Isenhart not happy with DeWitt showing

**WILLOWVILLE—DeWitt won, 20-6, tonight over Central City, but Head Coach Tom Isenhart wasn't happy with the way his team played.

In the second quarter when DeWitt led, 13-0, Isenhart moved the position of several players and inserted Tom Ashley at quarterback. Isenhart said, "I was happy to try something else after losing yesterday's game." But the tactic didn't work.

DeWitt started strong scoring the first touchdown of the game on a nine-yard TD pass. Ron Wilcox passed to Tom Ashley for the second TD, but the conversion attempt failed. Isenhart said, "I was pleased with the way we played in the second quarter when Wilcox passed a screen to Ashley. Wilcox passed the ball after running through the Spartan line, and Ashley scored the second TD in the second half."

Wilcox and Ashley proved Isenhart right by hitting the ball on the first and last passes. Wilcox was successful with several Spartan players and passed the second TD in another play.

Isenhart said Tom Ashley was the second best player on the team. Ashley scored the points after Wilcox passed a pass to bring the score to 13-0. Isenhart added, "The defense looked good during the second half. The offense will be better this year. We are a good team against DeWitt." Isenhart said the team will take place of 9 a.m. Friday at DeWitt to play the DeWitt defense.

DeWitt came back with 3:10 left in the first half. DeWitt lost the services of waterboy Jim Jarms in the second quarter. Isenhart said, "I'm sure Webberville will take this game well. We will try to take it against DeWitt." Isenhart added, "We think this is the kind of car America needs. We think this is the kind of car we want to sell. Plymouth Valiant."

Marauders skin Sharks, lead MMB

By TIM GOSLING

OVID-ELIE (MI) — Local head coach Mike Gillett, a former St. Johns prep standout, must have felt like General Custer at Little Bighorn when St. Louis came to town.

It wasn’t supposed to go like this at all, especially after the high powered Gilliat offense scored three quick points after six, St. Louis gained a 21-0 lead in the first quarter and then took the ball on their own 20-yard line with 35 seconds remaining in the first quarter. A Marauder TD drive had trimmed the lead to 13-0.

Gary Groom helps doom the St. Louis Sharks on this off-Touchdown first two attempts. With third O-E runners at the line on their yard-line. And it appeared that were forced to kick, driving the Shark defense might have their first series of downs and Gordon Baker. Groom openers by halfbacks Gary Groom 24-yard-line, broke through the Shark line with a series of quick and Gordon Baker. P-W makes it three in a row

POTTERVILLE--(Press & Exponent)--The Little Pirates beat the Redwings tonight 22-15. The score proved to be a one-point victory as the Pirates scored with only 26 seconds left to play.

The Little Pirates took the lead early in the game, scoring on the second play from scrimmage. The Redwings tied the score at one with their first touchdown, but the Little Pirates took the lead back with their second touchdown.

Defensively, the Little Pirates held the Redwings to 135 yards of total offense, compared to 260 yards for the Little Pirates. The Redwings fumbled the ball three times, and the Little Pirates recovered two.

The Little Pirates will face the Bath Panthers next week.

DeWitt river project lacking in manpower

That National Guard truck at the top of the hill is aiding DeWitt volunteers in removing an old railroad trestle cement base from the Looking Glass River near the municipal park. With some effort, and a few tries, they managed to complete the task.

Youthful volunteers discover an old handmade raft and remove it from the river.

Citizen of the Week Plan

it takes a lot of extra effort to make a city's community and CLINTON NATIONAL BANK and TRUST COMPANY is where you can bring recognition to some deserving citizens.

And our time & temp sign will tell who's making it happen .

We expect some of our judges (CNB&T staff members) to come away from the weekly selections a bit dizzy, but nevertheless, the name of each week's honored citizen will appear on the week message panel of our time and temp sign at the front of our St. Johns office. We'll see you then . . .

But get job done!

Public assistance or "welfare" is one of the most costly and most controversial of all our social programs. It is a matter of great concern to many people of all political persuasions, and one that provokes considerable debate and controversy.

However, it is important to remember that public assistance is designed to help people who are unable to support themselves. It is not a substitute for work or a way to avoid responsibility. People who are able to work should be encouraged to do so, and any assistance they receive should be temporary and provided only as a last resort.

In recent years, there has been much discussion about the effectiveness of public assistance programs. Some have argued that they are too generous and encourage dependency, while others believe they are too stingy and do not provide enough support for those in need.

In my opinion, the most important goal of public assistance programs should be to provide temporary support for those who are unable to work, and to encourage them to find work as soon as possible. It is a society's responsibility to ensure that its citizens have the means to support themselves and their families, and public assistance programs can play an important role in achieving this goal.

However, it is crucial that we also address the root causes of poverty and inequality. This will require a sustained commitment to policies that promote economic opportunity, education, and social mobility. Only by addressing these underlying issues can we hope to truly address the problem of poverty in our society.

I believe that we must work together to ensure that our public assistance programs are effective, efficient, and fair. Only then can we truly help those who need it most and build a society that is more just and equitable for all.
**Ballenger defends action on state aid money bill**

Ballenger, who has been a vocal critic of state aid, defended his position in a speech he gave last week. He argued that the money for education should come from the local community and not from the state. He said, "I believe that the state should play a role in education, but not in a way that undermines the efforts of local communities." He added, "We need to support our schools, but we don't need state aid."

There's a lot of "scare" talk about America's youth these days. Every paper you read...Every time you twist a dial...You worry...
Then, you start thinking about a great bunch of kids who make up 4-H. The kids who make up America. They've dedicated their growing-up years to learning and helping. Developed skills and put them to work—at home, in their communities. They're "hip" on strong bodies and strong character. They care about the world. Suddenly, the "scare" talk turns to "care" talk. And you relax.
It's bright and hopeful again. Thanks, all you 4-H'ers. America's future belongs to you. You are America's future!
