Bob Wood resigns as St Johns mayor

ST JOHNS - Paul Maples has a new law firm. The City of St Johns will have a new mayor.

Earlier this week, the City Commission received a letter from Robert Wood, attorney for the City of St Johns, requesting that he be removed from his position of mayor. The letter, dated July 1, stated that Wood wished to resign from his position due to personal reasons.

The City Commission met last night to discuss the matter. After lengthy discussion, the Commission decided to accept Wood's resignation effective immediately. Wood will continue to serve as the City's attorney at the request of the Commission.

The City Commission also appointed Paul Maples, who has been the City's attorney for 24 years, as the new mayor effective immediately. Maples has agreed to serve in this position until the next general election in November.

Maples stated that he was honored to be appointed as mayor and that he looked forward to serving the City of St Johns.

The City Commission also approved a contract with a law firm to represent the City in future legal matters.

In other business, the Commission approved a budget for the upcoming fiscal year and authorized the hiring of new employees.

The City Commission meeting was well attended with many residents expressing their support for the new mayor and the City's ongoing projects.

The meeting adjourned at 10:00 p.m. with the next regular meeting scheduled for August 12, 2024.
NOW choose a FREE GIFT!

When you help yourself to the big-interest accounts at the "Big C." Eastern Savings and Loan have organized an event that will benefit those who choose to open a savings account. The event is called "Savings at the Big C." The purpose of this promotion is to encourage new customers to join Eastern Savings and Loan and to offer them a choice of gifts. The gifts are divided into three groups: Red, White, and Blue. To participate, customers must deposit $500 or more into a new account. For each $500 deposited, customers can choose one of the following gifts:

- **Red Group**
  - Deposit $500 or more and choose one of 10 gifts from this group.

- **White Group**
  - Deposit $1,000 or more and choose one of 10 gifts from this group.

- **Blue Group**
  - Deposit $2,000 or more and choose one of 10 gifts from this group.

In addition to the free gifts, Eastern Savings and Loan is offering a 5% bonus on all savings accounts. This bonus is available for the first three months, and it will be applied to the customer's account balance. To qualify for the bonus, customers must maintain a minimum balance of $500 in their account during the promotional period.

Other features of the "Savings at the Big C." event include:

- **Regular Savings Certificate**
  - A 6% interest rate on savings balances of $500 or more.

- **Fixed Rate Certificate**
  - A 5% interest rate on savings balances of $500 or more. This certificate is available for a term of one year.

- **Variable Rate Certificate**
  - A 4% interest rate on savings balances of $500 or more. This certificate is available for a term of one year, and it can be renewed annually.

- **Money Market Certificate**
  - A 3% interest rate on savings balances of $500 or more. This certificate is available for a term of one year.

These additional features make the "Savings at the Big C." event even more attractive to potential customers. By opening a savings account with Eastern Savings and Loan, customers can earn high interest rates and enjoy the benefits of a low-cost banking relationship.

This promotion is open to all new customers who meet the eligibility requirements. To participate, customers should visit any of the Eastern Savings and Loan branches or contact the bank via phone or email. For more information, please visit the bank's website or contact customer service.

A NEW CONCEPT IN COMFORT FOR MASONRY

In winter, Zonolite/Insulated block walls are as quiet as funny wonders on their interior surfaces, reducing heat transfer heat loss by 75 to 80 percent, and greatly space-saving masonry systems.

In summer, when the earth is cool, Zonolite/Masonry can be built by your contractor. It is much lower in cost than building with mortar or stone. Zonolite makes brick work easier, more comfortable, too, in winter it stores conditioned heat lost from the house, interior walls and floors of the house tend to store this heat, too, and it retains enough heat to enable more occupants to enjoy the comfort of a home during the winter months.

In both summer and winter, Zonolite/Masonry walls perform better than the most expensive masonry system available. And you can save money in energy costs and enjoy more comfort through the use of Zonolite/Masonry block. It's easy to build, easy to use, and easy to do.

Social Security on road to bankruptcy

After more than a decade of adherence to the original concept of Social Security as a source of modest benefits to supplement other retirement income, the system was expanded in 1965 to cover more people and authorize benefits not directly related to contributions.

The first increase in the maximum tax to the worker—from 40% and the employer to 70% in that year to offset increasing demands on the still skimpy Social Security reserve fund. But despite the need for increasing Social Security checks, the continually expanding list of eligible beneficiaries, and the steady escalation of the maximum tax, observers didn’t become really nervous until the middle 1960s when the system’s assets dropped to a figure equal to annual payments.

Today, with Social Security on virtually a pay-as-you-go basis, the nervousness is bothering among fiscal experts. According to figures of the Department of Health, Education, and Welfare, one of every seven Americans collects some sort of Social Security benefit—disability, student aid, as well as retirement pensions.

The same source reports that only three workers pay taxes for each beneficiary. The figure soon will be reduced to two.

Of the $30 million needed for Social Security checks, slightly more than half are retained, effectively defunding the billion-dollar myth that Social Security is responsible for old age insurance.

In fact, the Social Security system is nothing more than a plan in which today’s workers pay benefits to the elderly, the disabled, survivors and dependents.

And its very existence is threatened by scheduled increases in benefits for retired persons and shrinking horizons that could prompt the burden on the workers who pay the bill.

People must complex to finance a national health payment plan through Social Security further complicate the already outlook.

The only answer, according to fiscal experts, is that his pension is safe is reported by an authority quoted in U.S. News and World Report: "If you’re not a member of Congress, the chances are, the people who dare to abolish Social Security or even reduce current benefits ... it would mean revolution."

But it is apparent that changes must be made.

Whatever form reform takes, it will be painful, involving either benefits or taxes.

Managing for profit workshop Oct 16-17

The Cooperative Extension Service of Michigan State University is now 60 years old. At the beginning, each county was staffed with an agricultural agent and a secretary. The counties have since grown to include women's programs, home economics programs, 4-H, 3-H, and Extension programs. The Extension programs have expanded to include business management, home economics, and family planning.

Richard O'Reilly of California, who was the extension agent in Indiana, felt the experience was the most rewarding of his career. "Today's younger work force is more interested in learning business management than in learning how to plant a garden," said O'Reilly. 

"Extension work is more challenging now than in the past," said O'Reilly. "The problems are different now, and the solutions are different."

Drivers exceeding 55 mph are getting acquainted with State Police

The first in a series of public warnings should have read on Sunday this time (and others) that the Michigan State Police are on the lookout for drivers exceeding the speed limit. The reason: The speed limit law becomes effective March 2 in Michigan, the State Police enforcement period.

In the April-July period last year when the new limit was in effect, 256,198, or 45 percent, of the arrests were for speeding. In the April-July period last year the us deaths in traffic accidents, the leading cause of death in the state, represented 8.3 percent of the total arrests. In the April-July period last year the us deaths in traffic accidents, the leading cause of death in the state, represented 8.3 percent of the total arrests.

The State Police enforcement period this year, according to Mr. and Mrs. Marvin Thelen, is now being held.

The second and third weeks of the April-July period last year were the worst when it came to accidents on our roads. From the first to the third week, the death toll jumped from 3,039 to 4,589, or 51 percent. The New 1975 Oldsmobiles Are Here!
SEE THEM NOW AT
BEE’S Chevy-Olds, Inc.

"We’ve got a feeling you’re going to like all our 1975 Oldsmobiles, including our sporty new Starfire."

It’s a good feeling to have an Olds around you.
"There's a lot of new small coupes on the market. What makes Starfire special?"

"Starfire is a 4-seater Supercoupe with Oldsmobile for a last name."

"We drive down to the ocean a lot. So we were thinking about stepping down to an import to save gas."

"Omega Salon is a roomy compact that's easy on gas—yet it's equipped to give you the kind of comforts you'd get in a little touring car."

Starfire is smaller than compact in size—but it's so big on looks, features and performance (and economy), it's really a brand new kind of car: a Supercoupe.

It was born for the sport of driving. Flush bucket seats. Console. Gauges and tach. New V8 engine, 4-speed full-synch gearbox. Torque-arm rear suspension. Power front disc brakes. GM-specification steel-belted radial tires. Which helps explain why it's a good feeling to have this Olds around you.

We hatched the back to carry a load. 281 cu. in. of economical V8 power. High-back buckets, front, fold-down seat in back. A sleek, action look—coming and going. Super Stock wheel*, chrome rings, stripes are available.

Starfire standard features include: 97-inch wheelbase • Curb weight, 2855 lbs. • New V8 engine with 2-bbl. carburetor, high-energy ignition and catalytic converter emission control system • New extended-interval maintenance schedule • Full-synch 4-speed transmission, shifter mounted in center console • High-rise front bucket seats • Lights/gauge instrumentation • Tachometer • 4-spoke, softgrip steering wheel • Map pockets on doors • Plush-pile carpeting • Steel-belted radial tires, 13x8 wheels • Torque-arm rear suspension design • Power brakes: disc front; drum rear • Pliable nose and tail surfaces • Hatchback rear door • Folding rear seat, carpeted deck over 6 feet long • Space-saver spare tire, carpeted cover.

Available equipment includes: Turbo Hydramatic • Power steering • Tilt steering wheel • Anti-spin axles • Raised letter or white-wall steel radial tires • Super Stock sport wheels • Leather upholstery • Air conditioning.

"First, Olds improved the basic, low-price Omegas for '75. The results were so impressive, they went on to create a new compact-size touring car: Omega Salon."

With high-back reclining lounge chairs in front, a new steering geometry and a steel-belted grip on the road, it has the kind of look and feel you'd expect in an imported touring car. But not the price. Omega also has these basic Omega improvements for gas economy. It's a lot of little Olds—and then some.
"I don't make a lot of money—so I can't spend a lot. But I still want a car I can be proud of."

When you step up to a Cutlass—for less than the price of some other mid-sized cars—you'll be proud and pleased. And you'll like the gas mileage, too.

"A woman in this business needs a car that makes a good impression on people. But I don't want to spend a fortune to do it."

"Take a good look at Cutlass Supreme—our "little limousine." It's a very luxurious car for its size and price. Delivers good mileage, too."
"My Mom lives way out in the country, so we need a car that'll take a lot of driving, but not a lot of gas."

"The family sized Delta 88 Royale is built to take a lot of miles and give good gas mileage. And it'll take you in style and comfort, too."

"I think they've done a great styling job on the 98's—but what'd they do about gas?"

"With Oldsmobile's 98 Regency and Toronado you don't have to lower your standard of driving to raise your miles per gallon."

"I've been a Toronado man since '67, but these days you have to consider gas economy, too."

Delta 88's been known to be a tough car, built for the distance. Now it's built to get more efficient performance and more distance from every gallon of gas. With less required maintenance, at that. But there's more. Olds has re-tuned the ride. Changed the emissions system. Restyled the roofline of 4-door models, and added those little windows you see. So if this year's Delta 88 seems to take you farther and more luxuriously on a gallon of gas, it's not just illusion.

98 Regency—famous for its uncommon touches—now has some new ones: New rectangular headlamps, new side visibility and rear styling, a new smaller V8 engine available. Plus more miles per gallon than last year.

With Oldsmobile's 98 Regency and Toronado standard feature* Toronado Brougham standard feature* Toronado—America's first contemporary front-wheel drive luxury car—makes news for '75 with substantially improved gas mileage, a new Toronado Brougham model, and an sophisticated new "invisible" anti-theft alarm system you can order.
"The kind of kids I drive around can break just about anything. So I need a wagon that's tougher than they are."

"There's a wagon full of reasons to buy an Oldsmobile. Being tough is just one of them."

"We spent a year finding just the right house. Now we need a luxury wagon that's tough enough to help on moving day."

Vista-Cruiser: With Rocket 350 V8, automatic transmission, power steering and brakes, GM-spec. steel-belted radial tires, and basic Olds durability standard on a 116-inch wheelbase, you've got a tough wagon. Cutlass Supreme wagons, too.

Custom-Cruiser: Think of it as an Olds 98 with loads of cargo space. 127-inch wheelbase, luxurious interiors, deep-foam seats and deep-pile carpeting—and now, more miles per gallon than last year. Available without side paneling, also.

It's a good feeling to have an Olds around you.

The new Oldsmobiles are here. And we have a beautiful selection in every beautiful series right now. So look through this brochure. Then come on out . . . while we still have the Olds model you're most interested in.
