnip thief

A reward of 10 guineas is offered for information leading to the arrest of the turnip thief who has been stealing from local gardens. The thief has been seen in the area of the town, and anyone with information is asked to contact the local constable.

Wanted poster: "Wanted: Turnip Thief"

The wanted poster for the turnip thief includes a detailed description of the individual, including a peculiar tattoo on the back of the neck. The thief is believed to be between the ages of 25-35, and anyone with information is asked to contact the local constable.

Bath enters winner's circle by upsetting Fowlerville, 8-0

By DON KARLE

Number 11 came into the high school football scene in mid-season and regained the spirit of the Fighting Bees. Fowlerville Friday night after eight victories last year and only one loss in the young season.

It was the first victory for both in 12 games which was the latest loss ever and only the most remote memory for Bath.

"Play to the greatest amount of your ability," said coach Ron Skorich.

The Panthers were held to a 1-0 tie in the first period. Coach Skorich said, "Our defense did an outstanding job of shutting out Fowlerville.

The Marauders were held to a 10-yard pass by Bill Lorch on the Fowlerville 11. Sammy Luch set up for the field goal.

The Panthers were held to a 1-0 tie in the first period. Coach Skorich said, "Our defense did an outstanding job of shutting out Fowlerville.

New music show set for WBJ

Jerry Southeast, one of America's most popular recording artists, will appear on WBJ Sept. 30th. The show will be a one hour show with Jim Hix as host. The show will feature the best of Southeast's hits of his career, plus some of his newest material. Jim Hix will interview Jerry and have his favorite songs. The show will be repeated Saturday at 6:30 and Sunday at 11:30.

A new musical comedy show, "The Sound of Music," will be presented at the De Peal's Music Center. The show opened on August 25th and will run through September 10th. The show features the music of Rodgers and Hammerstein and is directed by Joseph P. DePeal. The cast includes 20 members and is directed by Joseph P. DePeal. The show is sponsored by DePeal's Music Center.

Sealed Power looks to record earnings

The President of Sealed Power Corporation, John L. Smith, announced that the company has increased its earnings for the first quarter of 1969. The company's earnings for the quarter were $1,000,000, up from $875,000 for the same period in 1968. This is a 58% increase over the previous year. The company's earnings per share for the quarter were up 30 cents, to $1.60 per share, from $1.30 per share last year.

Vahan Ryan makes the St. Johns scene

by JANE MORRISS
News Staff Writer

Vahan Ryan brings a little bit of New York City to St. Johns. Ryan, a 21-year-old disc jockey at WKNR, spoke with the local newsman about his job and his travels. Ryan said he's been in Lansing for a year and a half now, and he enjoys the way of life there. He added that he's always ready to travel and see new places. He's had a traveling companion along at the Battle of the Bands. He had a year and a half now, and he hopes to continue his travels in the future. Ryan believes that education is the key to their success, and they go for. Younger kids are more content with what they hear.

How Much Of Your Money Will Uncle Sam Inherit?

Advantages of a bank vs. an individual as your executor or trustee.

An individual may be ill or unable to act. He may move away, go on trips or vacation, be too tied up with his own affairs to spend much time with yours, be involved in embarrassing personal relationships, or he may die before your estate is settled. On the other hand, a bank won't go on vacations, become ill or pass away. A bank has experience with all forms of taxation—income, estate, inheritance gift, property, etc., has trained men in charge of handling these important details, is impartial and unbiased.

Fees for trustees and executors are the same for banks as for individuals. They are uniform, and vary according to the size of the estate. In any case, they are set by law, and approved by the probate court before payment. It won't cost you a dime more to have Clinton National do a thorough, workmanlike job of handling your estate.

Want more information?

Nothing we have written is intended as legal advice; for each help you should see your lawyer. However, assuming that we’re writing for persons who are not, we’ve tried to say a few words. It’s possible that you may have questions you would like to ask—from the practical and administrative side, rather than the legal.

Our Trust Department has some brochures on various topics. Circle the titles in which you are interested and we will mail them to you. No obligation. If you have other questions, please call our Trust Department at 224-2531, St. Johns.

BOYS 8 through 13! JUST IMAGINE!

You CAN be the PROUD WINNER of this TROPHY! The St. Johns Herald, the St. Johns News, and St. Johns Booster Club are proud to announce the first annual "BOYS 8 through 13! JUST IMAGINE!" TROPHY. This trophy is sponsored by the St. Johns Herald, the St. Johns News, and the St. Johns Booster Club.

The trophy will be awarded to the boy who submits the most creative and imaginative idea for a trophy. The idea must be original and unique, and must be submitted in writing.

Who wins the trophy?

The winner will be announced in the St. Johns Herald, the St. Johns News, and the St. Johns Booster Club.

How to enter:

Send your idea in writing to the St. Johns Herald, the St. Johns News, and the St. Johns Booster Club. Ideas must be received by October 10, 1969.

This is a great opportunity to showcase your creativity and imagination. Good luck!...
4-H'ers can can that's no dance

All summer long and all winter too, I get up early and go outside to frozen peas and beans. I have been a 4-H member for the past 10 years and have been getting a lot of experience in the kitchen. I used to think that canning was difficult, but now I can do it easily.

Why do young girls spend time, energy, and money to learn foods preservation methods? The answer is simple: to save money and time. By learning how to can, freeze, and dry food, we can save a lot of money on our grocery bill. We can be passed along to mother for future use. We can also preserve food for when we are away from home.

In addition to saving money, canning and freezing can also improve our health. Canned food is a great source of vitamins and minerals. It is also a convenient way to store food for later use.

Corporation. She became so pro-
voced by the Cooperative Exten-

sion program super-

Qin. During the year

enjoyed her canning and freezing projects. During the winter months, she grew a garden and preserved all of the vegetables. She used to say, "There is no dance in an Adequate breakfast is a necessity. Other bonus gifts are the important role of the 4-H program. It is a great way to learn about nutrition and healthy eating.

For her to prepare her adequate meals. She was always willing to help others and share her knowledge.

4-H training battles inflation

How does a training program to teach the family how to avoid buying a $1 or two too high or too low? More than 1/3 million 4-H members and 12,000 leaders from across the country have gotten the most value for their money. Last fall, 4-H members from 50 states attended a series of five week long educational programs—4-H training meetings in 26 sessions. Leaders held workshops to teach the principles of the "4-H System of Learning." The meeting was held over 10 sessions, during which time the group discussed the "4-H System of Learning." The meeting was held over 10 sessions, during which time the group discussed topics such as "Planning and Organizing," "The 4-H Cloverbud," and "4-H and the Future." The program was designed to help 4-H members learn how to plan and organize their own educational programs and to prepare them for future leadership roles.

Regular Clinton County Zoning Commission Meeting

A regular meeting of the Clinton County Zoning Commission will be held Tuesday, October 14, 1969 at 8 p.m. in the Court House, St. Johns, Michigan. At that time the Commission will consider the following items:

NORTHGATE TOWNSHIP

From Zone C, agriculture to Zone D commercial. From US-27 to US-

EAGLE TOWNSHIP

From Zone B, agriculture to Zone A, commercial. From US-27 to US-

BATH TOWNSHIP

From Zone D, agriculture to Zone B, commercial. From US-27 to US-

WESTPHALIA TOWNSHIP

From Zone B, agriculture to Zone D, commercial. From US-27 to US-

 Proper carpet care means longer wear

By LOUISE Y. TURCOTTE

Lunis Lupintz attends U.S. and of K.

LaVenda Stricker

We work on our beauty, our brains and our bodies. It's all the same. For the same reason. The same effort. The same dedication. The same outcome.

But do we really understand the importance of our beauty? Do we know how to take care of it? Do we understand what it means for our beauty to last?

For many years, Wolsey, S. D. has suggested the price when comparing similar products. Whether a garment requires dry cleaning or simple laundering, the label is your clue to securing the best garment. Use your label to guide your purchase decisions.

In her study of food labels, Mrs. A. E. Lupnitz of R-3, DeWitt, MI finds that labels are a valuable buyer's clue to securing the best product. They help the buyer to make an informed decision when comparing similar products. By reading the label, the buyer can determine the quality of the product and make an informed decision about whether to purchase it.

The Tuition cost per student is $10.00. *Read the label" is the advice given to the student. By reading the label, the student can determine the quality of the product and make an informed decision about whether to purchase it.

Barley in feed grain program

Barley will be included in the 1970 Feed Grains Program, said Don Smith, Chairman of the Michigan State Agricultural Stabilization and Conservation Commission.

The decision to include barley in the program follows the high 15 cents per bushel report when announced a record one million bushel yield of 76.4 bushels per acre. Since that yield until now has averaged just 34 bushels per acre.

In 1962, the crop average was 32 bushels, it was 25 bushels, and this year, 25 bushels, although harvested acres has increased 15 cents per bushel.

Currently, for 1968 crop barley is indicated to be 126 million bushels. Crop of an estimated 120 million bushels would average 245 bushels per acre. The total supply would be 155 million bushels, which is below the 155 million bushels voluntarily set as 15 cents per bushel.

Employment was up slightly last month

With the completion of the construction equipment industry, most manufacturing industries showed little or no change in August. The only industry which decreased was construction, where building activity was down.

Employment rose slightly in August, while the manufacturing and transportation industries continued to show little change. The U.S. Department of Agriculture's agricultural index of active and static producers showed a slight increase.

Reemployment in the construction industry was down by about 100,000. The number of unemployed workers in August was 10 percent lower than in July, and 7.6 percent lower than in August, 1969.

In relation to the last four years, having come up to 72,000, the unemployment rate has increased by 1.4 percent. The monthly labor force has increased by 1.4 percent.

By analyzing unemployment in relation to the current situation, the rate for the past 12 months shows a slight increase. The unemployment rate for the past 12 months is 4.7 percent higher than in the same period last year.

In conclusion, the unemployment rate for the past 12 months is 4.7 percent higher than in the same period last year. This increase in unemployment is due to the slowing down of the economy. The situation has been affected by the rising cost of living, which has led to a decrease in purchasing power. The rate for the past 12 months shows a slight increase.

State crop-weather

by MICHIGAN CROP

State crop-weather

For the week ending Aug. 25

Overall, light frost during the night of Aug. 15 brought no damage to crops. However, a few local areas did experience some damage, particularly in the northern part of the state. The most significant effect was a slight decrease in the growth rate of the crops.

The state agricultural association reported that the weather conditions have been favorable for crop development. The overall outlook for the crop season is optimistic, with adequate rainfall and temperatures.

Overall, the weather conditions have been favorable for crop development. The overall outlook for the crop season is optimistic, with adequate rainfall and temperatures.
Autumn is a good time to plant rose garden

There's a sprintwise sort of picture: the second week of the fall when people discover that planting is a good time to begin growing roses. Whatever warmer temperatures remain as blem­

urses, fall bring in right for rose of most types. A genus of Nymphaea known as water lilies has provided many suggestions to the subject matter, will continue to be of interest to the planting and bloom for the blooming season.

Choose for location of the rose bed, choose the sur­

nerymen. Put the roses where you can see these flowers, enjoy them intimately, and care for them appropriately. Plant them as far as possible from any big tree, or from where snail trails are prevalent. Many varieties can't compete with other roses for hardiness and most need to be protected from the cold weather. The planting hole should be twice as deep as wide, and just right for the roots. If the soil is too rich, the roots won't develop properly. If the soil is too poor, the roots will be starved.

The planting hole should be twice as deep as wide, and just right for the roots. If the soil is too rich, the roots won't develop properly. If the soil is too poor, the roots will be starved.

There are many ways to plant rose gardens. Some gardeners transplant the rose bush and plant it in the prepared soil. Others prefer to plant the rose as a cutting, cutting the stem about six inches from the base and planting it in the prepared soil. Still others prefer to plant the rose as a cutting, cutting the stem about six inches from the base and planting it in the prepared soil. The cutting should be planted about six inches deep, and the soil should be moist but not waterlogged.

Farmer's plight

The existence of inflation has ill ef-
fects on all elements of the economy but
in an accelerated fashion to those who
make their living in this part of the coun-
try. They are a group who perhaps suffer
more than the others. That is the farmer.

While there is little secrecy surrounding
the fact that farmers are not only poor but
fewer in the face of spiraling costs, there
seems to be some shadows in various reports and articles in the newspaper picture. Frequent are the suggestions that rising living costs and rising income on the farm are providing farmers with an ex-
traordinarily higher level of prosperity. But, like other elements of the economy, the increased expense punishes the group from the picture.

In an economy of constantly rising costs
the farmer is the first to be effected and, compared with some other elements, he is least able to adapt himself to the new abnormality of inflation. High consumer costs and climb-
ing interest rates, are not always swiftly realized by the farmer.

Fatal flaw

Threats of consumer strikes have raised their ugly heads once more, and again, the farmers are hit. They are aimed at the symptoms of inflation rather than the causes.

In various parts of the country, con-
sumer spokesmen have urged the boycotting
of products. The idea is that high meat prices
are due to the high production costs and re-
tail merchandising. Yet, they are merely vir-
ulent manifestations of justicability, just because the buyers.

One consumer, who lives in a mid-state area of this country, raises some questions that meat price protesters may find difficult to answer. She asks: "Should we boycott the truck
driver? Should meat be reduced to the
price of potatoes?"

The Red Cross gave a picture of
boycotting the food industry as the next
step in the consumer movement. "When
the Red Cross has decided to
boycott, the consumer movement has
begun," said the organization.

Izvestia, however, pled for tolerance' and understanding of the
men and women who produce the
food we need. This state of affairs has been brought about by
movies, 'as well as some of ours.' Another denounced 'this Idiotic
picture.

It doesn't matter if he can't

The time spent futilely blaming our
neighbors for inflation could more profi-
tably be spent in trying to find an
answer to some of the important
problems facing us all.

HURRY! THIS IS THE LAST WEEK TO COMPLETE YOUR CHINA SETS! Sale Ends Sept. 27.
America's only all-new 1970 car is here!
NEW DODGE CHALLENGER
See it this week!

1970 Dodge Challenger R/T 2-door hardtop. If you want all the "news" for '70...you could be DODGE MATERIAL.

'70 MONACO • '70 CHARGER • '70 CHALLENGER • '70 DART • '70 CORONET
The all-new 1970 Dodge Monaco.  
Or...a luxury car is not measured by price alone.

How can you improve on a suspension that experts have said offered "best handling and roadability in the business?" Let the new 1970 Dodge Monaco show you. Take the engine, the supple torsion bars, the steering gear. Mount them on a massive frame. Isolate them from the Unibody with special rubber mounts in eight critical areas. The result, Dodge's new Torsion-Quiet Ride. A body that floats on its undercarriage. Torsion-Quiet. A new concept in silence. Without losing the torsion-taut roadability that Dodge made famous. All this waits in a new body that is actually roomier than two of America's most expensive luxury cars. Lavish interiors accented with simulated walnut, punctuated with silence. If you demand one quiet hour a day...you could be DODGE MATERIAL.

1970 Dodge Charger.  
Stands out with the "in" crowd.

This one will turn heads wherever it goes. It's that kind of car. The kind of car you buy when you're ready for a sharp-looking sports type with a little more room. A car with a continental-type front bumper that encompasses the grille. Hidden headlights. Rallye Instrument panel. Rallye Suspension. Racing gas cap, bucket seats, or bench. Charger offers both. Either way, it gives you an awful lot of car for a surprisingly low price. And for a few bucks more, you can have the Charger R/T—a high-performance version of a very special car. R/T comes with a 440-cu.-in. Magnum V8, TorqueFlite automatic transmission, a heavy-duty R/T Rallye Suspension, dual exhausts plus many other performance items. If you're waiting for an invitation...this is it. Drop in. Shape out. Stand out. 1970 Dodge Charger.
Warning, sports compacts...there's a brand-new Challenger in town.

WIDER STANCE
Enter Challenger, an all-new car...with a wider stance for greater stability and security on the road. More car between the wheels means you can carve corners with exacting precision and assurance. It's a brand-new ball game, sports car lovers.

MORE DOOR
Thicker—with side-impact protection. Deeply moulded and indented, too. Door handles, inside and out, are flush. Nice, don't you think?

NEAT SEATS
Bucket seats with integral head restraints. Foam-padded. Finished in leather and vinyl. (SE models.)

MORE MILLS
Nine in all. Run your finger down the list of engines. Stop when you get to your kind of "Go."

MORE TOPS...MORE MODELS
Three tops available. Standard (shown), a Special Edition (SE) with vinyl-covered formal roof hardtop, and convertible. All nine models feature concealed wipers, locking steering-wheel column, deep-pile carpeting, dual headlights, and more.

Here it comes, the only new entry in the sports compact field. Gripping the road with a stance that says solid. Engine choices that run from a thrifty Six up to the incomparable 426 Hemi. Nine models in all, priced to compete with the pony cars. Challenger is here. And it will change the world you drive in, for good.

If you think this was worth waiting for...you could be DODGE MATERIAL.
Here comes Dodge Dart. Swinging into the 'seventies. Still America's man-sized compact. And this year, Dart's got even more going for it. A new look. A longer hood to house new, larger engines. A thrifty new 198-cu.-in. Six or a snappy 318-cu.-in. V8 on most models. But best of all... Dart's still what it started out to be. A comfort-filled compact. Room for six. Nimble handling. Easy to own. Yes, and even with all its improvements, Dart's price stays beautifully within your budget. If you won't take small for an answer... you could be DODGE MATERIAL.

1970 Dart Swinger. For the man going compact... a going compact.

1970 Dodge Coronet. It still believes a low priced car ought to be low priced.

A good low-priced car is hard to find. A roomy (six-adult-capacity), low-priced car is even harder. Enter the 1970 Dodge Coronet. Very big for its price. Choice of 17 lively models, running all the way up to the sporty bucket-seated 500, shown above. Besides all-new looks you can be proud of, the Dodge Coronet 500 has an all-vinyl interior, carpeting, three-spoke steering wheel, a 318 V8, and more than 20 reassuring safety features. And all for a price that will drive you right out of the high-rent district. 1970 Dodge Coronet—a brand-new, good-old, low-priced car.

If you care how much you pay... you could be DODGE MATERIAL.
If you aren’t leading a double life, try an Adventurer. Your Dodge Dealer can show you the way. Tell him Don Knotts sent you.

NEW DODGE ADVENTURER—The SPORTTRUCK that leads a double life

Lundy Motor Sales, Inc.
200 E. Higham
