Awards honors 3,477 hours of service as Red Cross Volunteer

Honor awards were given to volunteers who have dedicated over 30 weeks of service to the Clinton Memorial Hospital. The awards were presented at an evening ceremony held at the hospital. The recipients included: Dorothy Burns, Elma Miller, Robert Burns, and Lonnie Johnson. These volunteers have each given over 30 hours of service and have been recognized for their dedication and hard work. The total of the active volunteers honored Thursday evening was 28 hours.

DeWitt continues volunteer clean-up

The DeWitt Civic Center has been the site of several volunteer clean-up projects. This week, volunteers from the DeWitt Lions Club and the DeWitt High School football team worked together to clean up the area around the Civic Center. The volunteers picked up trash, cleared debris, and painted the walls of the stands. The Civic Center was in need of a good cleaning after the recent snowstorm. The volunteers worked for several hours, starting at 8:00 AM and finishing at 12:00 PM. They were all very satisfied with the results and plan to continue their efforts in the future.

DeWitt High School

The DeWitt High School football team has been working hard to prepare for the upcoming season. The team has been practicing for several weeks, working on drills and playing games. They have been practicing their plays and techniques in order to be prepared for the upcoming season. The team is looking forward to the start of the season and is excited to play against their opponents.

Back Through the Years

From the Clinton News, 1930, 1949, 1966, & 1989

The ministry gripped me one day last week and I responded in my zealousness to help in the little I could. This was the first time I have helped in this way, and I have never felt so good in my life. The ministry is a great way to help others.

All dogs follow their master, and I am no exception. On the evening of the 6th of October, I walked into the church and saw a group of people sitting around. I went up to them and said, "Hi, I'm John," and they all said, "Hi, John." We sat around and talked for a while, and then we started to sing. We sang "Happy Birthday," and then we went on to sing some more hymns. It was a wonderful time.

Open meeting law is good news

By Richard L. Milliman

almanack

The Michigan Legislature has adopted a broad open meetings law. Under the new law, very few meetings of any public body may be held behind closed doors; this is a very important new law.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

Another example will be the public hearing on the 6th of October. This will be held at 7:00 p.m. in the court house.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

The open meeting law is to be held at 8:00 p.m. on the 6th of October. All meetings of the public will be held in this manner.

Welcome Wagon hostess brings smiles plus a variety of useful gifts

By the Clinton County News Writer

A friendly smile, a helping hand... These are some of the things that are most appreciated to newcomers by Mary Pelham, hostess for Welcome Wagon, St. Johns. Her bubbly personality and community feel at ease and hostess for Welcome Wagon, St. Johns seven years ago, when she too was a newcomer. She was a member of the Newcomers Club is a friendly place to be, which was started by her and several friends. The club has grown to be a very busy place with many different events. It's their goal to assist people who are new to the area.

Hurd School site of Alpha Eta meeting

The members of Alpha Eta Chapter at Owosso High School met at the Owosso Chamber of Commerce on Thursday, September 18. The building was purchased by Dr. Ensign in 1929, along with the Owosso Chamber of Commerce and the Owosso High School. The building was renovated and now houses the Owosso Chamber of Commerce and Owosso High School. The building has been in existence since 1929. Mary Pelham has been hostess for the past two years.

Pelham finds that the people involved with the Newcomers Club are very happy to see Mary Pelham every time they come in. She enjoys doing this type of work and believes it's important to America's future.
Afternoon ceremony unites couple

Holy Childhood Church, St. Johns, was the setting of the Saturday afternoon, Sept. 24, wedding that united Mary Lee and Edward M. Rehmann. The officiating clergyman was Father George M. Bruns. The ceremony was pronounced by Barbara Jean Bums, of 605 N. Clinton St., St. Johns. The groom was a graduate of the Leelanau School and is presently a junior at Michigan State University. The bride is a graduate of the Leelanau and is presently a senior at Michigan State University. Dr. Donald Kendall, of 1009 Sandy Lane, St. Johns and Roaring Brook, Harbor Springs, is expected to officiate at the wedding on Sept. 24. The couple will make their home in the area, farming in Essex Township.

Following the opening ritual, highlights of the wedding were the reading of the anniversary letters. The bride and groom exchanged rings and the couple signed the register. The best man, Bruce Rehmann, and the matron of honor, Judy Moore, will be present for the ceremony.

Anniversaries

Judy Moore, age 39, and Norma Jean Rehmann, age 40, are celebrating their 50th anniversary Oct. 5. May 19-20-21, 1977.

Orphans in Arizona. The Foreign Mission Board of the denomination has received a request from the Arizona children's home, known as "Catholic Orphans of Arizona," to help. They are requesting $50,000 for the care of 100 children.

Judy Moore of Eagle will be exhibiting sheep at the next regular meeting of the Auxiliary Gift Shop Days. Judy Moore of Eagle will be the guest speaker.

Candlelight highlights wedding

Donnie Mauzer and Thomas Pentecost exchanged wedding vows Aug. 28 at 7 p.m. during a candlelight ceremony at the First Congregational Church in St. Johns, MI. The ceremony was officiated by Rev. George Rinckey, aunt and uncle of the bride. The couple took a wedding trip to Boston and Cape Cod after the wedding.

The couple was hosted by the families of the bride and groom. The mother of the bride is the former Beth Turner. The groom's parents are William and Mary Ellen Rossien. The couple is planning a home wedding in May 1977.

The reception was held at the TFMU Ballroom St. Johns. The bride was escorted by her father, Mr. and Mrs. Donald Mazzolini of St. Johns, and her brother, Mr. and Mrs. Donald Mazzolini of St. Johns, and her brother, Mr. and Mrs. Donald Mazzolini of St. Johns.

The wedding was a beautiful affair with white baby's breath flowers and decorations. The bride wore a white dress and the groom was dressed in a black tuxedo. The ceremony was attended by family and friends of the couple.

The wedding was a joyful occasion with many friends and family attending. The bride and groom were overjoyed to be married and looked forward to building a life together.

Bicentennial theme at Oct. 18 meeting

Plan Fall Rally.

With this Bicentennial theme, the window of Clinton County Farm Bureau office is showing the excitement of the year. The Stormy Sea Whirlwind IV, a beautiful 10-pound ham they won in the Sheriff's Sale drive, is displayed for the members. As a reminder of the contributions of the Farm Bureau women, as Farm Bureau members, and as women, the theme is woven into the fabric of the meeting.

Mr. and Mrs. Harvey Fedewa, whose Mesa Moose is in the Bicentennial spirit, are busy attending the meeting. Mrs. Fedewa has been a strong supporter of the Farm Bureau for many years, and her presence is a testament to the dedication of the Farm Bureau women.

Happy Fall Rally.

The Bicentennial theme was emphasized in a reading of the theme for the meeting. "Bicentennial theme at Oct. 18 meeting," was the title of the reading, and it was clear that the members were enthusiastic about the theme.

Mrs. Don Sullivan, president of the Clinton County Farm Bureau, Inc., pointed out that the theme was a great opportunity to celebrate the bicentennial and to emphasize the importance of the Farm Bureau. She noted that the theme was not just a decoration, but a reflection of the hard work and dedication of the Farm Bureau members.

Kincaid District news

Mr. and Mrs. Hurley Bourneau had a harvest victory. Mr. Bourneau is a member of the Clinton County Farm Bureau, and his victory is a testament to the hard work of the Farm Bureau members.

The Bicentennial theme was also emphasized in the reading of the theme for the meeting. "Kincaid District news," was the title of the reading, and it was clear that the members were enthusiastic about the theme.

Mrs. Don Sullivan, president of the Clinton County Farm Bureau, Inc., pointed out that the theme was a great opportunity to celebrate the bicentennial and to emphasize the importance of the Farm Bureau. She noted that the theme was not just a decoration, but a reflection of the hard work and dedication of the Farm Bureau members.

Friendly Farmers hold meeting at Moore home

The Friendly Farmers Community Farm Bureau held a meeting at the Moore home on September 18. The meeting was attended by many members of the Clinton County Farm Bureau, and it was a great opportunity to celebrate the bicentennial and to emphasize the importance of the Farm Bureau.

Mrs. Don Sullivan, president of the Clinton County Farm Bureau, Inc., pointed out that the theme was a great opportunity to celebrate the bicentennial and to emphasize the importance of the Farm Bureau. She noted that the theme was not just a decoration, but a reflection of the hard work and dedication of the Farm Bureau members.

FLB Women announce programs for year

The FLB Women announced the programs for the upcoming year at the meeting on September 18. The programs were designed to celebrate the bicentennial and to emphasize the importance of the Farm Bureau.

Mrs. Don Sullivan, president of the Clinton County Farm Bureau, Inc., pointed out that the theme was a great opportunity to celebrate the bicentennial and to emphasize the importance of the Farm Bureau. She noted that the theme was not just a decoration, but a reflection of the hard work and dedication of the Farm Bureau members.

November 29, 1976

Clinton County News, St. Johns, Michigan

Official certification will be held in the hands of the MI Farm Bureau women in the Clinton County Farm Bureau. The meeting will be held at the Clinton County Farm Bureau headquarters in St. Johns on September 29, 1976. The meeting will feature a special program for the members. The FLB Women will also present a special program for the members on October 10, 1976.

Mrs. Don Sullivan, president of the Clinton County Farm Bureau, Inc., pointed out that the theme was a great opportunity to celebrate the bicentennial and to emphasize the importance of the Farm Bureau. She noted that the theme was not just a decoration, but a reflection of the hard work and dedication of the Farm Bureau members.

With WIN, both employee and employers are winners.

WIN Program

The WIN program, or Work Incentive Program, was established in 1967 as a welfare-to-work program. It was designed to help people transition from welfare to employment, by providing them with job training and work experience. The program was created by the U.S. government to help alleviate poverty and reduce welfare dependency.

WIN Participants

The WIN program is open to all welfare recipients who are registered with the Works Progress Administration (WPA). Participants in the program can receive up to 20 hours of job training each week, with the goal of finding a job that pays a living wage. The program also provides participants with work experience and skills development.

WIN Benefits

Participants in the WIN program receive a tax credit on their training related pay, with the amount of the credit determined by the size of the employer. The credit is calculated as a percentage of the employee's earnings, up to a maximum of $35,000 per year.

WIN Job Placement

WIN participants are placed in training programs or job placements upon completion of the job readiness training. The training programs are designed to prepare participants for specific job opportunities, and may include on-the-job training, apprenticeships, or other forms of work experience.

WIN Success Stories

Many WIN participants have successfully transitioned from welfare to employment through the program. Since its inception, over 2 million people have participated in WIN programs across the United States.

WIN Future

The WIN program is continually evolving to meet the changing needs of participants and employers. With the goal of providing stable employment opportunities, the program is expected to continue to grow and expand in the future.

DeWitt Panthers fall in Capital Circuit debut

The Panthers lost a tough battle to the Dansville Bulldogs in the Capital Circuit opener. The game was a defensive struggle with both teams having their moments in a 15-7 final score.

On the offensive side, the Panthers struggled to find their rhythm against the Bulldogs' strong defense. Despite having several opportunities, they couldn't convert them into points, ultimately leading to their defeat.

However, the Panthers showed great resilience throughout the game, holding their own against the highly regarded Bulldogs. Defensive efforts by both teams were commendable, with the Bulldogs holding the Panthers to only 7 points.

On the flip side, the Bulldogs capitalized on their opportunities, scoring 15 points to secure their victory. The game was a testament to the strength and determination of both teams in the Capital Circuit.
Augie Swan Valley only to win at a second half explosion brought by the Marauders of Friday night’s game with Michigan State-Notre Dame football game in East Lansing leading to parking facilities surrounding Spartan Stadium. The facility has parking for 6,000 vehicles. The parking is one-way inbound prior to the game and one-way outbound of Friday night’s game with motorists to arrive at parking lots no later than 12:45 p.m. to do on a 4th down and one situation. The Marauders went ahead 6-0. St. Johns PP&K Winners

WINNERS IN THE 8 year old division were: Paul Roebuck, 1st place; Richard Blevins, 2nd place; and Paul Harris, 3rd place.

WINNERS IN THE 9 year old division were: John Bozum, 1st place; and Scott Harris, 2nd place.

WINNERS IN THE 10 year old division were: John Bozum, 1st place; and Paul Harris, 2nd place.

WINNERS IN THE 11 year old division were: John Bozum, 1st place; and Paul Harris, 2nd place.

WINNERS IN THE 12 year old division were: John Bozum, 1st place; Richard Blevins, 2nd place; and Paul Harris, 3rd place.

WINNERS IN THE 13 year old division were: John Bozum, 1st place; Richard Blevins, 2nd place; and Paul Harris, 3rd place.

WINNERS IN THE 14 year old division were: John Bozum, 1st place; Richard Blevins, 2nd place; and Paul Harris, 3rd place.

WINNERS IN THE 15 year old division were: John Bozum, 1st place; Richard Blevins, 2nd place; and Paul Harris, 3rd place.

Hospital buys hematology unit

The laboratory at Clinton City Hospital has recently acquired a Coulter Model S Hematology Instrument. This instrument can perform its entire work in the laboratory. The Coulter Model S Hematology Instrument is a unique and versatile device designed for comprehensive analysis of the cellular components of human blood. The instrument provides accurate and precise counts of the white blood cells, platelets, and other elements in human blood. The results obtained from this instrument are immediately available for the physician and other health care professionals.

Half of the automobile accidents involving pedestrians occur at night. Each year, 10,000 pedestrians are killed and another 250,000 are injured. Reflectorized clothing could have prevented many of these accidents.

A manufacturing company recently developed a reflecting material now being introduced to the clothing industry. Special coatings of tiny glass beads that act as reflecting lenses are bonded to fabric (20,000 per square inch). Any jacket, coat, rainwear, shell or suit can be reflectorized. Only a headlight beam makes the reflectors visible. During daylight hours the fabrics are undistinguishable from conventional fabrics. The material is applied to the apparel as a trim, either functional or decorative. The materials are nontoxic, nonirritating, and durable for the life of the garment through repeated washings and dry cleaning. Palaces are available in a wide variety of colors and in widths and shapes from one inch to a yard. They are priced at about 20 cents per square foot and can be sewn or glued or affixed in other ways. As little as 30 cents worth of reflecting material can be used to "reflectionize" children's clothing.

Reflectors could be looking for these garments to appear in the stores. So far, some six million garments have been reflectorized. The manufacturer estimates this figure will increase by 40 percent this year. The company has developed a hangtag for reflecting materials that says "this garment might save your life.

In man's search for excellence...

1977 OLDSMOBILE
Leonardo da Vinci (1452-1519) was a gifted painter, inventor, engineer and visionary, spent his lifetime achieving new measures of excellence. To represent Oldsmobile's search for new design, technology and human engineering means to achieve a new excellence in automobiles, we have chosen the famed da Vinci graphic theme shown below.

Leonardo da Vinci, circa 1500

The Search:

Cars that must do more than they've ever done before to meet the demands of our times.

The 1977 Oldsmobiles.

THE CHALLENGE: To design and engineer luxury and family-size automobiles to meet the new demands of our times. More weight-efficient. More space-efficient. More practical in everyday driving. Meet these demands, without sacrificing the traditional qualities buyers have come to expect in full-size cars.

THE SOLUTION: New Ninety-Eights and Delta 88s vastly different from '76 models—the wave of the future, right now.

NEW SIZE: There's a new kind of living room inside. The Delta 88 Coupe, for example, offers more legroom and headroom for rear passengers, without losing any up front. Six passengers can still ride in comfort. Even more surprising is the trunk space—the Delta 88 still gives you over 20 cubic feet!

NEW "DRIVEABILITY": There you are, in all that big-car luxury. Yet you're able to thread through traffic with a new confidence. Take a tighter turn. Slip into parking spaces you'd pass up before. There's a new dimension to the pleasure of driving a Ninety-Eight.

With its new size and 119-inch wheelbase, the turning diameter is nearly 2½ feet shorter than before. New design has resulted in new maneuverability. You'll sense it the first time you drive.

NEW RIDE: In smoothness, softness and ride, the new Ninety-Eight rivals the best Oldsmobiles of all time.

New deeper-travel suspension systems were designed, front and rear. Increased positive caster built into the front suspension helps directional stability; a large-diameter stabilizer bar helps control sway. Softer springs help absorb road shock. The body mounts are softer to isolate the body from the chassis, to help reduce road noise and vibration. And the results were "road tested" by new computer simulation technology before the first car was ever built!

NEW COMFORT: Among the Ninety-Eight's advances is one of a very personal significance. It's where you sit—and how. Our seats have a new design for your comfort. Subtle differences help you sit in a natural posture; deep foam cushions mold to your body. There are no springs to sag or limit your comfort. And they're more space-efficient, too; they take up less interior room.

NEW ACOUSTICS: We took a whole new approach in acoustics engineering to achieve the inner quiet in Ninety-Eight that is the trademark of the world's luxurious cars.

More effective, better fitting sound absorbers were developed. New "super-soft" door seals help keep out irritating wind noise. And the ceiling above you is not only better looking, it's a more effective barrier against the noises of the outer world.

NEW CORROSION DEFENSE: Now zinc-rich primers are used extensively throughout the body. New plastisol compound is flowed into body joints, covering seams and welds. New application techniques reach the innermost crannies. The result is more thorough corrosion protection than any Olds had before.

NEW ENGINE DESIGN: Each Rocket V8 we offer has been redesigned for weight savings, using new designs and modern casting techniques. The lineup is new, too; Delta 88, for example, now gives you a new choice of 260, 350 and new 403 V8s available.

In all of them, a new thermal control in the air intake improves operation when the engines are running cold; a divided-well carburetor aids operation in hot weather.

NEW DIAGNOSTIC CONNECTORS:

In the engine compartment is a new connection to the engine's electrical system; when it's plugged into an analyzer, problems can be pinpointed quickly, and serviced more promptly. When you order air conditioning, it has its own connector, too.

WE THINK you're going to like the new Ninety-Eight and Delta 88—especially when you see how we've preserved the qualities that people buy full-size Oldsmobiles to enjoy. But come on in, and judge for yourself.

Can we build one for you?
NINETY-EIGHT

A remarkable new kind of luxury car.

The '98 Regency below wears a new look of sculptured elegance. Its lines are clean, authoritative. The roofline is more formal; new landau lamps on the rear pillar lend a fresh distinction. Inside, you'll find a new air of limousine-like luxury. Rich crushed velour. "Loose cushion" look to the seat-backs. More legroom and headroom in back than last year. Wide center armrests. The quiet. The comfortable ride. The ease of driving. Details like a digital clock and twin storage pouches on the seat-backs add extraordinary touches of elegance you will appreciate.

Under the hood, a redesigned Rocket 350 V8 responds smoothly. Power steering, power brakes, automatic transmission, power windows and a divided front seat all help the driver take command—and, of course, your '98 Regency behaves accordingly.

Add it up, then compare prices against other luxury cars—you'll see why '98 Regency fully deserves its description as the "thinking man's luxury car."

(1) '98 Regency Sedan. (2) Luxury. Comfort. And there's more legroom and headroom in back. (3) '98 Regency Coupe. Can we build one for you?
DELTA 88
This could upgrade all your ideas about family cars.

American families move into full-size cars for very practical reasons. They need the room, especially in the back seat. And trunk space. And they want the solid, big-car comfort and ride. Well, that's just what our all-new Delta 88 gives you—in a new design that's more practical for today's world. It's the family car of the future—but Olds has it now.

Delta 88 moves with new agility on a 116-inch wheelbase, and responds with a 231 V6 or a choice of redesigned V8s under the hood. Inside, there's more headroom and more legroom in back. If you'd like a lot of luxury, too, you've got it in beautiful abundance in the Delta 88 Royale, as you can plainly see on this page.

This is a diagnostic connector in the engine compartment. With an analyzer plugged in, it can help diagnose a service problem in the engine's electrical system. It's a time-saver—and it's standard. Like a lot of other things.

What you're seeing here is just the top of the news about Delta 88 for 1977—your Olds dealer has a lot more news, and a handsome new Delta 88 for you to drive!

(1) Delta 88 Royale Coupe. (2) Royale Sedan. (3) Luxurious velours and 6-passenger comfort. (4) A new sunroof is available. (5) Over 20 cu. ft. of trunk space!
TORONADO
New concept in personal luxury cars.
Rarely does a new car appear that's so impressive it causes excitement wherever it's seen. Toronado XSR is that kind of car. A classic.
A new panoramic rear window wraps around to form side windows in one sweep of glass. Twin glass panels are skylights in the roof; touch a button, and they slide inboard to create a convertible feeling.

But there's more. Toronado's famous front-wheel drive is now powered by a new Rocket 403 V8, equipped with a totally electronic spark timing system different from that in any other car. A pre-programmed microprocessor instantly and continuously fine-tunes performance to the needs of the moment—whether the engine is running cold or warmed up, accelerating, decelerating, or cruising! Both Toronado XSR and Toronado Brougham have this innovation.

Then there's the inner world of Toronado. Ribbed velours. The loose-cushion look. A divided front seat. Center armrests, power windows and air conditioning are standard. Comfort. Quiet luxury. Suddenly "the Toronado experience" is a very meaningful phrase.

CUSTOM CRUISER
New kind of full-size wagon.
To be more space-efficient, we gave it a new size, a 116-inch wheelbase, a shorter turning radius. A cleaner, squarer cargo area. A lockable storage area in the sidewall, more storage under the floor, a spare tire extractor. A 3-way tailgate. And a redesigned Rocket 350 V8, standard.

To make it a Custom Cruiser, we gave it comfort, a soft ride, an uncommon quiet and luxury inside. Lots of standard equipment. Even velour upholstery is available, for that luxury sedan look. In fact, you'll find it hard to remember you're in a wagon, if you don't look back!

VISTA-CRUISER
Beautifully elegant—but tough!
Outside, Vista-Cruiser is a very elegant wagon. Inside, more of the same—with deep, thick carpeting, full-foam seats and high-quality vinyl upholstery.
It's elegant enough for a night on the town—in any town! But down deep, Vista-Cruiser is a wagon owner's love. It can handle most any workday chore that might pop up—shrubs for the yard, furniture for the family room or toting home blue ribbons from canine contests!

Sound like a winner? You'll think so—on any workday—and every elegant evening!
Can we build one for you?
CUTLASS
America's most popular mid-size car line.

Sure, styling and value are reasons why Cutlass was America's best-selling mid-size car line again in '76. Another reason is Cutlass' uncanny ability to satisfy the varying demands of so many car buyers—whatever they may be.

The top-of-the-line Cutlass Brougham, for example, is built with the luxury-oriented buyer in mind. It offers the kind of luxury you can see and feel and enjoy. Yet it carries a practical price. You can even order a Brougham Coupe with a distinctive Hatch Roof with lift-out panels that let in sun and air.

If you really love to drive, there's Cutlass Salon. With reclining front seats and impressive roadability, it's a grand touring experience! And you can choose an automatic or short-throw 5-speed overdrive manual shifter at no extra cost.

Cutlass Supreme is something else again. With classic styling and mid-size maneuverability, it traditionally is among the leaders in resale value. No wonder it has become one of the most popular Oldsmobiles in our history! Then there's Cutlass S with youthful lines and an affordable price that makes it a favorite with budget-minded new-car buyers. If you like your "S" on the sporty side, you can order the famous 4-4-2 package for a pure-bred sport in looks, maneuverability and spirit! And you can choose Cutlass S or Supreme with a standard 231 V6 engine. Or go all the way and order a 350 or 403 Rocket V8.

If it sounds like we have a Cutlass that is just right for your needs and your lifestyle—you're getting the idea! Can we build one for you?

The joy of driving is alive and well!

You know it the first time you test drive a Starfire!

With great looks, sporty 97-inch wheelbase, front disc brakes and short-throw 4-speed manual—every curve, turn and straight-away is sheer pleasure!

And Starfire carries a practical price. Extra luxury touches? Then you’ll like Starfire SX—its own special interior, a custom steering wheel and brightmetal moldings for the wheel openings.

Or maybe you’re after the ultimate Starfire. Then order our GT package—with tachometer, special gauge cluster and clock. You also get fat, raised white-letter steel radials and rear stabilizer for cornering, plus bold stripes and rallye wheels for GT looks. And admiring stares.

A 140 E4 engine is standard. But you can order a gutsy 231 V6 engine, automatic and 5-speed overdrive manual shifter—just for the fun of it. The joy of driving is alive and well!

Today, there are a lot of compact cars to choose from. Fortunately, one is an Oldsmobile!

So you can have a compact with room for six, a smooth ride, impressive Olds quality—and solid Olds value!

First is Omega Brougham, with the kind of comfort, luxury and quality you like—at a very practical price. We call it our Import Fighter!

Then there’s Omega F-85, our lowest priced Olds. It’s a very convincing argument for making your first car—your first Olds!

In between is Omega with a long and welcome list of value features. Like an impressive V6 engine, front disc brakes, aluminized exhaust system, high-energy electronic ignition system—and much more!

All this, plus what you really buy a compact for—easy parking, impressive maneuver-ability and easy-to-take price. A lot of Oldsmobile ... and a lot of value!

The new Oldsmobiles are here. And we have a beautiful selection in every beautiful series right now. So look through this brochure. Then come on out ... while we still have the Olds model you’re most interested in.
